THE GLOBAL LEADER »
IN CONTROL ROOM CONSOLES

NEW
DUAL SIT/STAND

WINSTED CORPORATION

Winsted is the worldwide leader in control room console and furniture solutions. We create attractive, ergonomic consoles that interface with your operators to improve comfort and optimize efficiency. We offer stock, customized and custom consoles suitable for any application. Whether you are building a state-of-the-art control room from the ground up, or you simply need to upgrade your operations, Winsted can provide the ideal solution. Our experts combine the disciplines of industrial design, ergonomics and interior design to create solutions that reduce fatigue, improve productivity and inspire. Our commitment to customer service is second-to-none and your satisfaction is guaranteed.
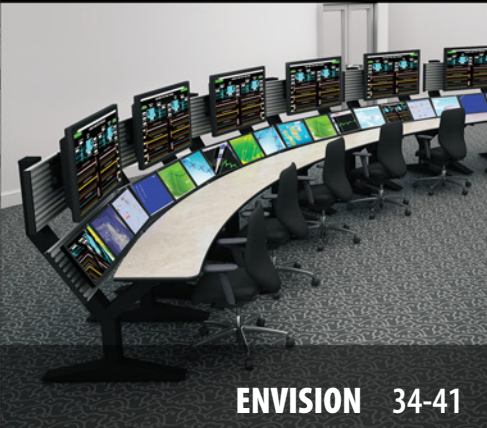

PRESTIGE SERIES CONSOLES

Prestige Consoles are ergonomic, modular and adaptable, giving users flexibility in any control room environment. Prestige consoles feature the Versa-Trak monitor support system, which offers the ultimate in adjustability. Monitor viewing angles and sight lines are easily optimized based on personal needs. Prestige consoles are beautiful with a feature set second to none.

PRESTIGE SIGHT-LINE SERIES™

Our **Flagship Console** is truly one-of-kind with a world class feature set, which is complimented by an impressive appearance making it ideal for all control room applications. Sight-Line consoles are modular, reconfigurable and expandable to meet your changing needs, and can be customized in numerous ways to create a unique solution.

PRESTIGE SLAT-WALL SERIES™

Our **Slat-Wall Console** is built on the same foundation as our award winning Sight-Line console. The same world-class feature set is incorporated with slat-wall to provide added versatility and an element of privacy. The slat-wall is 15" tall and constructed of high quality extruded 6105-T5 aluminum. The black anodized finish is attractive and smooth to the touch. A variety of monitor mounts and accessories are available to mount on the slat-wall.

PRESTIGE INSIGHT SERIES™

Our **Compact Console** features a high-density profile, designed for a high performance world. Insight's overall depth of 32" saves valuable space and maximizes control room functionality. Our engineers reduced the overall depth of the chase and work surface on the popular Sight-Line console to create a compact console solution. The result is an efficient footprint that meets ergonomic standards and provides ample desktop workspace.

PRESTIGE ASCEND SERIES™

Our **Sit/Stand Console** offers three programmable height settings for ultimate versatility and optimum comfort in any control room setting. This completely redesigned sit/stand console includes electric-lift legs, which enable operators to quickly and easily adjust the work surface height from 28-1/2" to 44-1/2" with the push of a button. Two-, three- and four-leg systems are available with load capacities of 300, 450 and 600 lbs. respectively.
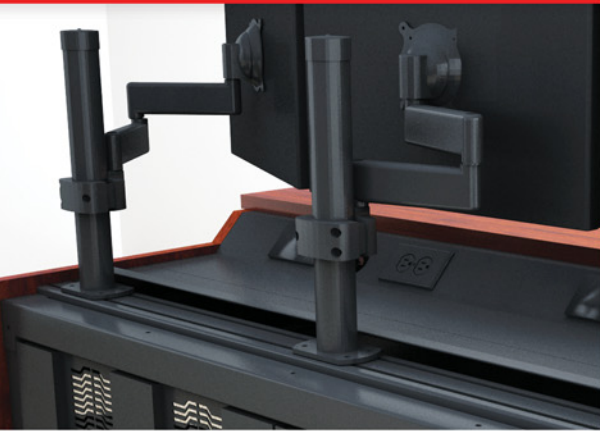

VERSA-TRAK MONITOR MOUNTING SYSTEM

Integrated horizontal aluminum track system will support a wide variety of monitor arrays. Versa-Trak offers the ultimate in versatility with easy horizontal adjustment. Post-mounted VESA brackets provide vertical adjustability along with the ability to tilt and pivot the monitors.

INTEGRATED DATA/POWER

Keep your electronics up and running. Sight-Line and Insight consoles feature openings for universal data mounting plates and duplex power outlets, conveniently located at the back of the work surface where they are within easy reach to connect electronics.

EASY-ACCESS CABLE MANAGEMENT

Enhance reliability while protecting and managing your cables. All Prestige consoles feature convenient cablemanagement solutions that are easily accessible. A large drop-down interior tray for additional cable management is also available as an option.

MULTI-PURPOSE DOORS

Double-panel front and rear doors are extra sturdy to support a CPU shelf or file/storage bin for convenient swing-out access. Prevents reaching and working in confined storage spaces.

PRODUCT FEATURES AND HIGHLIGHTS

Three Base Console Widths
Base consoles are available in three widths: 24", 48", and 72". Features the Insta-Lock fastening system for simple construction. Black powder-coat finish.

Corner Fillers
Corner fillers help fit consoles into rooms, and deliver a convenient, ergonomic wrap-around operator console. Choose from 15°, 45°, and 90° concave corner options or 15° and 45° convex corner options.

Easy-Access Cable Management
Enhance reliability while protecting and managing your cables. All Prestige consoles feature convenient cable management solutions that are easily accessible. A large drop-down interior tray is also available as an option.

Multi-Purpose Locking Doors
Double-panel doors are extra-sturdy to support a CPU shelf or file/storage bin for convenient swing-out access.

Anti-Tip Extension
Extensions stabilize the console on all in-line console configurations. Anti-tip extensions come standard with all end frames. Black powder-coat finish.

Data/Power Access
Openings for a universal data mounting plate (RJ-45, HDMI, CAT-5, CAT-5E, CAT-6, BNC, and S-Video) and/or duplex power are conveniently located at the back of the work surface on Sight-Line and Insight consoles.

Versa-Trak Monitor Mounting System
Integrated horizontal aluminum track system will support a wide variety of monitor arrays. Versa-Trak offers the ultimate in versatility with easy horizontal adjustment. Post-mounted VESA brackets provide vertical adjustability along with the ability to tilt and pivot the monitors.

Decorative TruForm End Panels
Complete the look of your console with our popular TruForm end panels. TruForm panels are available in a wide variety of colors. End panels can also be custom ordered in laminate or solid-surface materials.

Rack Mount Turret
Optional Sight-Line rack mount turrets can be positioned to meet your needs. Available in either 7" (4U) , 10-1/2" (6U), or 19-1/4" (11U) by 19"W EIA rack space. Features a vented top. Decorative wood trim is available. 10-1/2" (6U) turret is available for Insight.

Adjustable Monitor Mounts
VESA-compliant pivot/tilt mounts easily attach monitors to a support post, and provides smooth pivot and pitch adjustment for optimal viewing of flat panel monitors.

Four Monitor Mount Post Heights
Available in four different heights: 15", 28-1/2", 42" and 60" so you can create a monitor array suitable for any application.

Optional M-View Monitor Wall
Sight-Line and Insight consoles work in tandem with our M-View monitor wall system to support large plasmas and/or LCD monitors over rack mount turrets.

Multiple Work Surface Options
Choose from four work surface options. Our proprietary Endurance Plus and Comfort Edge work surfaces, as well as Corian® and Marmoleum® options are available for all our consoles.

Slat-Wall Mounting System
Constructed of high quality extruded 6105-T5 aluminum, the Slat-Wall system is 15" high and designed to support a variety of monitor mounts and accessories.
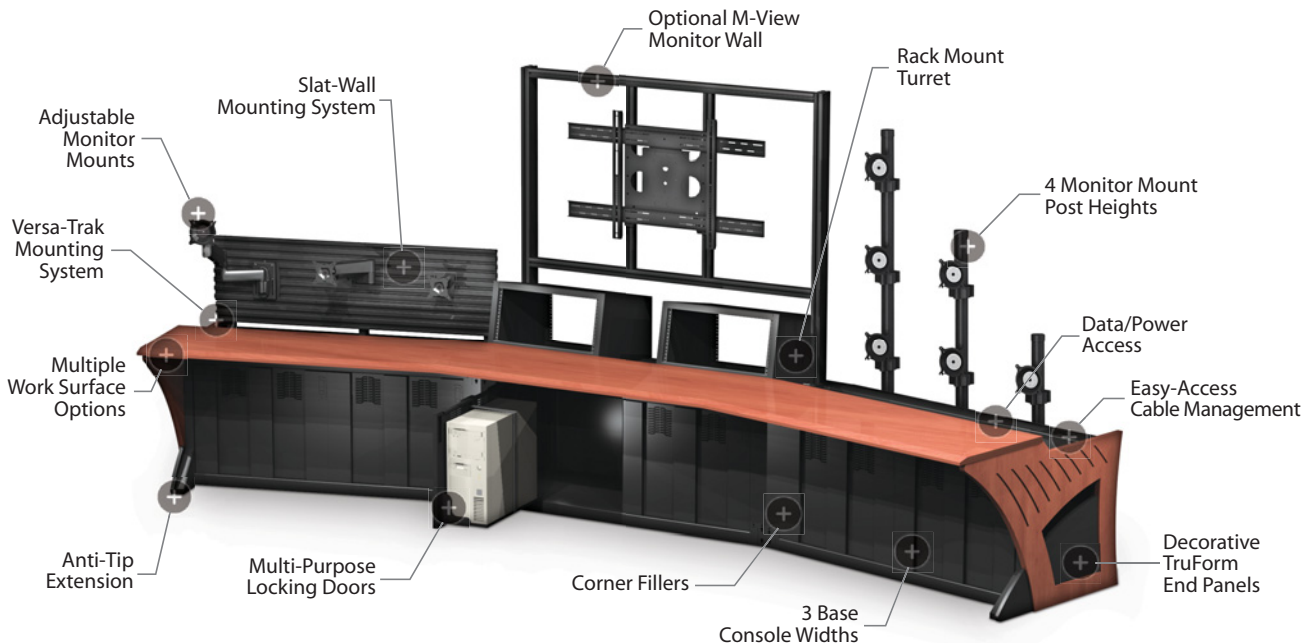

SIGHT-LINE CONSOLES

Sight-Line consoles feature our integrated Versa-Trak monitor mounting system, which offers the ultimate in adjustability. The Versa-Trak system allows users to optimize and easily modify sight lines and viewing angles based on personal needs. If you are looking for unparalleled beauty and function designed specifically for your needs, you have found the solution. Whether you need a single workstation or a complete control room, Sight-Line consoles are perfect for all installations.

SLAT-WALL CONSOLES

Our new Prestige Slat-Wall console takes flexibility to a new level. With several monitor mounts to choose from, there are virtually an infinite number of ways to configure and adjust your monitors. Eliminate clutter and add space with a selection of Slat-Wall accessories designed to keep you organized. Slat-Wall panels also enhance personal workspace by adding an element of privacy.

![Winsted Control Room Consoles logo]

INSIGHT CONSOLES

Insight consoles incorporate all the features found in our popular Sight-Line console and then packages them into a compact profile that saves space and maximizes the number of operators able to staff the control room. If you are challenged for floor space, but want a fully functional console packed with features, Insight is the solution.

ASCEND CONSOLES

Keep your operators happy, healthy and productive with our Ascend sit/stand console. Changing positions throughout the day can help minimize physical stress and fatigue. Ascend provides a wide range of movement and easily allows operators to alternate between sitting and standing at the push of a button.

SINGLE-OPERATOR <u>SIGHT-LINE</u> CONSOLE

MODEL#	HEIGHT	WIDTH	DEPTH
W5721	28-1/2" (724mm)	78" (1981mm)	43-3/4" (1102mm)

THREE DRAWER FILE CABINETS - BLACK

MODEL#	DIMENSIONS	WEIGHT
10767	27"H x 15"W x 20-7/8"D (686 x 381 x 530mm) - SIGHT-LINE	73 LBS.
10765	27"H x 15"W x 17-1/2"D (686 x 381 x 446mm) - INSIGHT	70 LBS.

Compact cabinet fits neatly under a work surface for storage of files in the bottom drawer. Middle drawer is perfect for items that are 4" high and top drawer works well for paper, pens and pencils. Plastic sliding pencil tray comes with cabinet.

10764	12"H x 14-3/4"W x 17"D (305 x 375 x 432mm)	14 LBS.

Converts the 10767 and 10765 from a three drawer cabinet to a two drawer file cabinet. 10764 replaces the two box drawers that come standard with 10767 & 10765.

PRESTIGE UTILITY SHELF

MODEL#	DIMENSTIONS	WEIGHT
W5780	15"H x 22"W x 18"D (381 x 559 x 457mm)	20 LBS.
W5781	28-1/2"H x 32"W x 16"D (724 x 813 x 406mm)	25 LBS.

Add storage space and keep your work space clean and organized with this functional utility shelf. Shelf is affixed to poles that are mounted on the Versa-Trak so it can be positioned where needed and easily moved. W5780 features steel construction with black power coat paint. W5781 features laminated wood construction.

PRESTIGE LIFT-OFF PANEL

MODEL#	DESCRIPTION	WEIGHT
64100	Lift-off panel	9 LBS.

Lift off panel mounts to the front or the rear of any Prestige console and features a static latch for closure and easy removal.

INTERNAL CABLE TRAY

MODEL#	DESCRIPTION	WEIGHT
64072	Internal cable tray for 24"W base console	5 LBS.
64074	Internal cable tray for 48"W base console	9 LBS.
64076	Internal cable tray for 72"W base console	12 LBS.

Internal cable tray offers a large surface area for mounting cables and routing wires. Features four spring hinges for easy installation and repositioning. Works with all Prestige consoles. Can be mounted horizontally, front-to-back in Insight. Must be mounted vertically or at an angle in Sight-Line, Slat-Wall and Ascend. Can not be used with optional rack rails.
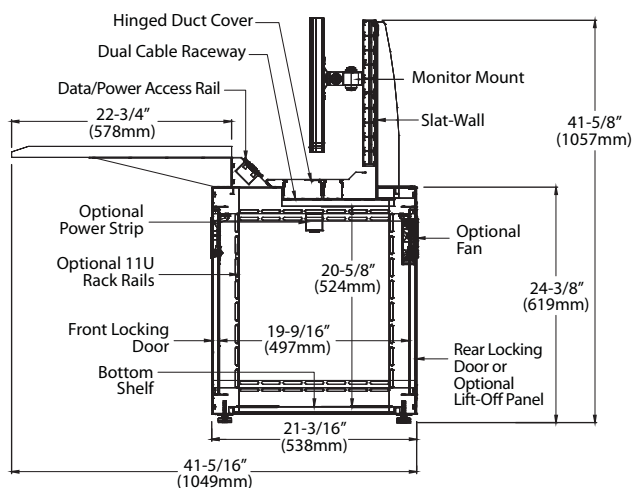

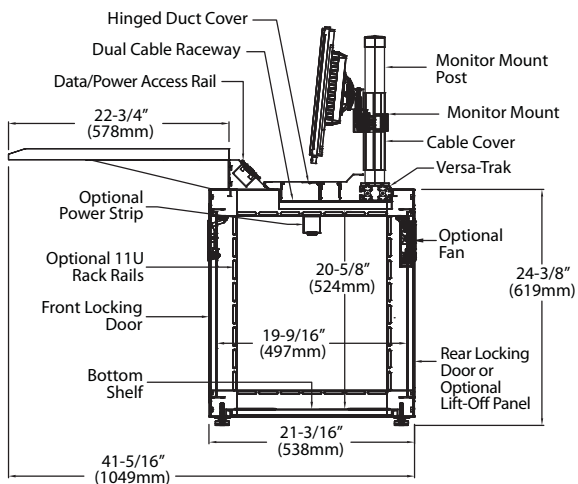

17-1/2" (10U) PRESTIGE RACK CABINET

MODEL#	DIMENSIONS	WEIGHT
56029	19-3/16"H x 23-3/4"W x 12"D (487 x 603 x 305mm)	40 LBS.

Welded rack mounts directly to the front frame of any Prestige console. Features spring pins for easy installation and repositioning, vented sides for cooling and all steel construction for durability. Black textured powder-coat finish.

ENERGIZE YOUR CONSOLE

Dyna-Linq is a simple, flexible "plug and play" electrical system designed to power your Winsted Sight-Line or Insight console. Dyna-Linq is UL 962 approved and provides a modular, expandable and reconfigurable electrical system that doesn't require an electrician to install. Simply plug it into any standard outlet. **It couldn't be more convenient!**

HOW IT WORKS

56719 - SMART BOX BRACKET - **SIGHT-LINE**
64719 - SMART BOX BRACKET - **INSIGHT**

- Each Smart Box powers up to 8 Duplex Outlets
- Mount the outlets in the desired locations on the console
- Connect Jumper Cords to the outlets and link together
- Connect Smart Box anywhere in the run of outlets
- Plug the Smart Box into any standard wall outlet

*If you purchase a Dyna-Linq system with your console, Winsted will waive the installation charge and install it for **free** prior to shipping!*

CLIMATE CONTROL AT YOUR FINGERTIPS

Designed exclusively for our Prestige Series consoles, Air Command is a personal environmental control system that is convenient and easy to use. Now your operators can adjust the temperature to suit their own personal preferences. The Air Command system offers three fans speeds to circulate heated or ambient air. The system also cleans the air with a washable, replaceable, open-cell foam filter. The work surface vents are directionally adjustable and there is also an adjustable vent on the climate control unit mounted below the work surface. The 500 watt heater can raise the ambient temperature around the operator 30 degrees. The system will automatically shut off after 2 hours.

MARMOLEUM® WORK SURFACES

CANYON | GRAPHITE | DOVE GREY | GLACIER | SANDSTONE | SAPPHIRE | RUBY | LAVA
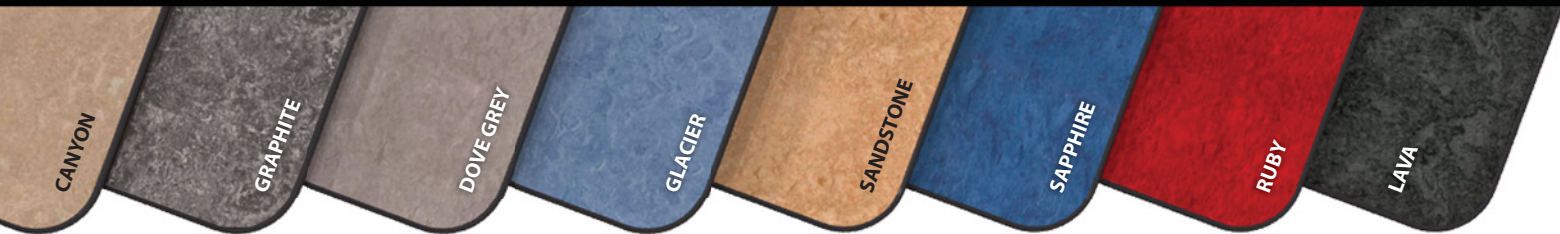

MARMOLEUM®

The durable and environmentally friendly Marmoleum® surface is made of natural products, emits no volatile organic compounds and is 100% biodegradable. Marmoleum is also impact, chemical and fire resistant with antibacterial and anti-static properties. Featuring our new Safeguard edge, Marmoleum work surfaces are a great choice for any control room.

MARMOLEUM® FEATURES

- Marmoleum is sustainable, made from natural ingredients and is 100% biodegradable
- Colors and patterns permeate through the Marmoleum surface to reduce noticeable wear
- Surface emits no volatile organic compounds
- Impact, chemical and heat resistant
- Antistatic and antibacterial properties
- Safeguard Edge provides exceptional durability

MARMOLEUM® WORK SURFACE

ENDURANCE PLUS™ WORK SURFACES

Color samples: CHERRY · BLACK · AMERICAN NATURAL · DOVE GREY · SOLARA OAK · CARBON FIBER · SHARK GREY · RUSSIAN MAPLE · WHITE NEBULA

ENDURANCE PLUS

Through a proprietary process, we insert a continuous protective bumper material in the front edge of the work surface. This protective bumper significantly increases the durability of the work surface, which is often subject to heavy physical stress in 24/7 control room environments.

ENDURANCE PLUS FEATURES

- Continuous protective bumper inserted in the front edge for improved durability
- Ability to produce multidimensional profiles for comfortable edges and aesthetics
- Easily conforms to three-dimensional surfaces
- Easy to clean with soap and water
- Reduces visible seams
- Broad range of colors

COMFORT EDGE

Our urethane Comfort Edge work surface offers the ultimate in flexibility and durability. The black urethane edge is molded to 1-1/8" laminated medium density fiberboard and is available in a wide variety of colors. The Comfort Edge work surface features a smooth, contoured profile to improve operator comfort and maximize productivity.
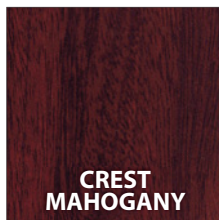

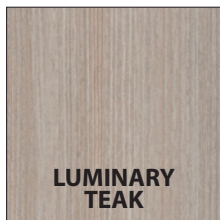

COMFORT EDGE FEATURES

- Permanently bonded black urethane creates a long-lasting, water-tight seam with a smooth finish
- Ergonomic profile provides comfort and reduces the risk of injury due to sharp edges
- Antibacterial and antifungal additives promote a healthy work environment
- UV resistant urethane will not change color or deteriorate over time
- Suitable for the most demanding 24-7 control room operations
- Available with laminate or Marmoleum surface

CORIAN® WORK SURFACES

COCOA BROWN · VENARO WHITE · COBALT · DOVE · BLUE PEBBLE · RICE PAPER · DEEP NIGHT SKY · BLUE SPICE · DOE SKIN

CORIAN®

Corian® work surfaces are durable and feature an attractive, seamless appearance. The solid colors penetrate through the entire thickness of the material so blemishes are easily repaired. The smooth, nonporous finish is hygienic and easy to clean, while being resistant to liquids and heat.

CORIAN® FEATURES

- Whatever the spill, Corian® is easy to clean and stain resistant because liquid cannot penetrate the surface
- Corian's durability and renewability with common abrasive cleaners reduces the need for replacement, which makes Corian inherently environmentally friendly
- Joints are unobtrusive and impermeable with a seamless appearance
- Colors and patterns penetrate through the surface and cannot wear away
- Corian is inert, nontoxic, chemically unreactive, hypoallergenic and fire resistant
- Advanced blend of natural minerals and acrylic polymer
- Corian's nonporous surface is very hygienic

IMPULSE DUAL SIT/STAND CONSOLES

We are meant to move! Sit/stand consoles are a great choice for an ergonomic upgrade. Impulse Consoles take ergonomics and operator comfort to a whole new level by offering two independently adjustable, ergonomically curved work surfaces. Studies have shown that too much sitting can be detrimental to your health. Movement throughout the day is important to maintaining good health. Alternating between sitting and standing is a healthy activity that increases energy and reduces fatigue. Sit/stand consoles also provide adjustability to meet the needs of each individual operator.

PRODUCT FEATURES AND HIGHLIGHTS

Safeguard Edge Work Surface
Impulse consoles come standard with a durable, high pressure Graphite Nebula laminated work surface featuring our proprietary Safeguard Edge.

Versa-Trak Monitor Mounting System
Integrated horizontal aluminum track system will support a wide variety of monitor arrays. Versa-Trak offers the ultimate in versatility with easy horizontal adjustment. Post-mounted VESA brackets provide vertical adjustability along with the ability to tilt and pivot the monitors.

Electric-Lift Legs
Quickly and easily adjust the work surface height from 30" to 46" at the push of a button and offers three programmable height settings. Each work surface has a load capacity of 520 lbs.

Adjustable Monitor Mounts
VESA-compliant pivot/tilt mounts easily attach monitors to a support post, and provides smooth pivot and pitch adjustment for optimal viewing of flat panel monitors.

Perforated Privacy Panel
Decorative, perforated privacy panel conceals cables, enhances the look of the console and adds an element of privacy for the operator.

Easy-Access Cable Management
Enhance reliability while protecting and managing your cables. All Impulse consoles feature a large cable channel incorporated into the modesty panel. In addition, there are four vertical cable carriers that travel with the work surfaces.

Three Monitor Mount Post Heights
Available in three different heights: 15", 28-1/2", and 42" so you can create a monitor array suitable for any application.

CPU Pedestal
CPU pedestal with leg levelers mounts to the inside of the leg and features two slots for adjustable Velcro™ straps to keep your CPU safe and secure.

Decorative End Panels (Optional)
Complete the look of your console with our popular TruForm end panels, which are available in a wide variety of colors. Optional end panels can also be custom ordered in laminate or solid-surface materials.

Powder-Coat Paint
The Impulse infrastructure is coated with a durable black powder-coat paint that accentuates the work surface. Textured finish prevents fingerprints and lasts for years.

Impulse Alcove console features a compact 90° corner configuration.			

All Impulse consoles feature two independently adjustable, ergonomically curved work surfaces. Each work surface adjusts from 30" to 46" high at the touch of a button. Both work surfaces feature two electric-lift legs and can support 520 pounds. All standard Impulse consoles include Graphite Nebula laminated work surfaces with our proprietary Safeguard Edge. Consoles can be used as stand-alone work stations, or combined to create a custom configuration.

MODEL#	DIMENSIONS	WEIGHT
55233	2-3/8"H x 13-3/4"W x 18"D (60 x 349 x 457mm)	4 LBS.

Mounts to the under-side of the work surface. Pulls out 12-3/4" (324mm). Black formed plastic.

ENVISION COMMAND CONSOLES

Winsted's NEW EnVision Command Console is the next-generation console built for today's technology. A progressive new modular design offers the perfect balance of form, function and ergonomics suitable for any control room application large or small.

Multiple Configurations

EnVision comes standard in 42", 60" and 84" widths and can be designed as a single, double or triple tier configuration. Each tier can support single or dual Slat-Wall sections for a track height of 7-1/2" or 15". Combine multiple widths with your choice of corner angles to create the perfect solution.

Multiple Work Surface Options

Choose from four work surface options: Our proprietary Endurance Plus and Comfort Edge work surfaces, as well as Corian® and Marmoleum® are available for all our consoles. We offer durable work surface configurations suitable for all control room environments, no matter how demanding.

Adjustable Monitor Mounts

VESA-compliant pivot/tilt mounts easily attach monitors to the Slat-Wall and provide smooth pivot and pitch adjustment for optimal viewing angles and ergonomic sight lines.

Slat-Wall Accessories

Put the finishing touches on your console and maximize it's functionality with a wide variety of accessories specifically designed to mount on EnVision's Slat-Wall.

Removable Rear Access Panels

EnVision's support legs feature full-length removable rear access panels to provide quick, easy access to cables for simple installation and reduced maintenance time.

Extra-Deep Rear Cable Tray

Cable management should be convenient and flexible. EnVision Command Consoles come standard with a cable trough that simply hooks onto the Slat-Wall, no tools required. Place the cable trough where you need it and you'll have fast, easy access for installation, maintenance and upgrades. The extra-deep design allows room for power outlets and large cable bundles on integrated lacing loops.

Work Surface Cable Tray

Located where you work the most, the integrated cable tray located behind the work surface keeps your work area clean and organized while protecting and organizing your wires and cables.

Adjustable CPU Holder

CPU mount provides easy access to the front and rear of your computer system. The articulating mount extends forward, includes a 90° swivel, and fits CPUs from 13-1/2" to 21-1/2"H by 5-3/8" to 9-3/8"W.

Powder-Coat Paint

EnVision's steel infrastructure is coated with a durable black powder-coat paint that accentuates the work surface and Slat-Wall. The elegant textured finish prevents fingerprints and provides uncompromising durability.

Slat-Wall Mounting System

Constructed of high-quality extruded 6105-T5 aluminum, the Slat-Wall system can be designed as a 7-1/2" or 15" high solution designed to support a variety of monitor mounts and convenient accessories. Multiple mounting positions on each tier means the Slat-Wall can be positioned exactly where you need it.

30172

PIVOT/TILT MONITOR MOUNT

MODEL#	MOUNTING PATTERN COMPATIBILITY	WEIGHT
30172	75 x 75mm & 100 x 100mm	4 LBS.

Monitor mount features adjustable tension at pivot points for customized control, suitable for touchscreen use. Designed for 10" - 30" monitors and has a weight capacity of 40 pounds. For use on vertical or sloped Slat-Wall. Silver finish.

30175

ARTICULATING PIVOT/TILT MONITOR MOUNT

MODEL#	DESCRIPTION	WEIGHT
30175	Articulating arm monitor mount	8 LBS.

Articulating arm monitor mount features adjustable tension at pivot points for customized control suitable for touchscreen use. Designed for 10" - 30" monitors and is compatible with 75 x 75mm and 100 x 100mm VESA mounting patterns. 30175 has a weight capacity of 40 pounds. Arm extends 17.2 inches. For use on vertical Slat-Wall only. Silver finish.

30178

B3053

HEIGHT-ADJUSTABLE PIVOT/TILT MONITOR MOUNTS

MODEL#	DESCRIPTION	WEIGHT
30178	Articulating arm monitor mount - Vertical Slat-Wall	10 LBS.
B3053	Articulating arm monitor mount - Sloped Slat-Wall	11 LBS.

Articulating arm monitor mount features adjustable tension at pivot points for customized control suitable for touchscreen use. Designed for 10" - 30" monitors and is compatible with 75 x 75mm and 100 x 100mm VESA mounting patterns. 30178 has a weight capacity of 5-25 pounds. Arm extends 20.08" and features 13" of dynamic height adjustment using smooth-motion gas spring technology. Silver finish.

B3055

UNIVERSAL LARGE MONITOR MOUNT

MODEL#	OVERALL DIMENSIONS	COLOR	WEIGHT
B3055	16-1/2"H x 30-3/4"W x 2"D (419 x 781 x 51mm)	BLACK	14 LBS.

Heavy-Duty construction provides a low-profile mounting solution for 32"-52" monitors. Mount allows 0-12° of tilt and has a weight capacity of 125 pounds.

30031

4U ENVISION RACK MOUNT CABINET

MODEL#	DIMENSIONS	WEIGHT
30031	9-1/8"H x 21-1/16"W x 6"D (232 x 535 x 152mm)	5 LBS.

4U rack cabinet easily mounts to the sloped or vertical Slat-Wall tiers providing convenient access to rack mounted equipment. Black textured powder coat finish.

POWER OUTLET WITH CIRCUT BREAKER

MODEL#	DESCRIPTION	AMP	Outlet Length	WEIGHT
30701	Six-outlet	15	12-1/4" (311mm)	3 LBS.

Lighted On/Off switch. Mounts inside rear lift-off cable tray. Features a 15 foot cord.

30701

REAR ACCESSORY TRAY FOR SLOPED SLAT-WALL

MODEL#	DESCRIPTION	WEIGHT
30080	EnVision accessory tray	4 LBS.

This convenient accessory tray mounts to the rear of the sloped EnVision Slat-Wall. The surface is 16" wide by 8" deep and has a 20 pound weight capacity. Black textured powder coat finish.

30080

CONTEMPORARY LED TASK LIGHT

MODEL#	DESCRIPTION	WEIGHT
W5665	LED task light for vertical Slat-Wall	4 LBS.
B3056	LED task light for sloped Slat-Wall	4 LBS.

Optional Task Light features a three-bar design for ultimate reach and flexibility. The ultra-adjustable LED head can spin in its socket, sweep side to side, and rotate around the end of the arm to point in any direction. Dimming is easily controlled by a touchstrip located near the LED head for easy access.

W5665   B3056

ENVISION PENCIL DRAWER

MODEL#	DIMENSIONS	WEIGHT
B3099	2-3/8"H x 13-3/4"W x 18"D (60 x 349 x 457mm)	4 LBS.

Mounts to the underside of any EnVision work surface. Pulls out 12-3/4" (324mm). Black formed plastic.

PULLOUT, SWIVEL CPU MOUNT

MODEL#	DESCRIPTION	WEIGHT
B3098	Extends forward with 90° swivel	15 LBS.

Fits CPUs from 13-1/2" to 21-1/2" High (343 to 546mm) by 5-3/8" to 9-3/8" Wide (137 to 238mm). Black finish.

E-SOC CONTROL STATION

Winsted's innovative E-SOC Control Station is the perfect balance between our award-winning Prestige Console and our Multimedia Workstations. E-SOC features the Versa-Trak monitor mounting system for ergonomic comfort and adjustability. Lift-off access panels, integrated cable management and a hinged corner make E-SOC a flexible and feature-rich solution suitable for any application.

Endurance Plus Work Surface
E-SOC comes standard with our proprietary Endurance Plus Work Surface. Comfort Edge, Corian® and Marmoleum® work surface options are also available.

Versa-Trak Monitor Mounting System
Integrated horizontal aluminum track system will support a wide variety of monitor arrays. Versa-Trak offers the ultimate in versatility with easy horizontal adjustment. Post-mounted VESA brackets provide vertical adjustability along with the ability to tilt and pivot the monitors.

Rack Mount Turret
Optional 10-1/2" (6U) 7 degree sloped rack mount turret easily mounts to to the E-SOC chase to keep electronics within easy reach. Features a vented top to keep electronics cool. Black textured power-coat finish.

Adjustable Monitor Mounts
VESA-compliant pivot/tilt mounts easily attach monitors to a support post, and provides smooth pivot and pitch adjustment for optimal viewing of flat panel monitors.

Vented Modesty Panel
Decorative, vented modesty panel features convenient lift-off panels for easy access to cables, electronics and CPUs. Integrated cable management with lacing loops enhances the feature set of the E-SOC.

Rack Mount Cabinet
Winsted offers a 19" EIA Rack Mount Cabinet to compliment your Control Station. A wide range of shelves and accessories are available to build the perfect rack solution.

Easy-Access Cable Management
Enhance reliability while protecting and managing your cables. All E-SOC Control Stations feature a cable channel with lacing loops incorporated into the modesty panel and a large, drop-down hinged cable tray that spans the length of the modesty panel.

Three Monitor Mount Post Heights
Available in three different heights: 15", 28-1/2", and 42" so you can create a monitor array suitable for any application.

CPU Mount
CPU mount provides easy access to the front and rear of your computer system. The articulating mount extends forward, includes a 90° swivel, and fits CPUs from 13-1/2" to 21-1/2"H by 5-3/8" to 9-3/8"W.

Optional Task Light
Optional Task Light features a three-bar design for ultimate reach and flexibility. The ultra-adjustable LED head can spin in its socket, sweep side to side, and rotate around the end of the arm to point in any direction. A brightness touchstrip is located near the LED head for easy access.

Powder-Coat Paint
The E-SOC infrastructure is coated with a durable black powder-coat paint that accentuates the work surface. Textured finish prevents fingerprints from showing and lasts for years.

Hinged Corner
E-SOC's innovative hinged corner offers the ultimate in flexibility. With no pre-defined corner angles, E-SOC can be designed to fit in your unique space.

BASE COLOR	SIDE PANEL	WORK SURFACE
BLACK	BOSTON CHERRY TRUFORM	RUST MARMOLEUM

This L-shaped Control Station consists of two 72" sections and one 90 degree corner. Comes complete with Versa-Trak monitor mounting system and six W6491 articulating monitor mounts (See page 43).

CURVED E-SOC CONTROL STATION

MODEL#	HEIGHT	WIDTH	DEPTH
B4352	28-7/8" (733mm)	234-11/16" (5961mm)	54-3/4" (1391mm)

BASE COLOR	SIDE PANEL	WORK SURFACE
BLACK	SHARK GREY TRUFORM	COBALT OXIDE MARMOLEUM

This Curved Control Station consists of five 48" sections and four 10 degree corners. Comes complete with Versa-Trak monitor mounting system and ten W6471 pivot/tilt monitor mounts (See page 43).

WELDED 19-1/4" (11U) RACK WITH PLEXI DOOR

MODEL#	DIMENSIONS	WEIGHT
43009	22-7/16"H x 22"W x 28"D (570 x 559 x 711mm)	44 LBS.

Welded 19-1/4" (11U) equipment rack comes complete with front and rear tapped rack rails, removable back panel, leg levelers and plexiglas front door. Side panels are vented and the removable back panel allows for two 1-3/4" openings at the top and bottom for cooling and cabling.

STATIONARY CPU MOUNT

MODEL#	DESCRIPTION	WEIGHT
43260	Extends forward with 90° swivel	8 LBS.

Fits CPU's from 13-1/2" to 21-1/2" High (343 to 546mm) by 5-3/8" to 9-3/8" Wide (137 to 238mm). Black finish.

RACK MOUNT TURRET

MODEL#	DIMENSIONS	WEIGHT
43032	16-1/16"H x 21-3/16"W x 12-7/8"D (410 x 538 x 327mm)	18 LBS.

10-1/2" (6U) 7° sloped rack mount turret easily mounts to to the E-SOC chase to keep electronics within easy reach. Features a vented top to keep electronics cool. Black textured power-coat finish.

13-3/4" WIDE PENCIL DRAWER - BLACK

MODEL#	DIMENSIONS	WEIGHT
55233	2-3/8"H x 13-3/4"W x 18"D (60 x 349 x 457mm)	4 LBS.

Mounts to the under-side of any work shelf. This drawer fits between console shelf brackets. Pulls out 12-3/4" (324mm). Black formed plastic.

LED TASK LIGHTS

MODEL#	DESCRIPTION	WEIGHT
W5664	Versa-Trak mounted task light	4 LBS.

Optional Task Light features a three-bar design for ultimate reach and flexibility. The ultra-adjustable LED head can spin in its socket, sweep side to side, and rotate around the end of the arm to point in any direction. Dimming is easily controlled by a touchstrip located near the LED head for easy access.

MODEL#	DESCRIPTION	WEIGHT
56679	LED light with magnetic base and 18" flexible neck	1 LB.
10679	LED light with VESA mount and 18" flexible neck	1 LB.

Features a 6-foot cord and allows users to switch between white or red lights.

M-VIEW MONITOR WALLS

Winsted's M-View monitor wall, in-stock or custom built, is flexible in design and completely modular. M-View is fabricated from light-weight, high strength extruded aluminum with a black anodized finish. The monitor wall can support virtually any monitor configuration and can be designed as an in-line, concave or convex mounting solution. The M-View seamlessly integrates technology and space to optimize viewing angles.

Stock and Custom Monitor Walls
Choose an in-stock monitor wall that is preconfigured and ready to ship or let Winsted design a custom monitor wall built to your specific monitor configuration.

Large Flat Panel Mounts
Our heavy-duty large LCD/plasma mounts combine a low profile design with integrated security features. The mount features a rapid leveling system, quick connect disconnect installation, fingertip-tilt, and a pullout bottom for convenient cable access. Allows for portrait or landscape flat panel installation.

Standard VESA Mounts
Universal VESA mounts easily attach flat panel monitors to the M-View Monitor Wall and provide smooth pivot and pitch adjustment for different viewing angles and ergonomic needs. The VESA mounts move freely along the M-View framework and are available to support almost any monitor.

1-1/2" x 3" Exterior Frame
The exterior framing is constructed of 1-1/2" x 3" extruded aluminum for superior strength and modularity. Custom frames can be manufactured to any height and length.

Power Strips
Ten, eleven, or twenty outlet power strips are available with on/off switches and circuit breakers. Power strips mount to the rear of the horizontal and/or vertical frame sections.

Black Anodized Finish
All M-View frames feature a black anodized finish that fits seamlessly into any environment. When installed, the M-View frame blends in with attached monitors, creating a pleasing shadow effect. Clear and custom anodized colors are available.

1-1/2" x 1-1/2" Interior Supports
The interior supports are constructed of extruded aluminum for superior strength and modularity. Custom frames can be manufactured to any height and length.

Cable and Wire Management
Multiple raceway channels are available for wire management. Run the cables horizontally or vertically using model M1032 (scored walls). Use model M1030 (solid walls) to run cables vertically to the floor.
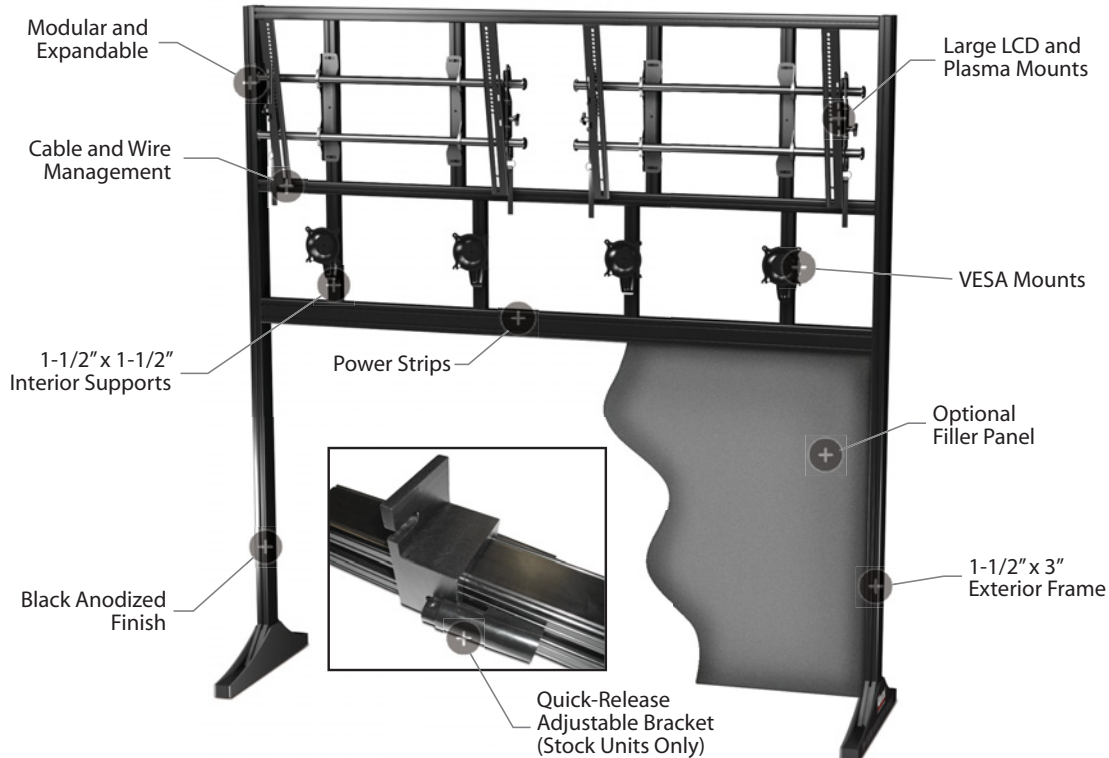

Modular and Expandable
All M-View monitor walls are designed to support your monitor configuration. The M-View can be expanded and reconfigured based on your changing needs.

Optional Filler Panel
Complete your M-View with custom filler panels, available in a variety of colors and materials. Can be cut to provide access to electronics or vertical rack.

Quick-Release Adjustable Bracket
Our NEW quick-release bracket makes adjusting and reconfiguring your monitors fast and easy on our stock monitor walls.

PRO-SERIES II VERTICAL RACKS

All vertical racks are performance designed to deliver the features and functions for any installation. All racks are backed by a lifetime warranty. Vertical Racks are available in multiple styles and sizes to meet your rack mount equipment needs. Flexible delivery choices, thermal management, and a wide range of optional accessories allow you to customize your solution to your exact requirements.

Top Panel Options
Individual racks include a variety of top options: raised vented panels, solid and vented blank panels and internal/external mounted fans. Full or partial top coverage provides flexible ceiling cabling options.

Welded Frames
Racks utilize extra-heavy-duty welded construction delivering robust solutions in the most demanding environments.

Lacing Bars
A variety of vertical and horizontal lacing bars are available for each rack style, including a 71" solid copper bus bar.

Adjustable Tapped Rack Rails
Adjustable front and rear 14-gauge tapped rack rails for equipment installation. Rails are stamped with numbered rack increments.

NEMA Conduit Knock-outs
Pro Series II rack frames include NEMA - approved knock-outs which provide excellent wire management with multiple conduit sizes.

Pedestal Wire Access Holes
Rack frame includes two 4"x 10"openings in the pedestal for air intake and cable management.

Powder-Coat Finish
The heavy-duty steel infrastructure of each rack is coated with a durable black powder-coat paint. Textured paint provides a beautiful finish in all environments.

Vented Side Panels
Removable half-height side panels are standard. Convection-cooling side panel venting can be covered when vertical thermal management fans are used.

Standard EIA 19"W cabinets. Two sides, top and bottom. Winsted's "High-Tech" table top rack design fits perfectly in the security market. Steel construction protected by a Black enamel finish. Vented sides to cool your electronics.

SPECTRUM CONSOLES

Winsted's Spectrum consoles offer flexible equipment mounting options, ergonomic viewing angles and easy expansion. Whether you're creating a single-bay edit suite for video production or a sophisticated multi-operator control room, Winsted offers the perfect rack mount console for your precise needs. Each of our rack mount consoles conforms to 19"W EIA standards and provides easy access to rack mounted electronics.

Multiple Work Surface Options

Choose from three work surface options. Our proprietary Marmoleum, Endurance Plus, and Comfort Edge options are available on all Spectrum consoles.

Base/Slope Sections

24-1/2" (14U) vertical base sections can be configured with a custom sloped upper section providing up to 15-3/4" (9U). Slope sections deliver an ergonomic viewing angle and easy equipment access. Base section is ideal for decks, CPUs and limited-access electronics.

Front Tapped Rack Rails

Upper and lower front 14-gauge tapped rack rails for equipment installation. Rails are stamped with numbered rack increments for easy equipment installation.

High Pressure Laminate Finish

Get the looks you want and the durability you need. All structural panels are constructed with high-pressure laminate bonded to 1" industrial grade particle board and finished with solid oak trim. Hundreds of laminate colors to choose from.

Grommet Holes

The work surface, top panels, and internal bottom panels all feature cable grommets for convenient and clean cable management.

Optional Versa-Trak Mounting System

Integrated horizontal aluminum track system will support a wide variety of monitor mounts. Versa-Trak offers the ultimate in versatility with easy horizontal adjustment. Post-mounted VESA brackets provide vertical adjustability along with the ability to tilt and pivot the monitors.

Optional Adjustable Monitor Mounts

VESA-compliant pivot/tilt articulating monitor mounts easily attach monitors to the Versa-Trak and provide smooth pivot and pitch adjustment for optimal viewing angles and ergonomic sight lines.

Adjustable Leg Levelers

Easily fine-tune the height and levelness of your console with the adjustable leg levelers.

Multiple Corner Options

Standard corner options include 15, 45 and 90 degree concave corners as well as 15 and 45 degree convex corners. Custom corner angles are available as needed to help Spectrum conform to your unique space.

Removable Access Panels

Spectrum features full-length removable rear access panels and lower front removable panels to provide quick, easy access to cables and equipment for simple installation and reduced maintenance time.

SPECTRUM
CONSOLES

MODULAR FLEXIBILITY

Modular Spectrum rack mount consoles are designed to handle a wide range of technical furniture needs and can easily be expanded to keep up with changing technology. Built to last and backed by a 10 year warranty, these consoles stand the test of rigorous 24/7 control room environments. Contact a Winsted sales representative and let us create the perfect configuration for your control room.

FEATURES

- Ergonomically Designed for Comfort
- EIA Standard 19" Tapped Rack Rails
- Flexible Design Solutions
- Customizable as Needed
- Suitable for All Applications

THREE BAY SPECTRUM CORNER CONSOLE

MODEL#	HEIGHT	WIDTH	DEPTH
G3710	35-5/16" (897mm)	85-1/16" (2161mm)	55-1/16" (1399mm)

TOP PANEL	SIDE PANEL	WORK SURFACE
GRAPHITE NEBULA	GRAPHITE NEBULA	BOTTLE GLASS LAMINATE

Three bay corner console features two 45 degree corners for a wrap around design. Each bay provides 7" (4U) of sloped rack space along with an articulating monitor arm mounted on Versa-Trak.

FOUR BAY SPECTRUM CONSOLE

MODEL#	HEIGHT	WIDTH	DEPTH
G3711	35-5/16" (897mm)	117-3/4" (2991mm)	44" (1118mm)

TOP PANEL	SIDE PANEL	WORK SURFACE
GRAPHITE NEBULA	GRAPHITE NEBULA	SANDSTONE MARMOLEUM

Four bay console can accommodate one or two operators. Comes complete with three articulating monitor mounts on Versa-Trak and features our durable and environmentally friendly Marmoleum work surface.

FIVE BAY CURVED SPECTRUM CONSOLE

MODEL#	HEIGHT	WIDTH	DEPTH
G3712	45-1/2" (1156mm)	147-1/2" (3747mm)	54-7/8" (1394mm)

TOP PANEL	SIDE PANEL	WORK SURFACE
GRAPHITE NEBULA	GRAPHITE NEBULA	LAVA MARMOLEUM

Curved Spectrum console is configured with two 15 degree corners and will accommodate one or two operators. Each sloped section provides 15-3/4 (9U) of rack space. Dual radial credenzas offer ample storage space.

SEVEN BAY CONVEX CONSOLE

MODEL#	HEIGHT	WIDTH	DEPTH
G3713	35-5/16" (897mm)	188-7/16" (4786mm)	75" (1905mm)

TOP PANEL	SIDE PANEL	WORK SURFACE
GRAPHITE NEBULA	GRAPHITE NEBULA	SPECTRUM BLUE LAMINATE

Convex curved console is configured with six 15 degree corner units. Each bay provides 7" (4U) of sloped rack space and an articulating monitor arm on Versa-Trak. Convex shape creates enough space for seven operators.

20" PULLOUT VTR SHELF WITH LATCHES

MODEL#	DIMENSIONS	WEIGHT
88094 BLACK	1-3/4"H x 17-3/4"W x 20-3/4"D (44 x 451 x 527mm)	17 LBS.

Latches keep the shelf from pulling out when not in use. Shelf has a vented bottom and a recessed area for DVR feet so overall height remains an EIA standard. Extends 20" (508mm).

RACK MOUNT KEYBOARD SHELF

MODEL#	DIMENSIONS	WEIGHT
88397 BLACK	1-3/4"H x 17-1/2"W x 21-5/8"D (44 x 445 x 549mm)	13 LBS.

Mounts into a slope or vertical rack 22-5/8" to 30"D (575-762mm). Holds keyboards up to 16-1/2"W (419mm). Platform provided for mouse.

RACK MOUNT SWIVEL KEYBOARD SHELF

MODEL#	DIMENSIONS	WEIGHT
88398 BLACK	Tray size: 21"W x 15"D (533 x 381mm) Shelf and tray use 3-1/2" (2U) of rack space.	18 LBS.

Mounts into a slope or vertical rack 22-5/8" to 30"D (575 to 762mm). Keyboard tray swivels allowing the use of any standard size keyboard up to 21"W (533mm). Removable platform provided for mouse pad.

13-3/4" W PENCIL DRAWER - BLACK

MODEL#	DIMENSIONS	WEIGHT
55233	2-3/8"H x 13-3/4"W x 18"D (60 x 349 x 457mm)	4 LBS.

Mounts to the underside of any work shelf. This drawer will fit between shelf brackets. Pulls out 12-3/4" (324mm). Black formed plastic.

13-1/2" PULLOUT SHELF
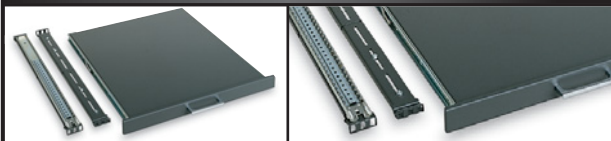

MODEL#	DIMENSIONS	WEIGHT
87099	1-3/4"H x 16-1/2"W x 21-3/4"D (44 x 419 x 552mm)	11 LBS.

Extends 13-1/2" (343mm). Ideal for non-rack mountable electronics. Pearl Grey.

RECESSED PATCH PANEL BRACKET - PAIR
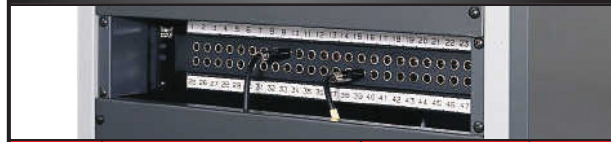

MODEL#	SIZE	COLOR	WEIGHT
86227	3-1/2"H (2U) - pair	PEARL GREY	2 LBS.

Recess a patch panel back into the rack 4" (102mm) to create extra space for the cable connectors. Pearl Grey.

LCD MONITOR RACK KIT - BLACK

F8153

MODEL#	DIMENSIONS	WEIGHT
F8153	19-1/16"W x 5-1/4" (3U)H (484 x 133mm)	5 LBS.

Flat Screen Mounting Kit that allows larger LCDs to be mounted in front of the rack face. Black Finish.

STATIC FLAT SCREEN MOUNTING BRACKET - BLACK

92186

MODEL#	DESCRIPTION	WEIGHT
92186	Up to 19" (483mm) Flat Screen with VESA mount. Maximum LCD width 17-3/8" (441mm) 5-1/4"H (3U)	4 LBS.

Detachable mounting bracket makes installation quick and easy.

Fits CPU's from 13-1/2" to 21-1/2" High (343 to 546mm) by 5-3/8" to 9-3/8" Wide (137 to 238mm). Black finish.

WINSTED WARRANTY

• A **LIFETIME WARRANTY** on all fixed steel structure frame components.
• A 10 year warranty on adjustable, sliding or hinged components and laminated & Marmoleum surfaces.
• A 5 year warranty on Endurance Plus and TruForm surfaces.
• A 2 year warranty on all electrical components and chairs.

All warranties are effective from date of shipment. All products shall be free from defects in material and workmanship under normal usage and conditions for which the products were designed.

Winsted's obligation under this warranty shall be limited to the exchange of the product or parts that proved to be defective or unsatisfactory. Winsted reserves the right to have the product inspected at the buyer's location or have the product returned to the factory for inspection. The above warranty does not extend to consumable products, goods damaged or subjected to accident, abuse or misuse after shipment from Winsted's factory or to goods that are altered or modified.

VALUE
Winsted provides support second to none in the industry. Trained representatives gather project information, give design support to help lay out the project and even provide infield support.

PRODUCT DEVELOPMENT
This process never stops. Winsted is known as the industry leader. We provide new solutions daily as technology continues to change.

AVAILABILITY
Winsted supplies metal consoles and racks from stock, with custom wood and Corian finishes available within 4 weeks.

FREIGHT
Call Winsted for your free freight quotation, this takes the guesswork out of the quotation. We can provide CIF quotations for all orders, which helps the customer understand the true cost of the product.

FLAT-PACKED, PRE-ASSEMBLED, INSTALLED
Winsted will drop-ship orders directly. Every order has three options for shipment:
    1. Flat-packed -
        Reduces shipping costs and provides the fastest delivery.
    2. Pre-assembled prior to shipping -
        Reduces customer set-up time.
    3. Installed -
        Product installed by trained Winsted technicians. Call for on-site installation cost.

CUSTOMER SERVICE
Specialists are individually empowered to handle issues and resolve situations efficiently and fairly.

PRODUCT OFFERING
Winsted offers the most complete line of products in the industry, designed to fit a variety of needs within almost any organization. From control room consoles and military command centers, to network operation centers and process control applications. Winsted pledges to provide products that meet today's needs, as well as anticipating future technology requirements.

SATISFACTION GUARANTEED
Winsted Products are guaranteed to be free of manufacturing defects. If any product is determined to be unsatisfactory, call our Customer Service Department Toll-Free 800.447.2257. Our policy is that you must be completely satisfied with our products. For fast service or for additional product information call Toll-Free 800.447.2257.

SHIPPING
All shipments are F.O.B. shipping point. Every attempt will be made to ship your order as soon as possible via the most direct and economical way. If a specific carrier is preferred, the purchase order must be clearly marked.

LIABILITY
No liability is assumed by our company for damage and/or injury resulting from use of products supplied by this company.

CREDIT
For new accounts that have not established credit with Winsted, a sufficient amount of time should be allowed to obtain proper credit information. Please be sure to provide your bank information and two trade references with initial order. If immediate shipment of order is desired, ship C.O.D. or send check for full amount with order or call with credit card information. Special order merchandise and large orders may require 50% cash in advance before shipping.

DROP SHIPMENTS
Winsted will ship orders directly to any authorized dealer's customer. Drop shipments are sent pre-paid with freight charges, plus a small handling charge added to the dealers invoice.

FREIGHT SHORTAGES OR DAMAGES
All shipments should be inspected carefully upon receipt. Before signing the freight bill have the delivering carrier note any damage, shortage or loss in writing on the freight bill. Concealed damage must be reported to Winsted within 15 days. Failure to do so places responsibility for loss with the consignee.

RETURNED GOODS
No merchandise may be returned without prior authorization. Custom items will not be accepted on a return. Call Toll-Free 800.447.2257 to our Customer Service Department and obtain a "Return Authorization Number." All returns are to be prepaid. All return merchandise is subject to a 15% restocking and handling charge. Credit will be issued provided products are returned in undamaged condition, and in their original packaging.

TERMS OF SALE
Terms are Net 30 days, upon credit approval. Outstanding past due balances are subject to a financing charge of 1-1/2% per month. All terms, conditions, specifications and prices are subject to change without notice.

PROFESSIONAL GRADE

Winsted Custom Wood offers the highest quality architectural woodwork and commercial cabinetry for all installations. We can custom manufacture to your specifications or you can work with our expert designers to create a one-of-a-kind environment. Your timeline and budget are a priority and we work hard to achieve both.

CUSTOM WOOD FURNITURE

We specialize in consoles but we offer so much more! In 2011 Winsted launched a new Custom Wood Division to design and manufacture wood products for today's demanding control room environments. In forming the new division we added a state-of-the-art production facility as well as many skilled craftsmen with years of woodworking experience.

Moving beyond the control room, we also provide custom technical furniture solutions for other technology-heavy spaces. Our 50-plus years of control room experience puts us in a unique position to manage the technical complexities and the human factors necessary to create a world class environment. We can compliment your control room with the following:

- Reception Desks
- Lobby Consoles
- Conference Room Tables
- Operator Pods
- File Cabinets
- Custom Cabinetry
- Wood Consoles
- Credenzas
- Collaboration Tables
- Technology Tables
- Podiums
- Bookcases
- Workstations
- Work Surfaces
- Casework
- Accessories

VERSATILITY

Bookcases, file cabinets, podiums, benches, storage cabinets and other wood products are custom designed and manufactured to meet your specifications. Bring us your design or let us create a unique solution for you. Either way the end result will be something you can be proud of.

JOIN THE TEAM

Furniture and technology combined to create the ideal solution for exchanging ideas and encouraging collaborative solutions. From the boardroom to the classroom, our collaboration tables can be custom made in a variety of shapes, sizes, configurations and finishes. The work surface can be standard desk height or standing height and can accommodate a wide range of electrical, data and A/V components.

COLLABORATION TABLE WITH STANDARD BASE

MODEL#	DIMENSIONS
M1152	30"H x 48"W x 72"D (762 x 1219 x 1829mm)

The M1152 collaboration table features a durable, high-pressure laminate top with our proprietary Safeguard Edge. Choose from hundreds of standard laminate top colors. The black base incorporates a wire management trough and access panels for proper cable management. Optional data/power ports not included. A wide variety of data/power ports are available. Contact Winsted for details.

STAND-UP COLLABORATION TABLE

MODEL#	DIMENSIONS
M1153	41"H x 48"W x 72"D (1041 x 1219 x 1829mm)

The M1153 collaboration table features a durable, high-pressure laminate top with our proprietary Safeguard Edge. Choose from hundreds of standard laminate top colors. The black stand-up base with footrest incorporates a wire management trough and hinged doors for easy access. Optional data/power ports not included. A wide variety of data/power ports are available. Contact Winsted for details.

STAND-UP COLLABORATION TABLE W/ MONITOR WALL

MODEL#	DIMENSIONS
M1154	72"H x 60"W x 77"D (1829 x 1524 x 1956mm)

FROM CONCEPT > TO REALITY

Winsted Custom Division starts with your criteria, and we develop a solution that exactly fits your needs instead of trying to meet your requirements with pre-configured modules. Your solution is designed for YOUR application to exactly match your requirements, space and functionality. We combine the disciplines of industrial design, human factors and interior design to create workspaces that are both efficient and beautiful. We carefully consider the ergonomic requirements of your operators to design consoles and technical furniture that facilitate the complex interactions between personnel, technology and the environment. We work with you to develop custom console solutions for every possible control room application, regardless of the scale or complexity.

THE MOST DEMANDING INSTALLATIONS

Winsted's custom consoles are installed in nuclear power plants, military command centers, security control rooms and mission critical communication centers around the world. From the layout of the room, to determining the precise placement of every keyboard, monitor and telephone, not a single detail is left to chance. Below is an outline of the comprehensive process we go through to make sure the final installation exceeds your highest expectations.

# AT YOUR SERVICE - FROM CONCEPT TO INSTALLATION

FREE ON-SITE CONSULTATION

We understand that every installation is unique and we can gather valuable information by visiting the actual site. We are committed to getting it right the first time and, at no charge, we will travel to your location to take measurements, do a site survey and consult with the appropriate parties.

FREE DESIGN SERVICE

We go to great lengths to understand your needs and the objectives of the project. Our experienced design department will design your console to be ergonomically correct and to support the associated electronics and equipment. Once the design is final we will provide you with a complete design and specification package ready for presentation.
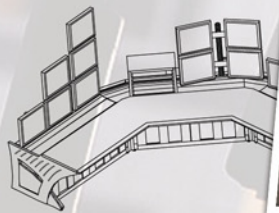

FREE PROJECT SUPPORT

Winsted is a true project partner and we pride ourselves on going above and beyond. What can we do to help you win the job? We can provide Building Information Modeling (BIM) files for Revit®, full CAD drawings in multiple views, photo-quality color renderings of the console design and even animated "walk-through" videos of the proposed installation.

WORLD CLASS CUSTOMER SERVICE

Our goal is to provide the best customer service in the industry; it is what our success is built on. Your satisfaction is guaranteed. Our experienced and knowledgeable customer service staff is ready to respond before, during and after the sale. We also stand by our products, which is why most of them carry a lifetime warranty. See **page 71** for Winsted's Warranty.

WELS4
WINSTED EQUIPMENT LAYOUT SOFTWARE

THE **MOST ADVANCED** CONSOLE DESIGN SOFTWARE IS HERE!

WELS™ IS A WINSTED-EXCLUSIVE CONSOLE DESIGN SOFTWARE TOOL THAT MAKES CONTROL ROOM DESIGN AND LAYOUT FAST, EASY, ACCURATE AND FUN!

This interactive, user-friendly, 3D console design software program lets you use Winsted consoles and furniture to quickly design control room solutions that meet your needs. WELS is easy to use - and requires no additional design/CAD software to operate.

WELS4 FEATURES

- WELS 4 is a FREE Winsted-exclusive tool. With it you can design your control room with any of our Consoles and Desks, Vertical Racks, M-View Monitor Walls and Conference Room Tables.
- On-screen toolbars and windows allow quick selection of products and accessories.
- Built-in control room designer lets you create a room to match your exact floor plan.
- Generate part lists and design specification sheets.
- Place multiple consoles and command centers anywhere in the room.
- Change the color of the work surface and side panels to show how the console will look in your room.
- Smart design programming helps you place parts where they belong.
- Accessorize designs with monitors, LCDs, DVD players, keyboards, blank panels, doors and more.
- WELS 4 is a true 3D design program. You can view your designs from any vertical or horizontal angle.
- WELS is a stand-alone program requiring no additional software.
- Export your design to DWG or DXF to import into your CAD program or export to JPEG format to use in presentations and design discussions.

WELS4 SYSTEM REQUIREMENTS:

Operating System: Microsoft Windows - Windows XP - or newer
