Go Further

Explorer. Get in. And break out.

The 2015 Explorer offers you 4 different models to do just that. The most exhilarating – Explorer Sport – delivers a grin-inducing 365 net hp¹ and 350 lb.-ft. of low-end net torque.¹ Thanks to our twin-turbocharged, direct-injected 3.5L EcoBoost[®] V6 engine. For precise control, Sport also features our 6-speed SelectShift[®] automatic transmission and racing-inspired paddle shifters. 20" signature "SPORT" wheels. Blackout-treatment headlamps and taillamps. Ebony Black liftgate appliqué. "EXPLORER" lettering atop its Ebony Black grille. And a well appointed, uniquely trimmed interior. All of it riding on a fully independent sport-tuned suspension with an upgraded front strut tower support, and wider wheels for top-of-the-line performance. Absolutely. Unmistakably. Explorer Sport.

¹Figures achieved using 93-octane fuel. ²Available equipment.

PADDLE SHIFTERS²

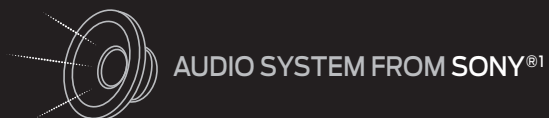

Sport. Ingot Silver Metallic. Available equipment.

Gather up to 7. And keep them entertained.

You and your passengers will travel in style and luxury inside Explorer Limited with standard perforated leather-trimmed seating. Up front, 10-way power, cooled seats¹ help keep you comfortable. A dual-panel moonroof¹ fills the cabin with light from above. Expansive 3rd-row leg room and 2nd-row head room are sure to please one and all. Via the LCD touch screen on SYNC[®] with MyFord Touch,^{1,2} it's easy to control your phone, entertainment and more. Voice-activated Ford SYNC^{1,2} delivers hands-free calls, music and more in response to simple voice commands. Once paired, it downloads your contacts and plays music from your phone, MP3, USB or iPod.[®]

¹Available feature. ²Driving while distracted can result in loss of vehicle control. Only use SYNC/MyFord Touch/other devices, even with voice commands, when it is safe to do so. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. iPod is a trademark of Apple Inc., registered in the U.S. and other countries. Sony is a registered trademark of the Sony Corporation.

 2,285-LITER MAX. CARGO

Limited. Charcoal Black leather trim with perforated inserts. Available equipment.

Let it assist you here. And there.

With its advanced technologies,¹ Explorer can help you parallel park, avoid collisions and more. Active park assist¹ helps you find a spot, then steers the vehicle into place as you shift gears and control the brake and accelerator pedals. BLIS[®] (Blind Spot Information System) with cross-traffic alert¹ uses sideview mirror lights² to warn of traffic detected in blind spots as you're driving forward or nearing either side as you're slowly backing up. Adaptive cruise control and collision warning with brake support¹ flashes a warning on the windshield, sounds an alarm, and preps the braking system to help if a potential front-end collision is detected. The Lane-Keeping System¹ detects lane markings with a forward-facing camera and can send vibration pulses to the steering wheel and apply steering torque if needed, prompting you to steer back toward center.

¹Driver-assist features are supplemental and do not replace the driver's judgment. ²Available feature. Availability varies by market. ³BLIS replaces standard integrated blind spot mirrors. ³Available feature.

Challenging conditions? Simple solution: Just turn the dial to match the scene outside. Our highly capable Terrain Management System^{™3} is paired with Intelligent 4WD³ to give you seamless shift-on-the-fly confidence. It's one more way Explorer inspires adventure.

Mud, Rut
Lets the tires spin a bit if needed to help keep you on the go.

Gravel, Grass
Optimizes traction and control on a wide array of slippery surfaces.

Sand
Allows aggressive wheel spin to help you stay on top.

Normal
Ideal for everyday driving on wet or dry paved roads.

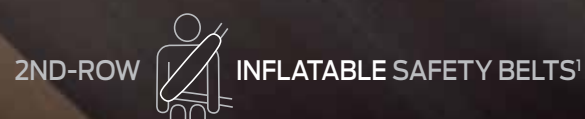

Hill Descent Control[™]
Regulates your speed on steep declines with push-button ease.

Relax. And travel confidently.

Our Safety Canopy® System helps increase protection with side-curtain airbags that deploy to cover all 3 rows of seating. In addition to 7 standard airbags, Explorer offers inflatable rear safety belts¹ in its 2nd-row outboard seating positions – the first of their kind in automotive production. Standard Curve Control helps slow the vehicle by as much as 16 km/h in about a second if it senses you're taking a curve too quickly.² To help you maintain control while towing, standard trailer sway control automatically reduces engine speed and selectively applies the brakes if trailer sway is detected.² Standard hill start assist is particularly useful at traffic lights and ramps. It helps prevent the vehicle from rolling downhill when you transition from the brake to the accelerator, whether you're negotiating an incline in Drive or in Reverse.

¹Available feature. ²Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.

Limited. Tuxedo Black Metallic. Available equipment.

Explorer Specifications

Standard Features

Mechanical

4-wheel disc Anti-Lock Brake System (ABS)
6-speed SelectShift® automatic transmission
70.4-liter fuel tank
72-amp-hr battery
