PERFORMANCE

Every Under Armour® product is doing something for you: it's making you better. Following are the core pieces of DNA that deliver on this promise. The building blocks of performance.

WATER-RESISTANT

HIGHLY WATER AND WIND-RESISTANT

WATERPROOF / WINDPROOF

COATING ON THE INNER LAYER OF YOUR GARMENT ABSORBS AND RETAINS YOUR OWN BODY HEAT, SO YOU STAY WARMER LONGER... WITH NO EXTRA WEIGHT OR BULK.

Waterproof and breathable GORE-TEX® outerwear is made of the very toughest fabrics and is thoroughly tested to guarantee performance even after serious wear and tear.

PrimaLoft® Silver Insulation Down Blend is the ultimate hybrid of 40% PrimaLoft® ultra-fine fibers and 60% water repellent down offering no compromises – with warmth equivalent to 650 fill down within your gear, and permanent water-resistant technology that maintains 94% of its warmth when wet.

Our revolutionary scent technology combines synthetic Zeolites with the anti-microbial power of Silver to trap and suppress the growth of odor, and keep you undetected.

Polartec® Power Wool™ fabrics are designed to keep you dry and comfortable. All fabrics in this series feature a bi-component knit construction that uses different yarns on either side of the fabric.

Waterproof and breathable GORE-TEX® outerwear is made of the very toughest fabrics and is thoroughly tested to guarantee performance even after serious wear and tear.

ArmourBlock® neutralizes odor-causing microbes to keep your gear smelling fresher longer.
