**Duraflor® Ultra™ 5% Sodium Fluoride White Varnish – Medicom®**

The next generation of white fluoride varnish offering our fastest fluoride release. Advanced formula quickly releases fluoride within 2 - 4 hours, so your patients get the maximum fluoride benefit while the varnish is still on their teeth. Sweetened with Xylitol, patients will enjoy each of the great tasting flavors. The natural choice; does not contain saccharin or aspartame; tree nuts, peanuts, sesame, corn, shellfish, egg, soy, dairy products and gluten.

Contains: 0.4ml Unit Dose.

**OptiBond™ Universal – Kerr Restoratives**

Single-component light cure adhesive, providing excellent adhesion to a variety of surfaces and substrates for both direct and indirect applications. Can be used in Self-Etch, Selective Etch and Total Etch techniques. Excellent dental adhesive for enamel, dentin, porcelain and ceramics. Low film thickness creates a better fit of final restorations (~5 microns).

**BUY 1 , GET 1**

**SANI Vac™ Evacuation System Cleaner – Crosstex International**

This unique low-foaming formula includes multiple proteolytic enzymes that efficiently remove a wider range of dental debris than surfactants alone. These enzymes specifically break down proteinaceous materials (saliva, mucous and blood) that build up and block your suction lines. Clogged suction lines can potentially lead to cross-infection, endangering your patients. Routine use of SANIVac Cleaner will help prevent downtime by ensuring your suction lines and solids traps remain unclogged for optimal suction. 3 lines can be treated per ounce of concentrate. 384 applications per bottle.

550-JVAC	Gallon	<del>\$58.95</del> <b>LOW NET \$29.48</b>
----------	--------	---

All offers valid 07/01/17 - 09/30/17. Please see [www.dhpionline.com/promotions](http://www.dhpionline.com/promotions) for free good redemption info and full promotional details.

**COEffect™ MinuteWipes & MinuteSpray – GC America**

COEffect MinuteWipes are a "one step," surface disinfectant that features an ethanol-base, low-toxicity and pleasant "non-fragrance". It's been laboratory tested and is EPA Registered as an effective Bactericide, Virucide, Tuberculocide and Fungicide. Unique material (polyester nonwoven spunlace) and larger size combine to effectively spread the disinfectant solution and absorb excess bioburden — making it an added plus for infection control protocol.

COEffect MinuteSpray features an ethanol-base, low toxicity rating. It's been laboratory tested and is EPA Registered as an effective Bactericide, Virucide, Tuberculocide and Fungicide for one minute "kill time" of twenty-five pathogens.

**MinuteWipes 9" x 7"**  
510-557200 100/canister..... **\$11.45 NOW \$10.75**

**MinuteSpray**  
510-557201 32oz bottle..... **\$14.45 NOW \$13.95**

**KOVANAZE™ Nasal Anesthetic Spray (Needle-Free) – St. Renatus**

Kovanaze (tetracaine HCl and oxymetazoline HCl) is the first FDA approved nasal spray indicated for regional anesthesia when performing a restorative procedure on Teeth 4 - 13 and A - J in adults and children who weigh 40kg or more. Patients may not experience the same sensations of numbness or tingling of the lips and cheeks associated with injectable anesthetics. Kovanaze provides regional anesthesia with 96% efficacy in teeth #5 - 12, 64% in #4 and #13, therefore offers a needle-free alternative to the majority of anterior maxillary injections. No post pain due to injections. Requires cold chain shipping, contact your DHP Account Manager for details. Rx. 120-KOVA20 30/box.....**\$669.95 NOW \$636.45**

View Demo at: [www.dhpionline.com/item/120-KOVA20/](http://www.dhpionline.com/item/120-KOVA20/)

**CloSYS® Silver Fluoride Rinse – Rowpar Pharmaceuticals, Inc.**

Relieves mild to moderate sensitivity and dry mouth. Recommended to relieve canker sore and chemo sore discomfort. Remineralizes adult enamel. Anticavity and alcohol-free, sulfate-free, triclosan-free, gluten-free and pH balanced. 360-2C1612F 16oz bottle.....**\$8.45 NOW \$7.95**

All offers valid 07/01/17 - 09/30/17. Please see [www.dhpionline.com/promotions](http://www.dhpionline.com/promotions) for free good redemption info and full promotional details.

# One sleeve fits them all! SNUGGIES™

The only sensor sleeve that custom-fits your sensor

Protect your equipment and your patients with a snug, custom-fit sensor sleeve - regardless of sensor size. Simply peel, stick, and go!

Snuggies work with sensors of any size, shape, and thickness. Patients love Snuggies because there's less loose plastic to gag on. Practitioners love Snuggies because one-size-fits-all, eliminating the need to buy and stock many sizes. Plus, with Snuggies, you don't have to twist the sleeve around delicate sensor cords to keep the sensor from sliding around.

Snuggies are economically priced in boxes of 500. Item 660-80222 Regular \$56.75, **NOW \$52.95**. Offer valid 07/01/17 - 09/30/17.

For more information and samples, visit [www.FlowDental.com](http://www.FlowDental.com) or call us at 1-800-356-9729

Pre-Fold. Better Hold.

**DEFEND LOC**  
by Mydent International

New, PRE-FOLD feature positions the closure flap perfectly - making this award-winning sterilization pouch even better!

- Provides a complete and uniform seal
- Eliminates misalignment that can compromise sterility
- Save time by achieving the ideal seal every time
- Same great features and price as the "Defend+ pouch"

**YOUNG™**

**Hygiene Handpiece**

Low Speed Handpiece. Engraved matte grip nosecone rotates 360 degrees, helping to reduce the need to shift the wrist as often during polishing and the contra-angled connector also aids in lessening wrist fatigue because it helps reduce cord drag aggravation. Constructed with a Reverse Radius silhouette that's curved to fit comfortably in the dental hygienist's hand for smooth, easy handling.

- Option of Seamless or Plush Upholstery
- Slung Armrest Model Available with Upholstery Choices
- Choice of Standard Vinyl or Optional Ultraleather®
- Narrow, thin backrest for excellent access to the patient oral cavity

**NEW**

### **Excelsior 3D CBCT**

The PreXion Excelsior advances all CBCT core technologies including the X-Ray Tube and FPD. The Excelsior couples the smallest focal spot (0.3 mm) with the following: voxel size of 0.1 – 0.2; 1024 volume size; 360° gantry rotation; 16 bit grayscale; and advancements in the PreXion software – resulting in unprecedented diagnostic clarity. In addition, the PreXion Excelsior can deliver 30% lower patient dose without compromising the image quality.

The PreXion Excelsior has 4 fields of view (FOV), 48 preset scan mode options, bitewing capture, TMJ capture, and the optional Cephalometric. Direct applications include relevancy in implantology, orthodontics, oral surgery, periodontics, endodontics, TMJ, airway analysis, and ENT.

The PreXion software flawlessly integrates into the office network without any specialized hardware. The PreXion3D Viewer can be installed on any Windows PC on the network, allowing scans to be viewed from any computer (with no additional or annual viewer licensing fees). The PreXion Excelsior Pro has a 7 year parts warranty available.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

### ProVecta HD

ProVecta HD Intraoral X-Ray Perfect in function & design

- DC tube features a 0.4 mm focal point for maximum image sharpness
- The smaller the focal spot, the greater the contrast resolution, which provides sharper edge definition and finer details of internal structures
- ProVecta HD works with wired sensors, cordless flexible phosphor sensors (PSPs) and film
- Generator head handle allows precise positioning that stays in place
- Right-angle/parallel technology for precise alignment
- Adjustable mA and kV and exposure time
- Optional rectangular radiation field collimator
- DC technology allows constant radiation levels to ensure reliable image quality
- Our special generator head handle not only allows precise positioning, it makes the process more comfortable for both the clinician and the patient
- Choose from 3 Extended arm lengths: short (68"), medium (74"), and long (86")
- The DC tube reduces the patient radiation dose by more than 25% in comparison to conventional AC units, ensuring greater safety for your patients and staff
- This state-of-the-art unit's small footprint, coupled with its right-angle/parallel technology, allows it to work its magic in less space than less-advanced units
- Factory programmed dosage specifically set for each view of teeth when using ScanX flexible phosphor sensors (PSP)

### HD Sensor

The HD Sensor is clinically usable at a wide range of exposure settings and is more consistent than all of the other sensors in the market. Practitioners benefit from a reduction of time consuming and exposure-related retakes. Also, patients benefit from the reduction of radiation exposure. With our high sensitivity sensor, you can capture diagnosable images under any condition, even when using an old X-ray source.

# The (9) Commandments of Compliance

There have been sweeping changes to both OSHA & HIPAA Compliance Requirements for the dental office. Aside from *Annual OSHA Employee Training*, there is now a secondary OSHA training requirement called *Global Harmonization System (GHS)*. It deals with applying International Chemical Safety Standards into your daily practices in the workplace. *GHS Employee Training* was implemented December 1, 2013 with required SDS compliance by June 1, 2016. The question is, are you now in compliance? How do you get there?

**Don't be fooled that training alone will get you completely compliant.** OSHA and HIPAA inspectors love offices that admit they "have only completed training" and did little else to study the laws or prepare their facility and update their paperwork for real compliance.

**Good news:** If you implement these (9) Commandments of Compliance, you should "ace" any OSHA or HIPAA inspection

**Don't be fooled by companies promising you free training in any of these areas!** The "attention-to-detail" that needs to be invested in developing sound compliance

programs is far too complex! It's best to investigate and work with a company that has developed their programs with the help of attorneys specializing in these areas of law. The fines for non-compliance are great and will put your office in jeopardy. "Free" is rather flippant when it comes to OSHA & HIPAA. **Make sure your compliance programs are comprehensive!** Choose experts that are committed to compliance as their main area of expertise. **Dental Enhancements** provides affordable, complete compliance packages:

- Initial Annual OSHA Employee Training Package ... \$349
- OSHA / GHS Complete Compliance Package .....\$399
- HIPAA Complete Compliance Package .....\$429
- ALL-IN-ONE Complete Federal Compliance Pkg ... \$1299
- MI OSHA Package .....\$169
- TX HIPAA HB300 .....\$169
