¹13.1L/100 km city and 9.4L/100 km hwy with 3.5L Ti-VCT V6 FWD. ²Available feature. ³Rating for 3.5L EcoBoost V6. Using 93-octane fuel.

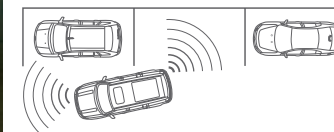

Settle in. Stretch out. Stay connected.

The 7-seat Ford Flex offers plenty of pampering space for everyone. The 10-way power driver's seat¹ and power-adjustable pedals¹ can both include memory,¹ so Flex can recall your personal settings in an instant. In the 2nd row, choose from a 3-person bench seat or bucket seats¹ for 2 with a pass-through to the 3rd row. Add the 2nd-row console¹ for extra storage. Or make it the refrigerated console¹ for extra convenience. Another cool feature is voice-activated Ford SYNC.^{®2} It delivers hands-free calls, music and more in response to simple voice commands. Once paired, it downloads your contacts and plays music from your phone, MP3, USB or iPod.[®]

¹Available feature. ²Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Not all features are compatible with all phones. iPod is a registered trademark of Apple Inc., registered in the U.S. and other countries. Microsoft is a registered trademark of Microsoft Corporation. Sony is a registered trademark of the Sony Corporation.

Limited. Appearance Package. Available equipment.

Steers itself. Looks out for you.

BLIS® (Blind Spot Information System) with cross-traffic alert^{1,2} helps keep you aware of other vehicles while you're driving. An amber light in your sideview mirror indicates when traffic is detected in a blind spot. As you slowly back out of a parking spot or driveway, it alerts you to vehicles approaching from either side with a sound, a message center warning and an amber light. Adaptive cruise control and collision warning with brake support¹ help maintain a preset gap from the vehicle in front of you. If it detects a potential collision, the system flashes a warning across your windshield, sounds an alarm, pre-charges the brakes and increases brake-assist sensitivity to provide full responsiveness when you do brake. Active park assist¹ helps with parallel parking. It measures the size of the space, then steers you into the spot. You just lightly control shifting, braking and accelerating – with your hands entirely off the wheel.

Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle.

¹Available feature. ²BLIS replaces standard integrated blind spot mirrors.

Limited. Deep Impact Blue Metallic. Available equipment.

Safety or convenience, features abound.

Flex is engineered with reassuring standards like AdvanceTrac® with RSC® (Roll Stability Control™), which helps you avoid skidding and fishtailing.¹ Our Safety Canopy® System helps increase protection with side-curtain airbags that deploy to cover all 3 rows of seating. Our industry-first² inflatable 2nd-row safety belts³ help hold outboard passengers securely in place. Flex also offers convenient features that make loading, unloading and just riding that much more enjoyable, like a power liftgate,³ the ample cargo space behind the PowerFold® 3rd-row seat,³ the multipanel Vista Roof,³ the MyFord Touch® media hub³ and MyKey®, which enables parents to program a driving mode that promotes good habits for young drivers.

¹Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. ²Ford Motor Company offered the world's first automotive production vehicle with inflatable 2nd-row safety belts.

³Available feature.

Limited. Magnetic Metallic. Tuxedo Black Metallic roof. Appearance Package. Available equipment.

Flex Specifications

Standard Features

Mechanical

3.5L Ti-VCT V6 with 6-speed SelectShift® automatic transmission with shifter button activation
