One call for complete peace of mind

Garage Equipment,
Training & Technology

One call for complete peace of mind - Workshop Solutions

Your business is your livelihood. We understand that and we care. At Workshop Solutions we provide you with all the equipment; service, repair and maintenance programmes; assistance with health & safety procedures and project planning skills you need all in one place. We are the equipment and service provider of choice to many motor manufacturer groups, independent garages and bodyshops nationwide. From a new compressor to an MOT bay, comprehensive building works to aftersales servicing and maintenance, Workshop Solutions manages the whole process, ensuring a smooth, hassle-free, one-stop service that is delivered on time and on budget.

The Latest Technology
from the Best Brands

We aim to provide you with the tools, equipment and service that match both your personal expectations and your business requirements.

Waste Management
- Keeping you fully compliant and stress free

Our panel of finance houses can spread the cost tax-efficiently

Health & Safety
- Safeguarding your people and your business

From preventative maintenance plans to emergency call-outs

Please contact our Equipment Service & Maintenance team on 01527 882 778 to arrange an initial free, no obligation consultation.

Buy or Lease with Confidence

All of us at Euro Car Parts aim to provide you with the tools, equipment and service that match both your personal expectations and your business requirements.

We're also with you for the long haul, understanding that delivering true value comes from developing good long-term relationships.

Put simply, if we can ensure that every pound you spend on garage equipment has the potential to bring you the maximum returns then you might think of us next time you're in the market for equipment.

That's why we only use suppliers who can offer a comprehensive warranty service and update backup for the life of the equipment.

We will also arrange demonstrations wherever possible and offer advice on the best products and services to suit your business.

OUR PROMISE:

- We make sure the equipment you buy is right for you.
- We only put products in front of you that we know are fully supported in the UK by the manufacturer.
- We provide you with the best possible service now and in the future.

THE ADVANTAGES OF LEASING

1. PAYMENTS ARE TAX DEDUCTIBLE

Lease payments are classed as a rental or business expense and therefore can be offset against profits made over the financial year.

2. ABILITY TO HAVE THE BEST PRODUCT AVAILABLE

Choosing the cheaper option can prove to be a false economy as that equipment often needs replacing sooner than the best quality product available to you.

3. PAY AS YOU EARN

Most equipment either saves you money or makes you money, therefore the equipment pays for the lease as it works for you.

4. PAYMENTS ARE FIXED

Fixed payments make it easier for you to budget and plan your major purchases.

5. IMPROVES CASH FLOW AND PROTECTS OTHER CREDIT LINES

By leasing equipment you can protect your cash and other lines of credit.

*Based on a five-year lease agreement. Subject to status. Full terms and conditions available on request. Other lease terms and finance options available on request. Offers valid until July 31st 2015. Prices correct at time of going to press: April 2015. Prices exclude VAT, VAT will be applied at current rate. Errors & omissions excluded.

OVER 190 BRANCHES NATIONWIDE

F-GAS TRAINING

It is a legal requirement that technicians working with the recovery of refrigerants from a vehicle must hold a recognised national qualification

The handling certificate provides the qualification necessary to satisfy EU legislation in the mobile air conditioning market. It is designed for anyone involved within the automotive industry including mobile mechanics, independent garages, main dealerships and motor manufacturers.

VENUE BASED

BOSCH – AC1RHA Automotive Air Conditioning Refrigerant Handling Certification (IMI L3 QCF 1 Day) £250

- Customer to receive training and assessment on the day.
- Bosch Course Booking Form required (one per person)
- IMI Registration Form required

TRAINING AND ASSESSMENT ON CUSTOMER'S PREMISES

(customer provides machine and consumables)

PROVQ – Automotive Air Conditioning Refrigerant Handling Certification (IMI L3 QCF 1 Day)

For the first person **£315**, for additional people from the same garage (up to a max of 4) **£75**

- Customer to receive training and assessment on the day.
- Customer are required to dedicate the entire working day to training only. (Will be unable to carry out normal work activities during the day)
- Booking Form required

ASSESSMENT ONLY ON CUSTOMER'S PREMISES (NO TRAINING)

(customer provides machine and consumables)

LEAD BDM – automotive Air Conditioning Refrigerant Handling Certification (City & Guilds)

For the first person **£195**, for additional people from the same garage (up to a max of 8) **£75**

- Customers are to study the course material for themselves as there will be no training on the day.
- Only 1 hour required for assessment

ZF TRAINING – CLUTCH AND CLUTCH SYSTEM AWARENESS COURSE

What is it about?

This one day course considers the key aspects of clutch system awareness, illustrating the clutch functions, components and types through presentation, discussion and hands on tutorial. Skills to undertake a correct clutch and release system installation.

What will you get out of it?

Recognition of the clutch components, knowledge of vibration reduction, skills to undertake a practical clutch damage assessment, potential workshop costs reduction, reducing chances of repeat vehicle failure, guidance from experienced tutor with extensive practical knowledge of SACHS clutches.

ONLY **£150.00**

CAR STEERING & SUSPENSION COURSE

What is it about?

This one day course covers key aspects of vehicle suspension and steering systems covering new technologies and the effect that these components have on vehicle safety.

What will you get out of it?

Recognition of the effect worn parts has on vehicle safety, understand vehicle suspension types and crucial settings, understand the importance of correct steering geometry set up, be confident to offer the correct advice to customers regarding steering and suspension parts, guidance from an experienced tutor with extensive practical knowledge of SACHS and LEMFÖRDER.

ONLY **£150.00**

DMF AND VEHICLE SYSTEM AWARENESS COURSE

What is it about?

This one day course considers the key aspects of vehicle system awareness, illustrating the DMFs superiority above conventional dampers through presentation, discussion and hands on tutorial.

What will you get out of it?

Skills to undertake a practical DMF damage assessment, recognition of the principle differences between conventional damper and DMF, fault finding skills for root cause of DMF failures, potential workshop costs reduction, reducing chances of repeat vehicle failure, guidance from experienced tutor with extensive practical knowledge of SACHS DMF.

ONLY **£150.00**

PAGID BRAKE TRAINING

Pagid Professional Academy is a comprehensive brake training programme, designed to equip workshop technicians with all the skills required for today's brake service. Delivered by accredited expert trainers, and approved by the IMI, it is the only training programme of its kind backed by a manufacturer and distributor.

What is it about?

A series of modules covering all types of vehicle braking beginning with the IMI QAA Award in Light Vehicle Brake Fitting

What will you get out of it?

Background theory and practical hands-on skills covering brake discs, drums, hydraulics, servo, fluid and anti-lock brake systems.

Aircon Machines

ECK TWIN-PRO DUAL-GAS AIRCON MACHINE FOR R134A & HFO1234YF

251 77 0820

- 2 Separated circuits for different gasses
- Refrigerant management giving usage report and archive
- Large 7" touch screen, colour display with icons for easy use
- Data base for quick gas selection also allows to add new vehicle models
- Compatible with hybrid and electric vehicles with electric compressors
- Nitrogen leak testing (nitrogen bottle & regulator not included)
- Automatic taps, no more manual valves
- Automatic leak check during vacuum phase
- Fully automatic cycle
- High precision
- Automatic air purge
- Thermal printer inbuilt
- USB port for easy data access
- Puff free couplers

ONLY **£4,099.00**
WEEKLY FROM ONLY **£31.95***

ECK 3500-UP AUTOMATIC AIRCON MACHINE FOR R134A

251 77 0840

- 5" Colour display with icons for easy use
- Automatic taps, no more manual valves
- Automatic leak check during vacuum phase.
- No-refillable containers, offers the advantage of eliminating contact with humidity
- Refrigerant management giving usage report and archive
- USB port for easy data access
- Data base for quick gas selection also allows to add new vehicle models
- Compatible with hybrid and electric vehicles with electric compressors
- Nitrogen leak testing (nitrogen bottle & regulator not included)
- Integrated diagnostics of electro-mechanical problems with printout
- Automatic air purge
- Thermal printer inbuilt
- High precision

ONLY **£2,639.95**
WEEKLY FROM ONLY **£20.57***

ECK 1800 AUTOMATIC AIRCON MACHINE FOR R134A

251 77 0850

- Fully automatic
- High precision
- Refrigerant management giving usage report and archive
- Automatic leak check during vacuum phase
- Data base for quick gas selection also allows to add new vehicle models
- Thermal printer inbuilt
- Bottle heater
- Automatic dye injection
- Refillable oil and dye containers

ONLY **£1,599.99**

BRAIN BEE CLIMA 6000 PLUS AUTOMATIC AIRCON MACHINE WITH PRINTER R134A

251 77 0980

- Extremely versatile, compact in size and light in weight
- Maintenance parts very easily reachable and accessible by non-experts technicians too, therefore minimizing the machine downtime costs.
- Patented Heater Lock, Eco Lock and Long Life Pump
- Flush prepared with optional kit
- Nitrogen Leak Test with optional kit
- All components and manufacturing are exclusively of European origin
- Option of being able to be integrated with Agricultural & Work Vehicles
- Multipass capable, enabling additional closed circuit filtering of the recovered cooling fluid

ONLY £1,538.46
WEEKLY FROM ONLY £11.99⁺

BRAIN BEE MULTIGAS 8250 AUTOMATIC AIRCON MACHINE WITH PRINTER R134A/1234YF

251 77 1000

- This machine can be easily converted from R-134a to R-1234yf if required in the future using the special transformation kit
- Equipped with an HPV - High Performance Vacuum Pump, ensuring undoubted performance
- Includes electronic gauges and valves to deliver an extremely friendly and intuitive operating interface
- Enable to operate refrigerant recovery from vehicles and full recharge effectively and rapidly, under any climatic condition
- Equipped with the most comprehensive database for R134a and R-1234yf on the market, which can be easily updated via Clima Solution (option)
- Equipped with an HPV High Performance Vacuum Pump, ensuring undoubted performance
- MULTIGAS 8250 can be accessorized with a printer (option, with specific KIT)

ONLY £2,030.77
WEEKLY FROM ONLY £15.83⁺

BRAIN BEE MULTIGAS 9000 AUTOMATIC AIRCON MACHINE WITH PRINTER R134A/1234YF

251 77 1010

- Delivers accuracy, flexibility, performance and efficiency
- Large storage capacity and great recovery with 10m³/h vacuum pump and 14cc compressor
- Added benefits of the patented Eco Locks and Long Life Pump
- Fully automatic system of selecting Hybrid function
- Opel/Vauxhall OE software limits
- Flush prepared with optional kit
- Nitrogen Leak Test with optional kit
- All components and manufacturing are exclusively of European origin
- Option of being able to be integrated with Agricultural & Work Vehicles

248 77 0640

ONLY £299.99

MARKSMAN 2 ULTRASONIC LEAK DETECTOR

261 77 0150

ONLY £179.99

R134A ELECTRONIC LEAK DETECTOR WITH BUILT IN LED LIGHT & UV GLASSES

244 77 0010

This revolutionary design allows the user to perform Electronic and UV Leak Detection all with one tool. Offering six levels of sensitivity (15 levels of detection) with a tri-coloured LED indicator. This allows it to pin-point leaks as small as 3g (1/10oz) per year. The ultra bright UV light is built into the end of the probe allowing easy access into tight areas. Incorporating both electronic and UV technology into one unit insures that even the toughest leaks can be found.

- Ultra bright UV/blue LED light
- UV safety glasses
- 6 levels of sensitivity (15 levels of detection)
- Tri-coloured Visual Leak Level Indicator
- Mute function
- Detects leaks as small as 3g (1/10 oz) per year
- Detects all refrigerants, CFC's, HCFC's, HFC's
- Includes a custom moulded carrying case

ONLY £169.99

ATOM MACHINE ULTRASONIC NEBULISER WITH 48 BOTTLES (200ML)

2244 77 0250

The ATOM MACHINE is a powerful electronic ultrasonic nebuliser designed to atomise the specially formulated Atom sanitising liquid, the resulting fine vapours (less than 5u) are distributed by the vehicles A/C System to sanitise and deodorise the cabin and A/C System.

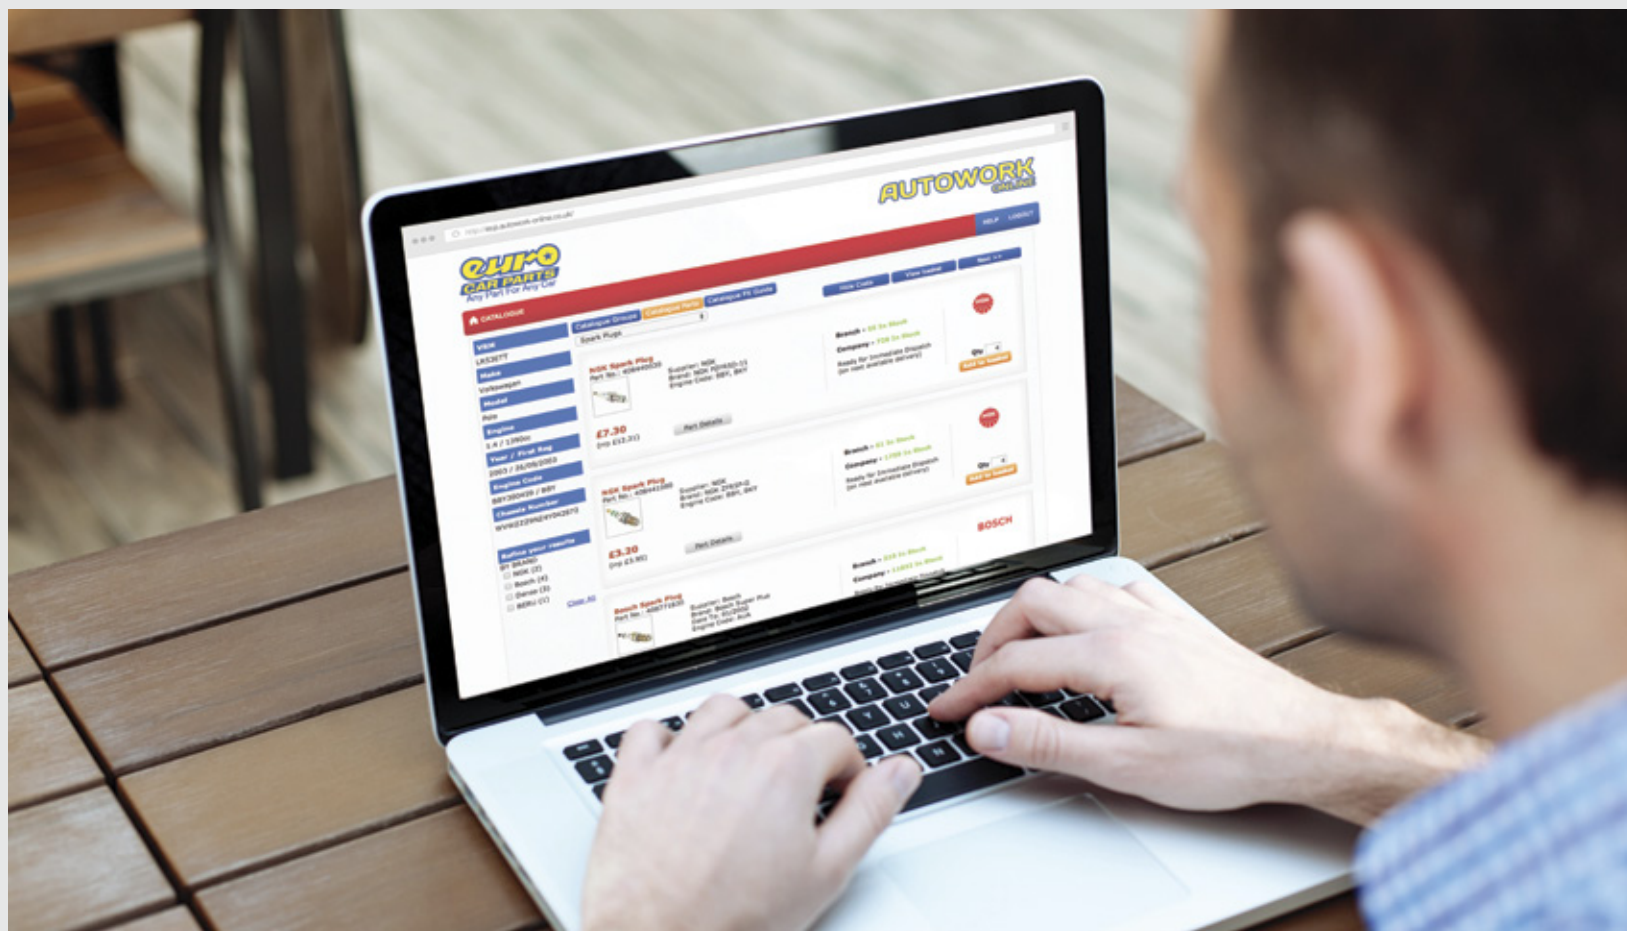

The Atom Machine is supplied with 48 bottles of 200ml Atom Sanitising Treatments. The Atom system provides an effective yet economical sanitising and deodorising solution.

Power supply: 220V-50/60 Hz
Operating temperature: 0°C-60°C
Nebulisation rate: ≈390ml/h
Dimensions: L170 x P110 x H170mm
Weight: 0.7kg

ONLY £84.99

*Based on a five-year lease agreement. Subject to status. Full terms and conditions available on request. Other lease terms and finance options available on request. THE OBVIOUS ALTERNATIVE

WHETHER YOU ARE LOOKING FOR AN ALTERNATIVE TO YOUR EXISTING GARAGE MANAGEMENT SYSTEM OR LOOKING FOR THE VERY FIRST TIME, LOOK NO FURTHER THAN AUTOWORK ONLINE; THE PERFECT TOOL TO MANAGE ALL OF THE BUSINESS ACTIVITIES ASSOCIATED WITH A MODERN WORKSHOP ENVIRONMENT.

DIARY

- Allows the user to keep track of what jobs are being done.
- Garages can use this feature to assign technicians certain jobs.
- Shows Garages what work that has booked in that hasn't been assigned.
- Drag and drop features allow you to make easy changes.

CUSTOMER

- Feature allows you to create a customer database so you know who has what.
- You can choose key methods of contact so you can easily contact your customer.
- Features allowing you to message customers that may be due a service to encourage them to use you again.
- Allows you to set certain discount rates and shows how much a particular customer owes in money.

DOCUMENT

- Allows you to create invoices very quickly complete with VAT and labour costs.
- Allows you to search for old invoices from previous jobs.
- Allows you to maintain an MOT diary so you know what you have planned for the day/week/month.

VEHICLE

- Allows you to search for a vehicle to retain vehicle specifications.
- Shows you any outstaying payments/jobs for that particular vehicle.
- Allows you to see who the vehicle is registered to on your customer database.
- Allows you to check the labour times for jobs on specific vehicle.

TECH DATA

- Gives you more information that you could imagine.
- Information on diagnostics, wiring diagrams, fuses locations.
- Gives you break down drawings to help you when you most need it.
- Tells you what lubricants are required for everything.

TEMPO

TEMPO is a new generation patented spraybooth designed to enable bodyshops to meet the growing demand for high-quality 24 hour express repairs. With it's ability to traverse multiple bays, TEMPO eliminates vehicle movements. The result is increased throughput and greater repair capacity. Designed for new paint technology - UV, IR and Low Temperature Cure.

- UV Protected roller doors
- HSE & EPA Compliant
- Fast Process of up to 12 jobs per day
- Ultra Low Running Costs
- One Stop Workstations
- Lean Process Control
- Multiple process layouts to suit individual customer needs
- Aquadry systems for waterborne paints
- 45 degrees C cure process
- Built in InfraRed units
- Intergrated UV Lights

ASK FOR DETAILS

SPRAYMATE

A unique range of high-performance rear-wall extraction spraybooths (no excavations required!).

Combines durable double-skinned construction with energy saving features such as variable speed fan control, automated Eco mode and unique motion-activated lighting systems.

Innovative and versatile, the Spraymate range provides high quality, high speed processing – cost effectively and efficiently. For additional peace of mind, STL's comprehensive aftercare package includes the option of a 2-year warranty.

CYCLONE

The ultimate high performance downdraft spraybooth, the Cyclone range provides unrivalled performance, efficiency and specification.

With high efficiency fan systems, fully modulating direct gas-fired burner systems, unique air-fed lighting and a fully automated PLC control system, the Cyclone is increasingly the spraybooth of choice for some of the UK's leading repairers.

And for additional peace of mind, STL's comprehensive aftercare package includes the option of a 3-year warranty.

Equipment Service & Maintenance

OUR SPECIALIST EQUIPMENT SERVICE AND MAINTENANCE TEAM PROVIDES ALL INSTALLATION, SERVICING AND MOT CALIBRATION REQUIREMENTS INCLUDING PLANNED MAINTENANCE AND SCHEDULING

VEHICLE LIFT MAINTENANCE & REPAIRS

Servicing for 2-post and 4-post lifts; call out to breakdowns on garage equipment

MOT EQUIPMENT CALIBRATION

For both Car and Motorcycle equipment

AIR & OIL PIPEWORK

Supply and installation including galvanised steel tube, Transair and John Guest aluminium

SPRAYBOOTH SERVICING

Including smoke clearance test, LEV test and certification; breathing air quality test; calibration

COMPRESSOR SERVICING

Service support for compressed air systems including test and certification of breathing air quality or total supply and installation of new turn-key compressed air package

LEV TEST & SERVICE

We supply, fit and service dust and fume extraction equipment for both exhaust and dust extraction

TOOL CALIBRATIONS

For a wide variety of tools including tyre gauge, torque wrench, pressure gauge, paint thickness & tracking sticks

AIR CONDITIONING MACHINE SERVICING

Service support and maintenance facility including repairs, training and F-gas assessments

WELDING EQUIPMENT SERVICING

Routine servicing and equipment inspection including spot and mig welders, dent pullers, plasma cutters, induction heaters, TKR riveters and Oxy/Acet equipment

SPRAY GUN REPAIRS

For a variety of spray guns regardless of manufacturer carried out in fast response time

ELECTRICAL WORKS

To meet all legislative requirements

FULL WASTE MANAGEMENT

Comprehensive service that disposes, reuses and/or recycles all waste produced whilst complying with legislation

EXPERIENCE HAS DEMONSTRATED THAT A PREVENTATIVE MAINTENANCE CONTRACT CAN PROVIDE BUSINESSES WITH A SIGNIFICANT REDUCTION IN REPAIR COSTS, ENSURING TOTAL PEACE OF MIND FOR BOTH THE EQUIPMENT OWNER AND OPERATOR. ALTERNATIVELY, SERVICES CAN BE SECURED ON AN 'AS REQUIRED' BASIS.

Crypton ATL

3 YEAR WARRANTY

FREE LAPTOP / TABLET
(WHILST STOCK LAST!)

Call us to add Class I & II for the packages below at a special price

Crypton offer both platform scissor lifts and 4-post lifts, finished with high-quality checker plates. The scissor lift is recessed to leave a flush surface when not in use and the absence of posts can save a metre in width of valuable workshop space, making this the ideal choice for smaller garages. The 4-post lift is delivered complete with turn plates and both lifts are VOSA-approved for MOT testing of Class IV and Class VII vehicles.

AUTODIAGNOS VCI

THE AUTODIAGNOS VCI IS THE DADDY OF VEHICLE DIAGNOSTICS. IT READS AND DELETES FAULT MEMORIES, TESTS AND ADDRESSES COMPONENTS, DISPLAYS MEASURED VALUES AND CONSULTS PARTS, FOR ALL TYPES OF VEHICLE MANUFACTURERS! AUTODIAGNOS DSI - SINGLE CLICK ACCESS TO DETAILED INFORMATION USUALLY ONLY KNOWN TO THE VEHICLE MANUFACTURER

- Diagnostics doesn't have to be scary! HaynesPro VESA offers intelligent, step-by-step diagnostics, generates local component diagrams and automatically generates diagnostics solutions.
- Order it once, Order it right! - With the high performance software, data can be analysed and branched off to other software modules e.g. parts catalogues to avoid ordering wrong parts
- HaynesPro SmartFix - Researches known vehicle faults and offers technical service bulletins and recall data, reducing the time for fault diagnosis and the involvement of specialist dealers

ONLY **£1,995.00**
WEEKLY FROM ONLY **£15.55⁺**

3 YEAR WARRANTY

VDO TPMS PRO AND VDO TPMS PRO PRINT

NEW FROM VDO. THE FASTEST AND MOST ADVANCED VDO TPMS TOOL YET! THIS PRACTICAL SERVICE DEVICE CAN BE USED TO INSTANTLY ACTIVATE, READ AND DISPLAY SENSOR DATA FOR ALL FOUR OF A VEHICLE'S TPMS SENSORS IN LESS THAN 90 SECONDS

- Program all popular universal TPMS sensors (Alligator sens.it, HUF IntelliSens, Schrader EX-Sensor, T-Pro) for all types of vehicle manufacturers worldwide and relearn via the OBD II link
- Innovative 4.3" and easy navigation colour display
- VDO TPMS Pro Print - Equipped with a docking station and integrated infrared data printer, you can print our results quickly and easily. Suitable for wall-mounting for the workshop and mobile tyre fitters

ONLY **£1,049.00**
WEEKLY FROM ONLY **£8.17⁺**

Kärcher Pro

PUZZI 8/1 C PRO UPHOLSTERY CLEANER

546 77 8010

The Puzzi 8/1 C is a powerful and compact spray extraction cleaner, ideal for vehicle valeting and spot cleaning of carpeted floors. Thanks to its lightweight construction, the unit can be easily transported and due to its excellent suction power, the Puzzi 8/1 C leaves carpets and upholstery virtually dry to touch in minutes.

Motor - 1200W (240V)
Air Flow - 61 l/s
Capacity - 8+7 Ltr Tank

ONLY £269.99

HDS 5/11 U HOT WATER PRESSURE CLEANER

KA10640320

Kärcher's HDS 5/11 U hot water pressure washer is ideal for the motor trade and those who require a simple and convenient cleaning solution. The HDS 5/11 U is designed to be as easy to use and transport as a Kärcher cold water pressure cleaner, but with the added cleaning performance that comes from using water heated to 80°C. With simple OFF-COLD-HOT operation, small footprint and world-class Kärcher build quality, the 5/11 U is the perfect machine for light duty cleaning tasks where time is of the essence.

Motor - 2.2kW (240V)
Water Flow - 450 l/h
Pressure - 110 bar
Hose Reach - 10m
Max Temp - 80°C

ONLY £849.99

COLD WATER PRESSURE WASHERS

XPERT ONE

Kärcher's Xpert One pressure washer is compact, powerful and designed for professional use. With tough components throughout, including stainless steel pistons and spray lance, heavy-duty wire-braided anti-kink hose, and brass cylinder head and water inlet – the Xpert is built to last.

XPERT DELUXE

The Xpert Deluxe pressure washer offers the same performance and features as the Xpert One but also includes a 15m hose and integrated hose reel, a deluxe wash brush and a Dirtblaster nozzle for fast removal of stubborn dirt.

Motor - 2.3kW (240V)
Water Flow - 480 l/h
Pressure - 160 bar
Hose Reach - 10/15m

KAR1514145

XPERT ONE ONLY £359.99

HDS 7/10-4 MX HEAVY-DUTY HOT WATER PRESSURE WASHER

KA1077414

The HDS 7/10-4 MX heavy-duty hot water high-pressure cleaner with steam function provides high levels of performance, reliability and economy.

Kärcher's flagship heavy duty hot water pressure cleaner is ideal for long periods of continuous duty and is designed for the toughest cleaning jobs. Features integrated hose reel with 20m hose for a wider working radius.

Motor - 3.1 kW (240V)
Water Flow - 350 - 700 l/h
Pressure - 30-100 bar
Max Temp - 155°C

ONLY £2099.99

HDS 6/12 C BEST-SELLING HOT WATER PRESSURE WASHER

KA1169219

The HDS 6/12 C is a powerful hot water high-pressure cleaner with steam function suitable for deep cleaning of vehicle exteriors and chassis. Featuring ecoefficiency mode for up to 20% fuel savings compared with previous models. Unlike other machines in its class the 6/12 delivers detergent at high pressure for a more powerful clean.

Motor - 3.0 kW (240V)
Water Flow - 240 - 560 l/h
Pressure - 30-120 bar
Max Temp - 155°C

ONLY £1499.00

HD 6/13 C HEAVY-DUTY COLD WATER PRESSURE WASHER

546 77 8000

Kärcher's HD 6/13 C Plus is a compact and powerful high pressure cleaner designed for the demanding cleaning requirements of the automotive industry. High water flow and pressure ensure thorough cleaning results even when tackling the most stubborn dirt. With variable water pressure, triple nozzle and Dirtblaster nozzle as standard, this machine offers high performance cleaning producing fantastic results and offering quick turnarounds.

Motor - 2.9kW (240V)
Water Flow - 590 l/h
Pressure - 190Bar
Hose Reach - 10m

ONLY £449.99

BR 40/10 C HEAVY-DUTY FLOOR SCRUBBER DRIER

546 77 108D

Kärcher's BR 40/10 heavy duty scrubber drier makes cleaning small to medium hard floors easy, delivering outstanding results and helping to keep your workshop safe and compliant with VOSA regulations. Featuring twin counter-rotating brushes and twin rubber squeegees, the BR 40/10 cleans and dries hard floors in a single pass. By turning the vacuum system off, the machine can be used for deep cleaning of heavily soiled areas.

- Toolbox

ONLY £559.99

*Based on a five-year lease agreement. Subject to status. Full terms and conditions available on request. Other lease terms and finance options available on request. Offers valid until July 31st 2015. Prices correct at time of going to press: April 2015. Prices exclude VAT, VAT will be applied at current rate. Errors & omissions excluded.

COMPRESSOR GUARD KIT

245 77 0520

DEBRIS IN THE SUCTION LINE IS A MAJOR REASON REPLACEMENT COMPRESSORS COME BACK “DEFECTIVE” MORE OFTEN THAN OE COMPRESSORS. IN THE FIELD, COMPRESSORS GO INTO A SYSTEM THAT MAY BE COMPROMISED BY DEBRIS LEFTOVER FROM THE FAILURE OF THE PREVIOUS COMPONENT.

AirSept's award-winning Compressor Guard Suction Screens trap metal shavings and other large debris.

The new Compressor Guard Ultimate Suction Screen Kit contains 12 new screen sizes, for a total of 20 different sizes. The new screen sizes expand coverage to almost any vehicle on the road today, including many low volume and odd size compressor hose assemblies. The new Compressor Guard Ultimate Suction Screen Kit is likely to have a screen that fits.

When a compressor fails in use, debris particles flow in both directions. Although most debris travels down the high side, some does flow upstream from the compressor suction port towards the suction muffler, hose, accumulator or receiver/drier and evaporator.

Even flushing cannot guarantee 100% removal of these metallic Trojan horses.

OE-approved Compressor Guard screens install in the suction port on the hose assembly. They trap any large debris heading toward the replacement compressor. Installation takes less than five minutes with no hose cutting. Particles that are too small to harm the compressor pass through the screen, so there is no reduction of refrigerant and lubricant flow.

Replacement screens are available in packs of five of any single size.

ONLY £107.00

CLT1 COMPRESSOR TESTING TOOL

355 77 0220

The handheld CLT1 controls (by bypassing the vehicle's on board control unit) the clutchless variable compressors that we find on many modern vehicle A/C systems. These compressors use an electronic control valve to regulate the displacement “refrigerant output” of the compressor.

By controlling this electronic valve manually, independently from the on board computer, a more precise diagnosis may be made on the system. The capacity of the compressor can be manually regulated using the CLT1 from 3% - 100%.

The CLT1 is powered by the vehicles battery.

Vehicle manufacturers that utilise this clutchless, electronically controlled compressor are (among others): Volkswagen, Audi, Seat, Skoda, Peugeot, Citroën, BMW, Chrysler, Honda, Toyota and Mercedes-Benz.

TECHNICAL SPECIFICATIONS:

- CLT1 tester with 12V power clamps
- Simulator
- Compressor connection for Volkswagen and Audi vehicles
- Compressor connection for Denso compressors
- Hook & Magnet
- Manual
- Carry Case
