## HISTORY & HERITAGE

As a Stoke-on-Trent pottery brand, Price & Kensington is a world renowned ceramic tableware company with a history and heritage dating back over 100 years.

Our story started back in 1896 when the innovative Price Brothers founded their earthenware manufacturing company in Crown Works, Burslem, specialising in table top accessories and teapots. The brothers quickly became renowned for their distinctive designs. Through their hard work and dedication the Price Brothers brand saw rapid success and in 1934 they moved to the Top Bridge Works in Longport, where they became known as Price Bros Ltd.

During their time at the Top Bridge Works, the brothers developed a strong working bond with Kensington Potteries, who specialised in novelty teapots. This bond grew so strong that two companies eventually merged in 1962 to become known as Price & Kensington.

Rich in heritage and passionate about tabletop accessories and teapots, the Price & Kensington brand continues to flourish under family ownership. Whilst teapots remain at the heart of the product range, we also offer a number of tabletop collections including co-ordinating storage and dinnerware to accommodate all tastes and styles.

We understand that for generations, the kitchen has been the heart of the home, which has been and remains the fundamental inspiration for our new developments.

“Some of the original brick built bottle kilns still stand today and capture a historical image of industrial life in this famous pottery area.”

“Rich in heritage and passionate about teapots and tabletop accessories, the Price & Kensington brand continues to flourish.”

## BROWN BETTY – AN ENGLISH CLASSIC

The Brown Betty teapot was created in Stoke-on-Trent; the heart of British potteries in the 1800's. Locally quarried red clay was used due to its affordability and durable qualities. The clay was also well known for retaining heat, which was perfect for teapots.

The round shape, referred to as 'Betty', infuses the perfect brew by allowing tea leaves to swirl freely around the pot, releasing the flavours.

The glaze is "Manganese Brown" which was developed by the Marquis of Rockingham. The shape and the name were eventually shortened to the affectionate term 'Brown Betty'. This teapot has become an English classic and is very much used as an everyday item in modern day living.

Price & Kensington teapots have continued to evolve since the Brown Betty days by developing a range of fashion led colour palettes for modern day living. Ranging from soft neutral hues to vivid, bright tones whilst maintaining the historical shape and functionality of the 'Betty' teapot with a non-drip spout.

The 2 cup and 6 cup sizes can now be used with and without a fine mesh stainless steel filter which allows even the finest loose leaf tea to infuse perfectly.

*“Full of charm and character,  
the Price & Kensington Teapot  
collection encompasses  
time-honoured style and versatility.”*
