The casual contemporary feeling of the Modena Collection is achieved by raising the cabinets on a simple yet elegant base. The upper cabinet is outlined with a chamfered face frame to highlight the subtle hand detailed Modena finish. To complete the effect, the use of the expertly applied finish and physical distressing brings an approachability that other more modern finishes lack.

The Sagehill Designs focus on function is not ignored in the Modena Collection. Features such as ample open interior storage with roomy storage drawers, and adjustable levelers add usability to each piece. Sagehill Designs trims each cabinet with matching decorative hardware designed to be true to the overall theme. We also engineer years of trouble-free function into each cabinet using only the finest materials and construction methods. The Modena Collection is offered in a variety of vanity widths and complementing accessory pieces including storage bases, tall display units, and a matching mirror.

See for yourself how the Modena Collection will complement today's interiors and lifestyles.
