Here at Nene Valley Community Centre, we have a large variety of rooms and facilities on offer to hire for members of the community; both recreational and event use. The site has a spacious community hall that can accommodate up to 120 people, but also two smaller halls for independent use. Along with halls, we can offer high-quality sports facilities with both grass and sand-based astro-turf. The site also contains four changing rooms, all with shower facilities which can be hired on addition to the sports facilities.

We aim to fulfil the needs of the local community and have strong ties to various members regarding different clubs and classes. On the site, we have a newly established vegetable garden in which various clubs can use and reap the rewards! We also have a community trim trail for use of both the public and local community members. We aim to have annual Christmas and Summer fairs in which community members and classes can have stalls, which in turn boosts the community and creates a sense of family.
