The Original

MASON CASH®
Est. England 1800

Typhoon Homewares is the creative home of a group of British heritage brands with products that span both the housewares and tabletop industries. Our brands, consisting of Kilner®, Mason Cash, Typhoon, Price & Kensington and Viners, are designed and developed in the United Kingdom with our customers in mind.

Throughout the years our business has grown, but our aim has remained the same: a wide variety of choice to reflect emerging trends, exciting colors and well-designed quality products with good value price points. Every product is manufactured to the company's own exclusive design and specification, and all products are packaged to a high standard, ensuring attractive retail displays and rapid sales. We have a fully operational distribution center in Stamford, Connecticut which holds inventory on all our brands ready to serve you.

There is a nationwide network of sales representatives supported by our sales team based in our showroom in the iconic 41 Madison Avenue building, New York, New York. We look forward to serving you and welcoming you to the world of Typhoon Homewares.

Kilner®

The original Kilner® jar is as much-loved and successful now as it was 175 years ago. As we reflect upon the brand's centuries' old success, we pay homage to the Kilner® Jar's long-lasting popularity, owed to its distinctive pressure seal and iconic design. Put simply, households all over the world trust it to successfully can and pickle their fruit and vegetables.

A surge in popularity for canning home-grown fruit and vegetables, and storing food in jars rather than plastic for its health benefits has catapulted the Kilner® jar into the limelight in recent times. Now, not only is it an essential for the kitchen, it has become a statement of style throughout the home.

Mason Cash

Mason Cash has been the choice of home cooks and bakers for centuries. The origins of Mason Cash can be traced back to a pottery operating in the heart of the British ceramic industry in 1800. Although Mason Cash has been producing mixing bowls since the 1800's, in 1901 they designed and manufactured the very first iconic Mason Cash mixing bowl. The bowl's design has endured the test of time and has become something of a design classic. In fact, the design has barely altered since then, which is why the brand is still renowned for its innovative, classic character in the world of kitchenware today.

Over the centuries, we have developed a great understanding of home cook's evolving needs and expectations, which enables us to invent products which are innovative, functional and effective, using the best quality materials available. While many of the Mason Cash items have retained their original designs, others embody contemporary twists, evolving into progressive modern interpretations of the original.

Typhoon

The Typhoon journey began over 20 years ago. From humble roots as a small Asian cookware company, Typhoon quickly became a globally-renowned brand by introducing woks to the European market. Today, Typhoon is welcomed into the US market.

With Asian Cooking at the centre of the product range, the brand quickly gathered a reputation for innovative and high-quality kitchenware items at affordable prices. Our stylishly designed collections have shaped the way consumers develop their kitchen's identity: whether it be retro inspired or a modern adaptation of centuries old cooking methods, Typhoon caters for all preferences.

Over the last 20 years, we have unveiled a variety of exciting products. Following sustained global marketing campaigns, placements in premium retailers and department stores, Typhoon has managed to cement its place in the market of design-led houseware products.

Viners

With over a century of flatware manufacturing experience, Viners is a highly distinguished, trusted and much loved brand, steeped in British Heritage. The illustrious flatware brand dates back to Sheffield, England in 1908.

From a small silverware specialist, they grew to be the biggest silver, silver plated and stainless steel kitchenware producer in the UK.

With a reputation of high quality products, Viners was issued with a Royal Warrant as Cutlers and Silversmiths to King George V of England. They continued to expand and grow their range nationally and internationally and were the biggest manufacturer of flatware during the mid-century.

Innovation and design development are intrinsic values associated with the brand, with notable product designs spanning over 50 years. Current day, the brand offers shapes and patterns which reflect consumers are looking for from contemporary or classic dining ranges which feel great in the hand and are practical to use.

Price & Kensington

The Price & Kensington story started at the beginning of the 19th Century, in Burslem, England, when the innovative Price Brothers founded their earthenware manufacturing company in Crown Works. Specializing in tabletop accessories, and teapots, the brothers quickly became renowned for their distinctive designs. During their time within the local area, the brothers developed a strong working bond with Kensington Potteries, who specialized in novelty teapots. This bond grew so strong that two companies eventually merged in 1962 to become known as Price & Kensington.

Rich in heritage and passionate about table top accessories and teapots, the Price & Kensington brand continues to flourish. While teapots remain the heart of the product range, we also offer a number of tabletop collections, including co-ordinating storage and dinnerware to accommodate all tastes and lifestyles. We understand that for generations the kitchen is the heart of the home, which remains the fundamental inspiration for our new developments.
