SIPHONS COMPATIBILITY

SOFTMOOD

Softmood basin units are delivered **without** a space saving siphon, therefore this should be ordered separately. Space Saving Siphon - J428467

NOTE: If you are installing a Softmood basin unit with a Tonic II vanity non FBU (as indicated in this matrix), there is no need to order a space saving siphon as this vanity is delivered with a regular Idealflow siphon.

STRADA

Strada basin units are delivered **with** a space saving siphon so there is no need to order this separately.

NOTE: If you are installing a Strada basin unit with a Tonic II vanity, a space Idealflow siphon needs to be ordered separately. Space Idealflow Siphon - N8326AA

TONIC II

Tonic II basin units are delivered **with** the Space Idealflow or the Space Saving Siphon. So when installing a Tonic II basin unit with a Tonic II vanity (as indicated in the matrix), you do not need to buy a siphon separately.

NOTE: If you want to install a Tonic II basin unit with a vessel from any range a space saving siphon needs to be ordered separately. Space Saving Siphon - J428467

Installing a basin unit from any range (excluding Tonic II) with a Tonic II vanity:

- A regular Idealflow siphon is provided with the Tonic II vanities non FBU. There is no need to order extra siphon if the vanity is installed with a Softmood or Ulysse/Tempo/Gemma2 basin unit.
- A space Idealflow siphon must be ordered if a Tonic II vanity is installed with a Strada basin unit. Space Idealflow Siphon - N8326AA

ULYSSE/TEMPO/GEMMA2

Ulysee/Tempo/Gemma2 basin units are delivered **without** a space saving siphon, therefore this should be ordered separately. Code Space Saving Siphon - J428467

NOTE: If you are installing a Ulysee/Tempo/Gemma2 basin unit with a Tonic II vanity non FBU there is no need to order a space saving siphon as this vanity is delivered with a regular Idealflow siphon.
