# Buy or Lease with Confidence

All of us at Euro Car Parts aim to provide you with the tools, equipment and service that match both your personal expectations and your business requirements.

We're also with you for the long haul, understanding that delivering true value comes from developing good long-term relationships.

Put simply, if we can ensure that every pound you spend on garage equipment has the potential to bring you the maximum returns then you might think of us next time you're in the market for equipment.

That's why we only use suppliers who can offer a comprehensive warranty service and update backup for the life of the equipment.

We will also arrange demonstrations wherever possible and offer advice on the best products and services to suit your business.

## OUR PROMISE:

- We make sure the equipment you buy is right for you.
- We only put products in front of you that we know are fully supported in the UK by the manufacturer.
- We provide you with the best possible service now and in the future.

**NO HASSLE  
WARRANTY**

**BEST PRICE  
PROMISE**

## THE ADVANTAGES OF LEASING

### 1. PAYMENTS ARE TAX DEDUCTIBLE

Lease payments are classed as a rental or business expense and therefore can be offset against profits made over the financial year.

### 2. ABILITY TO HAVE THE BEST PRODUCT AVAILABLE

Choosing the cheaper option can prove to be a false economy as that equipment often needs replacing sooner than the best quality product available to you.

### 3. PAY AS YOU EARN

Most equipment either saves you money or makes you money, therefore the equipment pays for the lease as it works for you.

### 4. PAYMENTS ARE FIXED

Fixed payments make it easier for you to budget and plan your major purchases.

### 5. IMPROVES CASH FLOW AND PROTECTS OTHER CREDIT LINES

By leasing equipment you can protect your cash and other lines of credit.

All figures subject to status and acceptance, and do not form an offer of finance. All prices plus VAT at the current rate. Euro Car Parts reserves the right to change or amend pricing and offers at any time. Prices correct at time of going to press (January 2015). Images and descriptions are indicative of products. The equipment prices/offers are applicable for UK mainland only. All lease prices quoted are subject to business trading over 3 years and subject to credit clearance; all weekly prices calculate on a five-year lease. Errors and omissions excluded. All purchases and offers contained in this publication are subject to Euro Car Parts terms and conditions which can be found at [www.eurocarparts.com/terms-and-conditions](http://www.eurocarparts.com/terms-and-conditions)

# Bosch Training

## REDUCE THE COST OF YOUR TRAINING WITH EURO CAR PARTS

At Euro Car Parts we pride ourselves on exceeding customer expectations. We have a well-deserved reputation for outstanding availability, service and value. We now extend that value to Technician Training.

With the ever-increasing complexity and sophistication of vehicles and a shortage of skilled individuals, there has never been a greater need for garages to train their technicians. Euro Car Parts can now give you access to the full range of Bosch Diagnostic Technician and Master Technician Courses held at their multi-million pound Service Training Centre in Uxbridge. Course dates are available throughout the year.

Completion of the training programme shown below will ensure your technicians have the necessary skills to sit an ATA Accreditation.

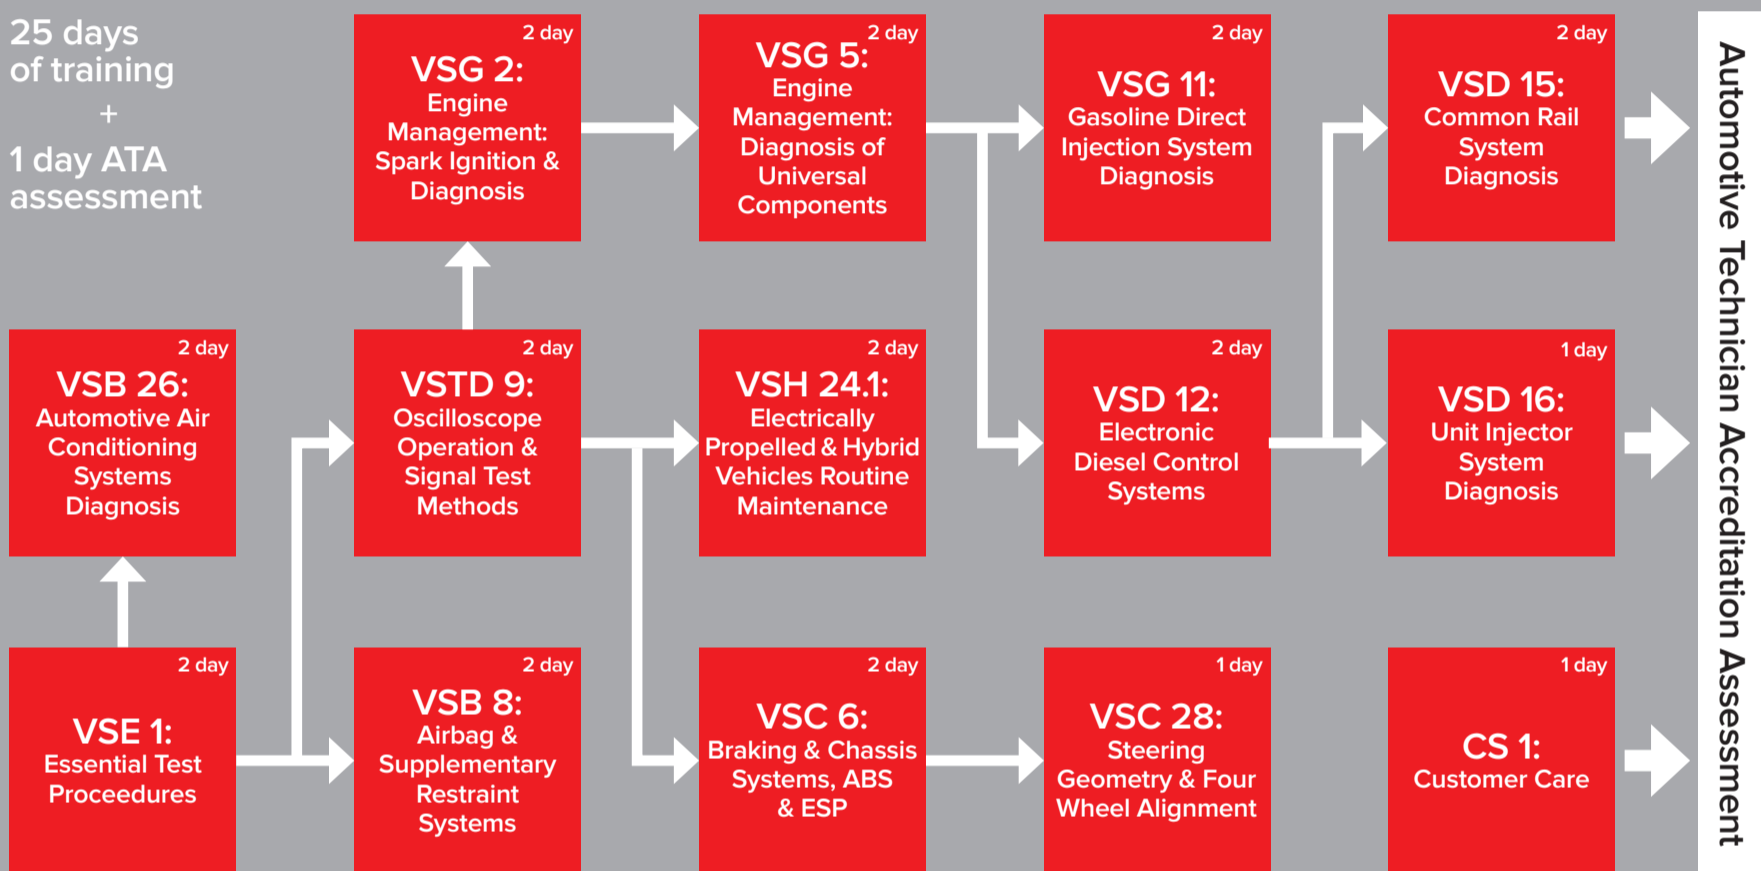

More information about the ATA Light Vehicle Maintenance and Repair route can be found here:

<http://ata.theimi.org.uk/light-vehicle-maintenance-repair-route>

If you wish to discuss your staff training requirements or receive the Bosch training prospectus please call your local branch or email: [training@eurocarparts.com](mailto:training@eurocarparts.com)

# Workshop Heaters

## THERMOBILE MANUAL IGNITION WASTE OIL HEATERS

Detail image of ignition draw -easy, convenient, safe operation, models AT400 & AT500.

Heaters shown require flue kit (not shown) to operate.

- Proven reliability for years of efficient heating
- Vapour-free combustion with unique ducted air and sealed vents design
- Pound for pound the best value heaters available
- AT Heater Range - The best manual-lit range available

**FREE SPARES KIT WORTH £100 FOR FIRST 100 CUSTOMERS THAT PURCHASE THE AT307\***

Kit includes combustion dish, thermostat, inlet tube and top seal

### AT306

Radiant heat, open flame combustion recommended only for workshops where no explosive vapours are present.

### AT306 THERMO

Radiant heat, open flame combustion combined with a 'THERMO' blower, recommended only for workshops where no explosive vapours are present.

### AT307 TOP SELLER

Enclosed flame combustion combined with a 'THERMO' blower. A unique feature is that air can be ducted from outside for a vapour-free clean air supply.

### AT400 TOP SELLER

Enclosed flame combustion combined with a high capacity axial fan. Combustion air can be ducted from outside for a vapour-free clean air supply. Ignition drawer system as standard for easy lighting and maintenance.

### AT500 TOP SELLER

Very high-efficiency heater with built-in, large-surface heat exchanger. Enclosed flame combustion combined with a high capacity axial fan. Combustion air can be ducted from outside for a vapour-free clean air supply. Ignition drawer system as standard for easy lighting and maintenance.

## INFORMATION REGARDING SMALL WASTE OIL BURNERS (SWOBS)

To make you aware that the Department for Environment Food and Rural Affairs (Defra) is conducting a review of guidance on the implementation of the European Union Waste Incineration Directive and it's application to small waste oil burners in England and Wales.

This is on-going, and no timescale has been set. In order to burn waste oil, you will need to register with your local authority. There is an initial charge to do this, followed by a chargeable annual update licence.

## NEW PRODUCT HEATER BOOSTERS

Get up to 91% efficiency from your heater by fitting a booster.

Easy to fit - slots neatly to the flue system. Order with your new heater or retro-fit to your existing heater.

To fit 150mm diameter flue  
**ONLY £289.99**

All prices are for delivery only and exclude VAT. Output depends on type of waste oil.\*Based on a five-year lease agreement. Subject to status. Full terms and conditions available on request. Other lease terms and finance options available on request. Offers valid until 30 April 2015. Prices correct at time of going to press: January 2015. ## NEW PRODUCT

### MVP PRO KEY PROGRAMMING SYSTEM

It's not as complicated or expensive as you think - and it's extremely profitable!

The MVP Pro is the latest key programming tool to be launched from UK - based world leaders Advanced Diagnostics.

Key and remote programming is still a niche and profitable service; therefore is a cost effective way to increase your business. Adding this extension to your business enables you to offer a service which will not be available from many of your competitors.

**Never pay for software, all updates now and in the future are free of charge.**

The MVP Pro works on a 'Pay as you Go' basis using electronic tokens (1 token per vehicle) which can be purchased easily and quickly on the internet. One token is £27.50 + VAT, 20 tokens bought together are £21.25 + VAT per vehicle. When you are running at more than 20 tokens per month, you can change to buying monthly unlimited tokens at £195.00 + VAT.

**With this great offer, the MVP Pro is completely free to use for the first 6 months.**

### MVP KEY PROGRAMMING BASE UNIT ONLY **£1,995.00**

*"Anyone who wants to offer Key Programming now has a step in the door ... at a price any garage can afford"*

- All makes coverage
- Reads immobiliser ECU ID's
- Reads mechanical key codes
- Clears key memories
- Programs new keys
- Programs remote controls
- ECU identification
- Reads fault codes
- Displays live data
- Component actuation
- Internet software updates
- Electronic tokens downloaded from the web
- Technical hotline
- Technical support forum
- USB PC interface
- Standard and test software
- adjustable contrast
- Multiple languages supported
- Pin code services online
- Smartcheck security calculator

# John Bean Wheel Alignment Systems

## NEW - JOHN BEAN V3400 WIRELESS IMAGING ALIGNMENT SYSTEM

- Now, with just one aligner, all the platform lifts on the site could be bringing in 3D alignment income!
- Wireless communication – the PC cabinet stays in one place, but the camera towers can be moved from platform lift to platform lift, through wireless communication with the PC.
- Speed and Productivity – no loss of speed carrying out an alignment, as the cameras automatically track the lift height. Get readings in less than two minutes on a wide variety of vehicles and wheel sizes.
- Includes the new John Bean AC400 contact less wheel clamps

ONLY **£14,999.00**  
WEEKLY FROM ONLY **£78.92<sup>+</sup>**

## CABLE-FREE LASER ALIGNMENT SYSTEM

- Suitable for pit, lift or floor use
- Rechargeable batteries for cable-free operation
- Simple hang-on mounting system
- Supplied with turning discs and bases, and steering wheel holder
- Alignment data wall chart
- Suitable for 12" to 24" wheels – extension also available
- Installation not included – supplied with training DVD
- 2-year manufacturer warranty

## JOHN BEAN T3000-22 AND B9400 PACKAGE

### T3000-22 Tyre Changer

This wdk-certified tyre changer in two-speed technology optimises torque and speed depending on the requirements of mounting and demounting operations. This optimises and accelerates operation and consequently increases productivity.

- Double-acting bead breaker cylinder
- Pneumatic tilt-back post, pneumatically locked in working position
- One-part mounting head vertically and laterally adjustable in spaced-apart position relative to the rim
- Plastic protection on mounting head to avoid damage to alloy rims
- Large bead breaker blade

### B9400 Wheel Balancer

Compact, easy-to-use wheel balancer with small footprint and LED display.

- VPM (virtual plane measuring) for enhanced measuring and higher accuracy results
- Automatic start of measurement when hood is closed and brake applied at end of spin cycle
- Robust 40mm shaft
- Five different options for weight positioning on wheel
- 2D SAPE - automatic entry of wheel diameter and wheel distance
- Split weight mode - hide weights behind wheel spokes for more appealing cosmetic finish
- Tyre matching mode - optimise tyre to rim so using less weights

COMPLETE PACKAGE ONLY **£4,399.00**  
WEEKLY FROM ONLY **£24.22<sup>+</sup>**

# Tyre Packages

## BOSCH TYRE PACKAGE

### TCE 4430 + WBE 4200

One of the world's industry leaders in build and design of tyre service equipment

- Unique Bosch G-Frame concept
- Manufactured in Europe
- Models include Auxiliary helper, Run Flat Arms and Roller board as standard
- Pedal operated Two Speed, bi-directional turntables
- For use in all workshops, higher output fast fits or tyre centres
- Also available in 1ph
- Tyre Changer comes with 4 year standard warranty

#### WBE4200 Balancer

- Space-saving slim design
- Measuring time - just 8 seconds
- New external arm for automatic wheel width measurement
- New automatic detection system to position weights
- Automatic locking of the arm in position
- Digital display

COMPLETE PACKAGE ONLY **£5,495.00**  
WEEKLY FROM ONLY **£28.91<sup>+</sup>**

## JOHN BEAN PROFESSIONAL

### T5000 + B9655

#### T5000 Tyre Changer

- Double-acting 2 speed bead breaker cylinder
- Mounting head, vertically and laterally adjustable in spaced-apart position relative to the rim (pneumatically controlled)
- Four self centring turntable jaws
- Mounting head and jaws are provided with plastic protectors
- Ergonomic and user-friendly arrangement of pedals
- Quick-inflating valve
- Outer clamping range up to 24"
- Quick change plastic demount head
- Pneumatic tilt back post, pneumatically locked in working position
- MH320 PRO suited for handling run-flat tyre systems
- Tool box with integrated precision pressure gauge
- Bead breaker blade supported in three joints

#### B9655 Balancer

- Patented virtual plane measurement (VPM) technique
- Automatic input of distance rim/machine and rim diameter (2D SAPE)
- Shortest 'start-stop' cycle time of only 6 seconds for a 15" rim
- 19" TFT monitor with user-friendly graphical interface including pictorials
- Quick Bal for reduced cycle times
- Automatic wheel braking after measurement
- Pedal-operated main shaft lock
- Motor drive via poly v belt ensures constant speed during measuring run
- Compact dimensions allow installation close to a wall

## CRYPTON OFFER A WIDE RANGE OF AUTOMATIC TEST LANES FOR MOT TESTING

UPGRADE ANY OF THE PACKAGES BELOW TO INCLUDE WIRELESS SMOKEMETER FOR JUST **£499**.

Call us to add Class I & II for the packages below at a special price.

Crypton offer both platform scissor lifts and 4-post lifts, finished with high-quality checker plates. The scissor lift is recessed to leave a flush surface when not in use and the absence of posts can save a metre in width of valuable workshop space, making this the ideal choice for smaller garages. The 4-post lift is delivered complete with turn plates and both lifts are VOSA-approved for MOT testing of Class IV and Class VII vehicles.

CLASS IV & VII ATL PACKAGE		PRICE	WEEKLY FROM*

# MOT Essentials

## BEA 850 COMBI EMISSION ANALYSER

BEA 850 for petrol and diesel vehicles. Testing and minimising pollutant emissions with modular measurement technology – in accordance with the latest legislation and with high measurement accuracy.

- Optimized for all exhaust-gas test requirements
- Integrated on-board diagnostics (OBD) with control unit diagnostic testers of the KTS series
- Integrated on a workshop-compatible trolley
- 4-gas module with optional nitrogen oxide
- Very rapid response time thanks to optimized flow performance
- Gas detectors with high measurement accuracy and long-term stability
- Simple equipment maintenance by workshop staff
- 5-year care plan (optional)
- 2-year warranty
- KTS not included

ONLY **£4,995.00**  
WEEKLY FROM ONLY **£27.50<sup>+</sup>**

## BEA 350 COMBI EMISSION ANALYSER

BEA 350 Combination petrol and diesel emissions analyser. A complete exhaust emissions tester for cars and commercial vehicles in one compact unit. Fully compliant with all MOT testing and swipe-card ready.

- Processor-based emission testing equipment
- Fully approved for MOT testing of petrol and diesel emissions
- Fully compatible for swipe card technology
- Measuring accuracy to OIML R99, class 0
- Simple step-by-step operation
- Brilliant colour TFT screen
- 5-year care plan (optional)
- 2-year warranty

ONLY **£3,995.00**  
WEEKLY FROM ONLY **£22.00<sup>+</sup>**

## CRYPTON 800 EMISSIONS ANALYSER

The CCP800 series is UK manufactured integrated gas and smoke analyser combining state of the art digital technology. This unit complies with the latest DVSA regulations and comes complete with the following:

- Oil temperature probe
- Battery RPM Measurement (petrol & diesel)
- Colour A4 printer
- 23" IBA Widescreen monitor
- All housed in a high quality roll-round cabinet
- Integral keyboard cover for dust/grease protection
- 3 year on-site parts and labour warranty
- 3 or 5 year Care Packages available

Updating is easy - the annual DVSA petrol vehicle update and any changes to the program procedure/test limits can be done simply by loading a disk, no service visit is necessary.

ONLY **£4,395.00**  
WEEKLY FROM ONLY **£24.20<sup>+</sup>**

Cabled version. Bluetooth version also available.

## PREMIER COMBI EMISSION ANALYSER

British built combined petrol and diesel emission analyser with integrated oil temperature and unique RPM measurement technology.

- Every MOT testis stored to memory for instant retrieval and automatic printout of customer reminder letters.
- Wi-Fi enabled PC with flexibility to run own programmes, CD Rom, 17 inch colour monitor, keyboard, mouse and printer
- Fast nationwide on-site support by dedicated UKAS accredited engineers
- **3 year Care Package included**

ONLY **£4,995.00**  
WEEKLY FROM ONLY **£27.50<sup>+</sup>**

## LAUNCH CODE READER PRO 129

- Retrieve vehicle information ( VIN, CIN, CVN )
- Read and Clear Fault Codes
- Read & Clear 'Check Engine' Lights
- All 10 OBDII Tests
- Turn off Malfunction Indicator Lamps, and reset monitors
- Oil & Parking Brake Reset
- Print data via PC

COMPLETE UNIT ONLY **£269.00**

## POWERVAMP TECHNOBOOST 1600

The compact 12-volt starter pack for professionals in the motor trade, perfect for car dealerships, workshops and body shops.

British-designed and built, the pack uses one of the same very powerful batteries as used in Powervamp's 24-volt small jet turbine aircraft and helicopter packs.

- Nominal power cell – peak amps 1600
- 235 amp
- Surge protection
- Reverse polarity warning
- Key switch isolator
- LED power status
- Exceptionally strong fully-insulated case
- 2-metre long output leads

**ONLY £245.00** 592 77 2240

## POWERVAMP MR26

The ever-popular 12-volt MR26 has proven itself time and time again whether it's in an auction house, car park or commercial garage. The robust MR26 is ideal for starting large diesel engines (vans, 4x4's, mini-buses etc), up to 3.5 litres, as well as petrol engines up to 7.0 litres.

All Powervamp products are designed and manufactured in the UK with full technical support and servicing available.

- Nominal power cell – peak amps 2400
- 370 CCA
- Surge protection
- Reverse polarity warning
- Key switch isolator
- LED charger status
- IEC mains charging lead
- 2-metre fully-insulated output leads
- Optional On-Board Charge Kit (OBCK)

**ONLY £295.00** 592 77 2250

## POWERVAMP TB1224HDD

Tough 12v/24v jump-starter designed for frequent starting of commercial vehicles. The TB1224HDD is intended for heavy or regular 12 or 24 volt use. ideal for fleet users, operating diesels typically up to 15 litres.

- Twin 3 stage, 2.3 amp internal chargers
- Cast and braid crocodile clips
- Tri-coloured battery charge status LEDs
- Robust powder-coated steel case
- Detachable 2 metre heavy duty cable set
- Anti-surge protection PCB
- Battery Management

**ONLY £635.00** 592 77 2320

## SMOKE PRO® – TOTAL TECH®

The choice for professionals to fix leaks FAST. The Smoke Pro® EVAP-approved diagnostic smoke machines are the most advanced available today.

### SAVING TIME = MORE PROFITS

The Smoke Pro® Total Tech® is the essential tool for finding EVAP system leaks and many others including:

- EGR Valves
- Gaskets, fittings and hoses
- MAP/MAF sensors
- Worn throttle shafts
- Brake boosters

- Catalytic converters
- Central locking systems
- Diaphragms and seats
- Door and window seals
- Turbos and intercoolers
- Oil leaks
- Cracked or broken plastic components
- Head and tail lamp housings
- Cracked manifolds.

And many more!

ONLY **£659.00**

## SMOKE PRO® – AIR COMPLETE™

### PORTABILITY = PROFITABILITY

- On-board micro air compressor eliminates the need for air lines or gas tanks
- Extra portability significantly reduces diagnostic time
- Air Complete™ will help you to work faster, find more repair jobs, and make more money
- Compact, rugged and lightweight
- Ultra-fine flowmeter 4x more sensitive than before
- Compound pressure gauge
- Improved decay gauge eliminates “comebacks”

ONLY **£995.00**

## VDO AUTODIAGNOS CHECK WITH TPMS MODULE

The optimal diagnostic machine for service-level jobs.

- Airbag
- Climate Control
- Electronic Parking Brake
- EOBD
- Service Reset
- Steering Angle Sensors
- Tyre Pressure Monitoring
- DSG Gear Box
- Common Rail Diesel Injector Coding
- Battery Management

ONLY **£699.00**

# Delphi Diesel Diagnostics

NO HASSLE

BEST PRICE  
PROMISE

## SEALED RAIL KIT (YDT278)

The Delphi Diesel Sealed Rail Diagnostic Kit (YDT278) takes common rail diagnostics to another level by identifying the individual components of a common rail system that are failing. The kit provides simple, low-cost diagnostic capability for pumps and injectors on all makes of common rail systems.

Consisting of a sealed rail pressure tester and injector back leakage measurement equipment, the kit gives you on-vehicle capability to check the pressure being generated by a common rail pump and to identify individual injectors that fail.

Compatible with Delphi, Bosch, Siemens & Denso systems.

ONLY **£899.00**

## FALSE ACTUATOR KIT (YDT410)

Delphi has now taken common rail diagnostics even further with the launch of the False Actuator Kit (YDT410), giving you the capability to isolate actuator and mechanical faults on all makes of common rail pumps.

The kit contains eight false actuators, one for each of the major common rail systems on the market today.

ONLY **£335.00**

# Diesel Tools

## DIESEL INJECTION LEAK BACK MASTER KIT. BOSCH, DELPHI AND DENSO

538 77 0261

Designed to measure return fuel flow on diesel vehicles up to 6 cylinders fitted with common rail injection system.

Identifies, worn, blocked or inoperative injectors quickly and easily.

Contains measurement tubes for short term tests and measurement bottles for long term, more accurate evaluation.

Master kit includes range of adaptors to suit Bosch, Delphi & Denso injectors for comprehensive coverage of common rail diesel vehicles.

Supplied in carry-case.

ONLY **£84.00**

## 14 PIECE INJECTOR EXTRACTOR WITH SLIDE HAMMER

538 77 1981

This professional tool is a specialised sliding hammer for removal of stuck and seized common rail injectors without dismantling the cylinder head for all injection nozzle cars.

The robust construction enables rapid withdrawal; even the most severely seized injector will come out with little fuss.

The kit comes with adaptors, 3.9kg weight, handle and injector extractors.

ONLY **£119.99**

Offers valid until 30 April 2015. Prices correct at time of going to press: January 2015. Prices exclude VAT, VAT will be applied at current rate. Errors & omissions excluded.

## THE DURAMETRIC PORSCHE DIAGNOSTIC TESTER

The Durametric is a hardware and software tool that reads and resets the different modules on Porsche vehicles. It plugs into your Windows PC's USB port (check system requirements), and once plugged into the car, the tool is capable of communicating with the different system control units in the car.

### Functions

- Reset service reminders
- Reads and clears Diagnostic Trouble Codes (DTC)
- Displays actual values
- Shows ECU information
- Turns off check engine light
- Turns off airbag light
- And much more

**ONLY £659.00** (Professional version)

## JAGUAR AND LAND ROVER ELECTRONIC PARK BRAKE RELEASE

- Moves the electronic park brake to the mount position
- Jaguar/Land Rover-approved device
- Saves time and money
- Easy to use with simple user interaction
- Stand-alone operation
- Easy to update for new vehicles and model years via a PC (PC application and cable included)

**ONLY £195.00**

## JAGUAR AND LAND ROVER SERVICE INTERVAL RESET

- Service re-set within 10 seconds
- Jaguar/Land Rover-approved device
- Saves time and money
- Removes the service interval warning from the instrument cluster
- Easy to use with simple user interaction
- Stand-alone operation
- Easy to update for new vehicles and model years

**ONLY £195.00**

## VAUXCOM

VAUX-COM PC-based diagnostic tool covers almost all Vauxhall/Opel cars and light vans and allows you to diagnose almost all modules including the engine management, airbag, ABS, immobiliser, instruments and many more.

- Fault code reading and clearing
- Live sensor data display
- Output tests let you switch components on and off for testing
- Programming and setting changes
- Key and key-fob programming

**ONLY £695.00**

## VCDS

UCDS is a Windows-based piece of software that turns your PC into a sophisticated diagnostic tool, capable of diagnosing VW, Audi, Seat and Skoda vehicles.

UCDS is a world-renowned software package that enables you to carry out all the functions of dealer testers and more expensive aftermarket tools.

- Covers latest CANBUS vehicles
- Virtually OEM-level software
- Coding – adaptation features
- Easy to use
- Low-cost solution
- Service reset

**ONLY £315.00**

Offers valid until 30 April 2015. Prices correct at time of going to press: January 2015. Prices exclude VAT, VAT will be applied at current rate. Errors & omissions excluded.

# Bosch Diagnostics

## KTS 540 WIRELESS BLUETOOTH® DIAGNOSTIC MODULE WITH 1-CHANNEL MULTIMETER

Fast troubleshooting with reliable results is a must for all vehicles entering workshops. With Bosch KTS technology you're well equipped to meet the requirements made by modern vehicle technology. The KTS 540 also includes an integrated ODB-exchange adapter which allows for future interface expansion as new diagnostic protocols are introduced.

No timeout diagnostic software offer.

**ONLY £1,795.00**  
WEEKLY FROM ONLY £9.88\*

## KTS 570 WIRELESS BLUETOOTH® DIAGNOSTIC MODULE WITH 2-CHANNEL OSCILLOSCOPE AND 2-CHANNEL MULTIMETER

The KTS 570 wireless module is fast and efficient. It features a 2-channel oscilloscope which can not only test all automotive sensors but can also internally monitor and recognise faults in the ECU's own diagnostic system. Within the control unit diagnosis, the signals of the diagnosis cables like the K and L line, CAN and SAE, can be analysed via the 2-channel diagnosis oscilloscope parallel to each step.

## NEW PRODUCT BRAIN BEE X-TOUCH

Brain Bee's new X-Touch is a Wireless Diagnostic System combining an EOBD dongle with a high-specification tablet PC in bluetooth communication. Running the comprehensive, fast and easy-to-use Brain Bee diagnostic software, this new configuration brings an added dimension of flexibility to diagnostic testing, free from the limitations of cable communication.

The Brain Bee software is a multi-make, multi-level database and operating platform that delivers a complete diagnostic solution. The software is under constant development to continually improve the intelligence of the testing capability. New additional functions, multiple interfaces and queries, more intuitive graphics and higher speed are the main features making the Brain Bee X-Touch system the best prospect among the new generation wireless scan tools.

- Fault code scanning
- Live data display and colour graphing
- Component activations
- System adjustments
- Coding and programming
- Special functions
- Intelligence and dynamic testing
- Service light reset
- Brake rewind
- Particulate filter regeneration
- ECU information reading
- Parameter/status reading
- Fault codes reading
- Visual identification of the position of Diagnostic sockets and adaptor ( if required )
- Pass-thru capable

## FSA 500 VEHICLE SYSTEM ANALYSER

- The handy FSA 500 from Bosch is the perfect entry into cost-effective vehicle system analysis.
- Compact, battery-powered measurement module with Bluetooth® connection to a PC system (DCU 130 tablet PC, laptop or PC with Windows operating system)
- Software for testing the most important electrical and electronic components in the vehicle
- Time-saving testing of components when still installed
- Around 30 preset component tests
- Signal generator for simulation of sensor signals
- Battery peak-coil current measurement up to 24 hours
- Convenient universal oscilloscope with 2-channel (2 x 40 MS/s) and 4-channel modes (4 x 1 MS/s)
- Test of vehicle bus systems (e.g. CAN bus)
- Importing and saving comparative curves

ONLY **£2,495.00**  
WEEKLY FROM ONLY **£13.74<sup>†</sup>**

## THE NEW 4-CHANNEL ADVANCED KIT FROM PICO

Move up to the next level with the Pico oscilloscope and eliminate guess work. A one-off payment includes software upgrades and technical support for life. More than an oscilloscope; the kit can be used to test and measure virtually all of the electrical and electronic components and circuits in modern petrol and diesel vehicles including:

- Ignition – primary and secondary
- Injectors and fuel pumps
- Battery, starter and charging circuits
- ABS sensors, crank and cam sensors
- Lambda (oxygen), airflow, knock and MAP sensors
- Glow plugs / timer relays
- Relative compression tests
- FlexRay, CAN and LIN bus

ONLY **£1,995.00**  
WEEKLY FROM ONLY **£10.98<sup>†</sup>**

<sup>†</sup>Based on a five-year lease agreement. Subject to status. Full terms and conditions available on request. Other lease terms and finance options available on request. Offers valid until 30 April 2015. Prices correct at time of going to press: January 2015. Prices exclude VAT, VAT will be applied at current rate. Errors & omissions excluded.

## G-SCAN LITE

The number one diagnostic tool for asian vehicles.

G-Scan was first launched in Japan in 2008 after Japanese company INS and Korean Corporation GIT joined forces; this collaboration brought together the market leaders in OEM-quality data for Japanese and Korean vehicles, which includes the most comprehensive coverage of Japanese 'Grey' imports.

- Best-selling diagnostic tool in Japan 2008-2012
- Unique to G-Scan – current OEM software for Hyundai & Kia
- Rapidly-expanding European vehicle coverage
- 2-year warranty\*

### FEATURES AND FUNCTIONS:

- Super-fast dual processor means high-speed performance
- HD 5.6" colour touch screen 12-button menu
- Flight record mode, record live data for later analysis
- CAN-enabled, no external module or adaptor
- Software updates and customer support
- Communicates with 24V commercial vehicles
- Comprehensive coverage on 'Grey' import models
- Shows full DTC descriptions

- Memo and screen grab functions
- No software timeout
- Rechargeable lithium polymer battery
- High-speed data transferring to a PC via Wi-Fi for real-time PC interface – Wi-Fi kit sold separately
- Vehicle system auto search
- DTC (Diagnostic Trouble Code) read and clear
- BCM (Body Control Module) actuation tests
- Component and ECU programming/coding
- Key coding/programming
- DPF (Diesel Particulate Filter) regeneration
- Live data streaming and graphing, displaying 4 graphs at a time
- Service/warning light reset
- EPS (Electronic Power Steering) recalibrations
- Diesel injector copying/writing
- ABS (Antilock Braking System) analysis

- SRS (Supplementary Restraint Systems)
- Airbag analysis
- ECU information display
- AT/CVT Learning Value Initialisation
- EGR (Exhaust Gas Regulator) self-test mode

\*The Li-ion battery and carry case are covered by a 1-year warranty.

**ONLY £1,495.00**

**WEEKLY FROM ONLY £8.23<sup>†</sup>**

## G-SCAN 2
