

# DIGITAL CATALOG 2017

# MY VISION YOUR VOICE

Since March 6, 2015 I have worked for a retail company located in Marengo, Ohio that sells primitive, country decor such as tin lamps, furniture, candles, timer candles, curtains, rugs, pictures, table runners and much more. Also has a full fledged flower shop that does funerals, weddings, and delivers to homes. I decided to go with my website to see if I could also sell some of these types of items online to people out of the state of Ohio. I am trying to reach out to so many more people with these products because there is not very many stores out there that sell these types of items at a real reasonable price. I believe that great style can come at a great price. Whether you are decorating to make your home more beautiful or you are an interior designer we have what you need at [www.srshomedecor.us](http://www.srshomedecor.us).
