CREST **LockingCall**[™]

Crest LockingCall[™] Call Cords

Locking button call cords from Crest Healthcare Supply are some of the most durable in the industry. The pendants are easy to grasp for effective activation. The sturdy, locking button will withstand countless actuations by patients, while the reparable pendant saves money over the cost of replacements. Each cord comes complete with locking button pendant, heavy duty grey cord and appropriate plug end.

- Easy to grasp large pendant
- Classic grey color for easy visibility
- Reparable design

Nurse Call | Mobile Call Unit & Specialty Call Cords

BreathCall® Air Activated Call Cords

BreathCall is for patients with little to no motor skills and is activated by simply breathing into a disposable straw and filter assembly. It has a flexible gooseneck with universal mounting clamp. The Mini BreathCall offers the same features of the standard with a more streamlined design to fit smaller areas. All BreathCalls come with a 9 ft cord, clamp and filter and straw kit. Standard BreathCalls have 36" black tubing from clamp to mouthpiece, and Mini BreathCalls have 28" white tubing.

- · Flexible conduit bends to almost any position to suit the user
- · Sturdy clamp easily attaches to headboards
- · Locking or non-locking switch closure available
- Also available with dual controls for nurse/TV or radio (11201-09D)

Crest Adapters for Arial® Systems

These adapters allow you to use high-quality Crest call cords with your Arial nurse call system. Use our single 8-pin DIN adapter and 8-pin DIN DuraCall for a quick-disconnect option. Our 1/4" adapter can be paired with 1/4" specialty call cords, or use our Y-adapter to split your station into two receptacles to facilitate a call cord and another device.

Save money over OEM call cords

Allows you to use any Crest Rauland 8-pin DIN or standard 1/4" phone plug (see pages 22-26)

Part No. 113638	Description Adapter Cable, RJ45 plug to (1) 8-pin DIN receptacle, for use with Arial system	Price 12.95
113639	Y-Adapter, RJ45 plug to (2) 8-pin DIN receptacles	24.95
113640	Adapter Cable, RJ45 plug to (1) 1/4" phone jack	12.95

Latching Station

Update your 24 VAC, 5-contact locking receptacle station to a 1/4" phone receptacle station for use with momentary call cords. Eliminates the need for locking call cords. Includes single 7 ft momentary call cord and dummy plug.

- Upgrade 1 room at a time or all at once
- Allows the use of specialized nurse call devices & bed monitors
- · Reduces the cost of replacement call cords
- · Only a fraction of the cost compared to a new system

Part No.	Description	Price
108086	Dual Patient Station (with latching circuitry) for locking button systems. (Original station must have "call placed lamp" feature)	89.95
108087	Dual Patient Station includes plug-in power supply for use in place of original stations that do not have a "call placed lamp" feature	110.95

Universal Latching Pillow Speaker Station

Replace your 24 VAC, 5-contact locking receptacle stations with this universal adapter which allows you to use a pillow speaker or call cord in the 7-pin Executone receptacle or any momentary 1/4" phone plug device in the other, eliminating the need for locking call cords. Includes a single 7 ft EconoCall momentary call cord and ¼" dummy plug.

- Upgrade 1 room at a time or all at once
- Allows the use of pillow speakers, specialized nurse call devices & more
- Reduces the cost of replacement call cords
- Only a fraction of the cost compared to a new system

Part No.	Description	Price
115009	Pillow Speaker/Nurse Call Station, with latching circuitry, for locking cord systems (Original station must have "call placed lamp" feature)	124.95

5-Contact to Momentary Latching Adapter

Converts your 5-contact locking station to a modern 2-conductor non-locking receptacle. Power supply assures that this adapter will work on all systems. Includes one 7 ft momentary button call cord and dummy plug.

- Never buy expensive, locking button cords again
- Works with any 2-conductor ¼" non-locking call devices

Part No.	Description	Price
9393BLC	Latching Adapter with two ¼" phone jacks, Crest/IBM°	132.95

Sanipull®

direct from the factory to y

Sanipull ribbon pulls replace station and overbed light pull strings and are made of 12 mm wide vinyl that is easy to disinfect. Each cord provides anti-ligature benefits by creating a weak zone every 6" that is designed to tear apart if more than 27±2 lbs of pull force is applied. Use the Direct Connect switch attachment option to also help prevent damage to overbed light switches. Sanipull is available in preassembled versions as well as bulk rolls and accessories.

Available in red or blue styles for high visibility

- Bulk styles can be cut to any desired length
- Easy to attach to strings or chains for fast retrofits

Smart[®] Economy Central Monitoring System

The Central Monitor is an economical method for providing residents with wireless call for assistance paging ability. The Central Monitor allows caregivers to see which resident is calling for assistance. The Nurse Call Buttons can be mounted to a headboard, wall or worn as necklace (lanyard included). The system alarms audibly and the display indicates which resident originated the alarm. The Central Monitor uses four size "C" batteries (not included) or AC adapter and has a signal range radius of up to 300 ft. The wireless Nurse Call Buttons use A23 12 V batteries (included). AC adapters included, other components sold separately.

- Additional pendants can be added or deleted as needed
- Great for wired nurse call system emergency backup
- Eliminates in-room noise
- Available in 40 channel or 60 channel options

Part No.	Description	Price
115638	Economy Central Monitor Unit , 40 Channel, with adapter	94.95
115627	Economy Central Monitor Unit , 60 Channel, with adapter	142.95

Back	View Contraction of the second s	Iso see landiCall for call solutions! Page 30 108712
Crest Wi	ireless Call System	

The Wireless Call System changes your existing nurse call station into a wireless station. Plug the wall unit into your current station, plug in the power supply, and give the transmitter to your resident or patient. The transmitter can be worn as either a necklace or a watchband for easy use. Our wireless nurse call system gives residents the freedom to move around the room without being restricted by cords. Great for residents who are very mobile, or for those who frequently have trouble finding or reaching their call button. Signal range is typically up to 300-500 ft.

No more clipping call cords to the resident or bed

Easy to install & use

OEM & Replacements for **TekTone**[®] **Nurse Call**

Patient Stations – OEM

Tektone[®] ABS faceplates meet UL ratings for electrostatic discharge (ESD). If your facility currently utilizes aluminum faceplates, you can retrofit your facility by replacing the current back box with a standard back box. Most stations use solid state circuits and have 21/2" speakers for clear 2-way communication.

Call-placed light

· Available in single or dual station with selection of pullcord or receptacle style

Part No.	Description	Price
IR-151B	Single Bed Station, one ¼" call cord jack, 1 call-placed and privacy indicators, cancel button, 3-gang	87.95
IR-152B	Dual Bed Station, two ¼" call cord jacks, 1 call-placed and privacy indicators, cancel button, 3-gang	119.95

TVs & Accessories | RCA® Hospital & Commercial Grade LED HDTVs

RCA® 22", 32" & 42" Hospital Grade LED HDTVs

The healthcare series of TVs from RCA incorporates needed features for the demanding patient room environment. The membrane switch keypad makes cleaning the buttons easy. These sets feature a variety of commercial features to enhance the patient room, including direct tuning access to keep patients from accessing un-programmed channels, volume limiter, and ATSC Tuning Mode to select between physical or virtual channel numbers for more head end distribution flexibility. Sets also include an ATSC/ NTSC/QAM/MPEG2 tuner, USB File Play, and energy saving features.

· Configurable 1/4" phone jack pillow speaker interface works with most pillow speakers

- USB cloning capabilities for guick duplication of TV configurations
- Bed 1/Bed 2/ Bed 3 compatibility
- Matte black finish for finger print reduction
- Remote controls sold separately

or stainless steel faceplate

Description

Convert your RCA connection to a 3.5 mm headphone plug using the audio patch cable. Add the adapter as well to change again to a 1/4" phone plug. Use both together with Crest's In-Line Audio Amplifier (114782) to connect from your TV's RCA connection.

SpeedWrap[®]

Speedwrap cable ties and rolls are a great way to organize your cables and cords to keep them out of the way to prevent tripping and falls. Speedwrap is made of self-gripping, industrial grade, back-to-back hook and loop material that is easily adjusted and reusable, unlike traditional nylon cable ties.

- Choose pre-cut strips or bulk rolls
- The super-strong yet soft material won't cut into your cords, making it a safer alternative

113637	In-Line Tapoff 24 dB isolation	4.37

"F" Connector Fitting Tools

The Cable Stripper Tool is a contractor-grade stripping tool with an adjustable blade and a built-in allen wrench. It is designed for easy, one-step cable stripping. The Hex Crimp Tool is a four-cavity tool for RG58, RG59, RG62, RG6 coaxial fittings.

Part No.	Description	Price	
105108	Cable Stripper Tool	27.59	
115574	Hex Crimp Tool for "F" Connector	44.95	

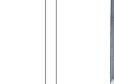

Side Facing In-Line Tapoffs

Economy Indoor/Outdoor In-Line Tapoffs feature high isolation of reflected signal to reduce unwanted images. Couplers are 5-600 MHz and maintain a constant 75 ohm impedance on trunks with tap variations (CATV guality). RF shielding exceeds FCC specifications.

- · Zinc diecast with anti-corrosion chromate finish
- 2-way system compatibility

Description Part No.

	113625	In-Line Tapoff 6 dB isolation	4.37

Distribution Amplifier

The broadband distribution amplifiers amplify Off-Air VHF, FM, and UHF signals. High output and low noise amplification at a reasonable cost. Choices and options allow for a wide range of applications.

- Switchable FM stop filter
- Continuously adjustable gain control
- Switchable combined U/V or separate U & V input

			Size: 11"W x 5"L x
Part No.	Description	Price	Power:117 VAC
113884	Distribution Amplifier, VHF/UHF/FM, 36 dB gain	116.95	

Push-Pull Distribution Amplifier

The Tru Spec 550 MHz Push-Pull Distribution Amplifier is a high quality wall-mounted distribution amplifier producing signals with extremely low-noise and harmonic distortion. This amplifier is capable of 82 channel operation over the 54-550 MHz range, and makes an excellent distribution system amplifier in MDU, CATV, and SMATV systems. Because of its extremely low-noise figure and low distortion, it is ideally suited for use in larger networks where amplifier cascading is required. Available gain of 30 dB.

- 0.5 dB flatness across band provides low distortion & excellent frequency response
- Shielded enclosure provides over 95 dB RFI shielding performance reducing leakage and ingress
- Black anodized extruded aluminum heat-sink maximizes heat dissipation for improved reliability & corrosion resistance

Part No.	Description	Price
113886	Distribution Amplifier, push-pull, 550 MHz	159.95

Help Reduce the Risk of Falls

with Crest Fall Fighter[®] Monitors & Sensor Pads

Use nurse call connection for silent alarm:

Reduce in-room noise

 Enhance peaceful & home-like environment without compromising safety

- Eliminate alarm fatigue
- Promote resident privacy & dignity

Crest Fall Fighter® Sensor Pad Monitors & Kits

Fall Fighter has the robust features you need for chair or bed applications at an affordable price. The alarm automatically resets when a patient returns to the pad or is quickly silenced with the reset button. A hinged battery cover with optional screw prevents tampering. The front LED flashes blue to indicate low battery and red to indicate active status and alarm. Durable steel mounting clip included. The Bed Monitor includes a nurse call interface jack, optional AC adapter input and remote-only volume option to silence alarm in room. Uses three AAA batteries (sold separately).

· "Always on" monitoring

113965	Timed Bed Sensor Pad, 10"W x 30"L, 1-Year, 1 pack (6/pk)	240.95

UMP® Infrared Bedside Monitor

Infrared monitors can detect movement and alert caregivers before a person is out of bed. At the bedside, if a resident's feet move to the side of the bed it interrupts the fan-shaped IR beam and alarms. Choose 85 dB chime, alarm, or remote volume option. The nurse call interface allows you to connect to your nurse call system. Uses one 9 V battery or AC adapter (both sold separately).

- Use in a door frame for wandering detection
- Optional bed bracket available

Smart[®] CordLess[®] Fall Monitor

CordLess Monitor and sensor pads use wireless technology, eliminating the need for cords and allowing you to place the monitor wherever it's most convenient – even outside the resident room. The volume can be adjusted or silenced for quiet, remote monitoring. The monitor can support two sensor pads (bed to bed, bed to floor, floor to chair, floor to floor) at once for a single patient. It also features a nurse call port for use with an existing hard-wired nurse call system, no on/off switch, auto-reset, and front reset button or Caregiver-Key only reset options. The pad-lost feature operates with a four-minute delay. Monitor runs on three AA batteries (sold separately). Antenna stabilizes signal strength.

- LED alerts caregivers if sensor pad's signal is lost
- Status light flashes every 4 seconds when in use
- Pad to monitor range is up to 30 ft, pad to central monitoring unit range is up to 100 ft
- Alarm choices include 1 tone & 2 songs

Smart® Wireless Fall Monitor

Defining features of this monitor are its ability to send a wireless signal to a Caregiver Pager (sold separately), and the monitor's ability to work with a variety of momentary call cord devices to function as a stand-alone call system. Also works as a standard fall monitor with multiple audible alarm tones, adjustable volume and low battery notification. Protective boot included. Powered by AA battery or optional AC adapter (sold separately).

Does not work with existing hard-wired nurse call systems

Invacare[®] Tracer EX2 Wheelchairs

The Invacare Tracer EX2 wheelchair sets the benchmark in manual wheelchairs. A true dual axle position allows for repositioning the 24" rear wheels and 8" front casters for standard or hemi seat-to-floor heights. The durable, low-maintenance, triple chrome-plated carbon steel frame with silver vein finish is long lasting, and 14-gauge crossbraces add additional strength and durability. The urethane rear tires are mounted on no-flex wheels for superior performance and a smooth ride. The Tracer EX2 also has many interchangeable components with the Invacare 9000 series chairs. Meets RESNA standards for manual wheelchairs in product performance. Wheelchair weight is 43 lbs.

- Dual embossed, flame-retardant upholstery resists mildew & bacteria as well as cold-crack & UV damage
- Heavy-duty inner liners keep seat & back from stretching
- Low-maintenance, dual-sealed precision bearings
- Available in 16", 18" & 20" widths

Drive[™] Silver Sport 2 Wheelchairs

The Silver Sport 2 wheelchair frame has a powder coated, silver vein finish that helps disguise marks from wear and tear. The standard dual axle frame and adjustable 3-position front casters provide easy transition of seat to hemi-level. It features a durable steel frame, urethane tires and composite wheels and hand rim. The Silver Sport 2 comes standard with embossed vinyl upholstery, padded arm rests and plastic foot plates in either swingaway footrest or elevating swing-away leg rest styles.

Carry pocket on backrest provides additional storage & convenience

- Tool-free adjustable length front riggings
- Push to lock brakes

Mobility & Transfer | Wheelchair Seating & Support Cushions

Fall Management

101-114

Convo-Gel[™] Cushions

Convo-Gel cushions are designed to relieve ischial pressure while providing patient comfort and stability. These quality cushions incorporate high density convoluted foam and a dual chamber gel bladder that prevents migration for optimum pressure relief. The Unitek[™] nylon cover is low shear and waterproof.

- Zippered cover has rear tie straps to keep cushion securely in place
- Wipes down easily for cleaning
- Medicare reimbursable code HCPCS E2603

Part No.	Description	Price
114805	Convo-Gel Cushion, 16"W x 3"H x 16"D	37.95
114806	Convo-Gel Cushion, 18"W x 3"H x 16"D	37.95
114807	Convo-Gel Cushion, 20"W x 3"H x 16"D	37.95

Gel & Foam Wedges

The rounded bottom overcomes sagging wheelchair sling seats. The wedges measure 4" in the front and slope to 2" in the back. With the special fourchambered gel pad, the gel stays where you need it to provide necessary pressure relief. The high resiliency, medium density top layer of foam combined with the waterproof cover material results in long-term comfort. The belt and buckle fasten the cushions securely to the chair.

- Proper lateral pelvic positioning
- Multi-directional stretch cover to reduce shear

Part No.	Description	Price
112673	Wedge Gel/Foam Cushion, 16"W x 16"D , round bottom	80.95
112674	Wedge Gel/Foam Cushion, 18"W x 16"D, round bottom	85.95
112675	Wedge Gel/Foam Cushion, 20"W x 16"D, round bottom	116.95

113868

Super Saver Cushions

Super Saver Cushions allow you to better maintain skin integrity for your residents, improve seating comfort and help control wound care expenses. Available in 2" and 3" heights. This medium density foam complies with California code CC117.

 Cover made of durable, washable cloth material 	
(not waterproof)	
Includes ties to secure the cushion to the wheelchair	

Part No.	Description	Price
113868	Super Saver Cushion, 18"W x 2"H x 16"D	21.95
113869	Super Saver Cushion, 18"W x 3"H x 16"D	23.95

112329

Anti-Thrust Cushions

Designed to be a restraint-free solution for those who thrust forward in their wheelchairs. The rounded, dense bottom foam overcomes the wheelchair sling seat sag to achieve better seated positioning, and the softer top foam provides for added long-term seating comfort. Comes with a belt and buckle to secure the cushion to the wheelchair.

- Multi-directional stretch cover to reduce shear
- Non-slip heavy gauge bottom fabric

Part No.	Description	Price
112329	Anti-Thrust Cushion, 18"W x 16"D	89.95
112330	Anti-Thrust Cushion, 18"W x 16"D, with gel	102.95

Wheelchair Seating & Support Cushions | Mobility & Transfer

Memory Foam Pressure-Reducing Wheelchair Backs

Provide an extra measure of comfort with Pressure Reducing Wheelchair Backs which have a 2" Memory Foam core. Waterproof, black stretchable cover can be easily wiped clean.

- 1 size fits 16" or 18" chairs
- Attach to wheelchairs using sewn in ties

Part No.	Description	Price
112282	Memory Foam Back, 16" x 16"	56.95

112302

Armrest Bolsters

Armrest Bolsters improve posture by reducing lateral leaning. The unique, snug design reduces "bolster roll" on the armrests. The "wipe-clean" nylon cover fabric virtually eliminates the problem of heat and moisture build-up which could contribute to skin breakdown. The core is constructed of a medium density foam for comfort and long life.

Sold individually

5" diameter

Part No.	Description	Price
112302	Armrest Bolster, desk length, black	30.95
112301	Armrest Bolster, full length, black	31.95

Convoluted Foam Cushions

Ideal for those who require an economical decubitus cushion. The peaks and valleys allow for greater circulation of air flow under the patient while reducing pressure.

- · Fire-retardant polyurethane convoluted foam core
- For single patient use

Part No.	Description	Price
*112717	Convoluted Foam Cushion, 18"W x 2"H x 16"D	7.18

Wheelchair Side Supports

Wheelchair Side Supports narrow the width of a wheelchair to provide better support for the smaller-framed individual. Side supports will help provide better upper body sitting support thereby improving seating posture. The core is constructed of a medium density foam for comfort and long life.

- · Fasten securely to wheelchair with ties
- Wipe-clean nylon cover reduces heat & moisture buildup
- Fits 16", 18" & 20" wheelchairs

TLC Positioning, Turning & Lifting Pad

LB WEIGHT

CAPACIT

This reusable pad with four handles is used for positioning, turning and lifting patients or residents as well as protecting bed linens or furniture against incontinence. Three layers of fabric absorb, wick and hold moisture. For use in a chair or bed.

- Launders in temperatures not to exceed 180° F
- Strong side handles allow up to 4 caregivers to position, turn & lift patient or resident

Part No.	Description	Price
115556	Positioning, Turning and Lifting Pad, 48"L x 40"W	59.95

SafetySure® Transfer Pivot Discs

SafetySure Transfer Pivot Discs are designed for use by patients who are able to stand but cannot readily move their legs. For maximum support and safety for both the patient and the helper, the additional use of transfer belts is also recommended. Made of three high-quality polymer plates, one turning on top of the other.

- · Anti-glide tapes on both sides to prevent slipping
- · Light-weight with convenient grip handle
- Rotates 360° each direction

Part No.	Description	Price
113612	SafetySure Pivot Disc, 13"	66.95
113613	SafetySure Pivot Disc, 15"	75.95

SafetySure® Transfer Board

SafetySure Transfer Board is used primarily for seated transfers by bridging the gap between two transfer points. The board's anti-slip strips enable it to remain stationery during the transfer. The board is flexible and has a slick upper side to allow the patient to slide easily.

- Made of comfortable, flexible plastic
- Won't tip up as patient moves across

Drive[™] Battery-Powered Lift

Battery Powered Patient Lift provides a safe and efficient means of transferring patients. Designed for the rigors of institution use, this lift utilizes heavy-duty steel construction without adding unneeded weight. The large 5" casters make the lift easily portable throughout the facility. The rear casters come equipped with easy to activate wheel locks to ensure added safety. Battery and charger are included. Additional batteries are available.

• Fits under low beds

- Easy to set up & disassemble
- Recommended for use with 2 & 4 point slings
- Includes one 24 V battery pack & charger
- · Safety bypass to lower patient in the event of a power failure
- Audible low battery alarm
- Slings sold separately

Part No. Description *111440 Battery-Powered Patient Lift

Drive[™] Bariatric Battery-Powered Lift

Safely transfer bariatric patients up to 600 lb with this Battery-Powered Lift. The unit's base legs adjust easily with the padded shift handle and lock securely into open position for added stability. Dual 3" heavy duty front casters allow smooth movement between transfer points. The extra wide coated swivel bar with sixpoint cradle offers 360° rotation for easy connection to slings. For safety, the jumbo actuator pump with emergency button can switch to manual mode to lower patients down slowly if necessary. The Bariatric Lift includes a removable, rechargeable battery, external charger and wall mounted bracket.

- Extra-wide swivel bar & cradle
- Manual lowering for emergencies
- Slings sold separately
- Includes battery & charger

Drive[™] Stand Assist Lift

This Stand Assist Lift provides stable assistance in standing, transferring and toileting for patients who are weight bearing on their legs. It also supports safe patient handling and good body mechanics for your staff. The lift includes four sling attachment points to accommodate a variety of sling designs and has an extra-wide, non-skid foot plate for optimum foot positioning. The padded, adjustable leg support includes a strap to keep the patient's legs close and comfortable. The 24 VDC motor provides power and reliability and features an emergency stop button and manual lowering control to ensure safety under any circumstance. The fast-charging battery has visual and audible power status and low-battery indicators.

- FREE Stand Assist Patient Sling (114871) with each lift (nylon, size large, 44"W x 16"H)
- · Includes removable rechargeable battery, charging station & wall mount bracket for charging
- · Easy roll maneuverability over a variety of surfaces
- Low 4¹/₂" under bed clearance for easy bedside use

Drive[™] Full Body Slings for Electric Lifts

Full Body Slings from Drive are constructed of durable solid or mesh material with reinforced stitching that resists deterioration from exposure to moisture and laundering. All slings are reinforced at all points for added safety, with edging that is soft yet durable. Slings are constructed with a high back section that provides additional support for the head and neck, and a padded under thigh section for comfort.

Crest HD2[™] Bed Controls

The cost-effective and durable solution

Crest HD2™ Bed Controls

Replace your old, outdated bed controls with a quality Crest HD2 replacement bed control. Low-voltage HD2 bed controls were designed to be completely sealed with universal graphics that will never flake, pull or peel off. If a repair is needed, the "plug-n-play" solderless cable is simple to replace. HD2 Bed Controls are white and feature a white, 8 ft cord with durable strain relief.

- Ultra lightweight with an ergonomic fit to the hand
- Large buttons have an audible & tactile click
- Long life mechanical switches
- Moisture resistant

Crest bed controls are designed for use on low-voltage control circuits only.

Beds & Room Supply Assist Rails

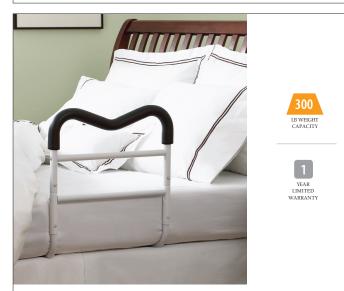

NOA® Safety Assist Bar

The Safety Assist Bar for NOA beds provides residents with stability and support when repositioning or exiting and entering the bed. The 24" tall bar features round, tubular construction for a comfortable grip. The interior bar locations eliminate gaps within the rail and offer multiple grip handles. Universal design mounts to left or right side.

- All NOA Beds are pre-drilled to accept the bolt-on attachment
- Durable construction for long-lasting performance
- Beige powder coated finish

SuperPole[™] & SuperPole with SuperBar[™]

The SuperPole is a restraint-free floor-to-ceiling grab bar support system to assist with standing, transferring or moving in bed. The 11/2" diameter steel pole installs in minutes using a jackscrew at the base that expands the pole for a solid tension fit for 93" - 99" high ceilings. Rubber pads on the ceiling and floor plates hold pole secure and prevent marring. The SuperPole with SuperBar adds an additional horizontal 16" long, height adjustable, pivoting bar that locks every 45° for additional support. Both SuperPole and SuperBar feature a comfortable and washable foam hand grip.

- Installs almost anywhere great for bedside, bath or toilet
- 5" Non-marking ribbed rubber base plate for better gripping
- Clean design with powder coat gloss white enamel

Part No.	Description	Price

Invacare® Torrington Series Room Furniture

-

-

115071

The Torrington series showcases traditional Georgian styling constructed in high-pressure laminate with wood edges on doors, drawers and tops. The drawers are vinyl wrapped for easy cleaning and have positive stop drawer guides. The ventilated, tempered back provides increased air circulation to reduce the buildup of moisture and prevent odors. Available in many styles and sizes to meet the functional and storage needs of your residents.

Oak furniture edges are available in Biltmore Cherry, Amber Cherry and Solar Oak finishes. Maple furniture edges are available in the Kensington Maple finish.

- Scalloped toe kick provides a more traditional look
- Comes standard with antique nickel door & drawer pulls

Vanilla Chablis

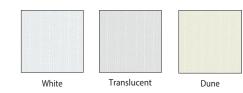

Silhouette Shower Curtains

Silhouette Shower Curtains are fire-retardant vinyl and passes NFPA #701. Embossed vinyl with a traditional plisse pattern uses Safe-T-Top[™] construction, featuring a double layer of vinyl plus an additional layer of tough nylon mesh to reinforce the top hem. Rust-proof aluminum grommets protect against rusting and tears reducing replacement costs. No bottom hem ensures proper water runoff and eliminates soap scum and residue collection that promote mildew growth. All curtains are specially treated for lifetime resistance to fungi, mold and mildew.

NEW Chateau Cubicle Curtain Panels

Chateau Cubicle Curtain Panels give you top-of-the-line fabric, mesh and finishing features with the cost and time benefits of an off the shelf product. Curtain Panels can be used to outfit any space by simply overlapping panels by one curtain hook, reducing your overall inventory investment. Each 72" wide panel includes 20" white mesh. Using Curtain Panels also saves time, money and trouble by allowing you to take down, launder or replace a single panel at a time.

- Chateau fabric integrates well into any decor & will sustain multiple washings
- Engineered to withstand the abuses of institutional use
- Machine washable up to 160°F
- Choose from 84" or 96" high panels
- Meets NFPA 701 requirements

Note: Curtains that have been opened are non-returnable for infection control reasons. Panels feature a 72" cut width. The finished width will always be narrower. Your estimated finished width should be the length of your track plus 15%.

For accurate color matching please contact our Customer Relations team for fabric samples.

Cubicle Curtain

Panels Needed:

2

3

How To Replace Room Curtains with Cubicle Curtain Panels:

Step 1: Select 84" or 96" height

Step 2: Measure the width of your space in inches, add 15%, and divide by 72 to determine how many panels you need. (Round up to the nearest whole number to ensure coverage.)

Beds & Room Supply | Examination & Arm Lamps

Universal Flexarm Lamps

Can be mounted on practically any surface, in any position to provide brilliant light where needed. Shade stays cool because of the air space between the inner reflector and the outer shade. Recessed toggle switch also stays cool and lasts longer because of the unique extruded heat sink that convects heat away from the socket. Lamp comes with coupler base and mounting hardware kit for use in beds having IV holes or beds with metal or wood panel headboards. Also available in smaller 40 W version for areas where a smaller, less-powerful lamp is required. All flexarm lamps come with a 6-foot grounded cord. (Bulbs not included.)

· Heavy-duty 24" flexarm bends to any position & is vinyl-covered for easy cleaning

Tough Lexan[®] shade withstands impact & abuse

Clamp-On Tub Rail

The Clamp-On Tub Rail provides a secure hand position when entering or exiting a tub. The durable, white powder-coated steel construction is attractive and easy-to-clean while the stainless steel locking mechanism and non-wearing rubber pads provide scratch-proof security. Rail fits 3"-7" tub walls.

- Tool-free installation
- · Not for use with fiberglass or claw foot tubs
- Non-wearing rubber pads to prevent scratching

.

Easy Mount Grab Bars Easy Mount Grab Bars provide support and flexible mounting options. Unlike three-hole flanges that limit screw placement, the nine-hole flange design offers greater mounting flexibility to structural studs allowing you to achieve desired angles and placement. Stainless steel construction ensures these grab bars will never rust. Choose from knurled stainless finish or smooth white powder coated finish for an attractive, lessinstitutional look. All styles are 1^¼" in diameter and include screws for installation into wooden studs.

- Included flange covers conceal the screws for a seamless look
- · Multiple lengths to fit your needs (measured from the center of flange plates)
- Provides 11/2" of distance between the rail & the wall

101-114

The P.T. Rail is a white wall mounted support rail which promotes safe standing and transfers to and from a toilet. Smooth "fluid feel" hinge holds its position wherever you leave it - even halfway up. It will not inadvertently fall down causing impact injuries. The optional P.T. Rail Floor Mast is a floor mounted column to which the P.T. Rail wall plate (both hinged and fixed models) can be mounted. The Floor Mast option is available when mounting into the wall behind the toilet is not possible. Floor Mast height is 39" and the P.T. Rail height mounted on the floor mast can be set between 32" and 36" from floor.

- Safe, out of the way storage on hinged models
- Unique offset rail design prevents wrist strain when using lower rail

Part No.	Description	Price

Advantage Rail™

The Advantage Rail is a floor-mounted support rail which promotes safe and independent standing and transfers. The horizontal rail pivots to move with you in safe, small steps providing moving support similar to a walker. Has heavy-duty all steel construction with durable enamel finish. Horizontal bar is 17" long with premium grey grip and has five height range settings between 30"- 38". There are eight locking positions at 45 degrees. Push down to lock the bar and lift ¼" to unlock. The floor plate has a six-hole screw pattern (6 x $\frac{3}{4}$ " holes on 6 $\frac{3}{4}$ " diameter) and two holes at 16" spacing.

- Locking feature provides stability while pulling laterally for transfers
 - Wide support zone for increased stability & multi-step transfers
- Adjustable height to accommodate specific needs

Crest Provides Monitoring Equipment

From the Manufacturers You Trust

Monitoring the health of patients or residents and delivering appropriate treatments is a process that requires accuracy and attention to detail. It's important to start with the right monitoring equipment in order to provide the proper treatments and achieve optimal patient outcomes. Let Crest help you find equipment to meet your patient and resident needs in the following areas:

- Scales fit a wide range of users & applications
- Pulse oximeters, stethoscopes, sphygs & thermometers are clinical monitoring necessities
- Regulators, concentrators & other accessories provide oxygen therapy alternatives for any need

Linen & Distribution Carts

Carts & Storage

Carts & Storage | Hampers & Hamper Bags

Single, Double & Triple Hampers

User-friendly mesh bags with zipper front opening eliminate lifting heavy loads over the top of hamper. Lid is constructed of durable high impact plastic (lid swings completely down and away from loads). Sonically welded bags have an elastic flip top that is supported by the wire frame inside the hamper. Material meets NFPA701 flame retardant standard and bag meets OSHA regulations. Rot and mildew resistant.

- Deluxe heavy-duty reinforced threaded stem casters (3" x 1.25")
- · Optional leakproof liners are washable & durable, improving infection control
- Floor plate will support retainer bag

Crest Provides Reliable Maintenance Products

to Help Keep Your Facility Running Smoothly

A healthcare facility is a difficult environment to maintain. There are many complex systems and pieces of equipment running under one roof and many different people making use of them every day. This type of 24-hour use can take a toll and cause things to break down. The Maintenance staff plays a critical role in the healthcare process by handling these issues promptly and accurately to make an environment suitable for patient care possible.

- Wall protection supplies & handrails prevent facility damage
- Signage provides way-finding & facility information
- Electrical components & equipment are key for facility maintenance
- Wandering systems ensure patient & resident safety

Smart[®] DepartAlert[™] Anti-Wandering Door Watch System

The DepartAlert Anti-Wandering Single or Double Door Alarm System functions with three easy-to-use components: a door monitor, a resident wristband, and a caregiver key. This is all that is needed to effectively monitor any exit doors or other crucial doorways in a facility. Activation is as simple as hanging the door monitor bar on the wall using the included double stick mounting adhesive and plugging it into an AC outlet. If a resident wearing a wristband attempts to depart through a monitored doorway, the door monitor will alarm visually and audibly. Silence the alarm with a caregiver key and system is reactivated. Other alarm reset options are available including reset buttons and wireless keypads. The system can also be expanded using the optional Central Monitor to get real time information on multiple doors all at a central location such as a nurse station.

- 3 easy steps for installation
- Ideal for any size facility
- Simple for all staff members to operate
- Can be expanded to work with a Central Monitor

This delayed egress magnetic door lock can be used on perimeter exit doors and internal fire doors to block unauthorized exit and entry while providing a safe means of escape during a fire or other emergency. When someone attempts to exit through a protected door, an alarm will sound to alert staff before the door unlocks. The "nuisance cycle" requires constant pressure on the door between 0-3 seconds to activate the "egress cycle." Once SPECIFICATIONS

the "egress cycle" is activated, the door remains locked for 15-30 seconds, giving staff time to respond to the unauthorized exit or, if during a fire or other emergency, unlocks to allow life saving egress

unauthoriz	zed exit or, if during a fire of other emergency, unlocks to allow life s	aving earess.

Electromagnetic Door Holders

Silent operation

• 120 VAC & 24 VAC/DC

Mounting hardware is included

• Brushed zinc finish on housing

Ruggedly constructed and attractively designed two-part assembly with brushed zinc housing. Perfect for use with stairwell doors, room doors, exit doors or wherever instant closing of a door is necessary for safety or convenience. Can be configured to close any number of doors at the same time (additional hardware is required). Can be operated in conjunction with automatic fire alarm or sprinkler system, or with manual control. Wall units are available in flush or surface mounted versions. Swivel contact plate adjusts to any door angle using a nylon shock absorbing swivel ball.

Kidde Economy Smoke Detector

Battery powered ionization unit offers the maximum protection in a compact design. Twist-off mounting bracket for quick installation and battery replacement. Includes one 9 V battery, mounting screws, test button, low battery indicator chirp and flashing red light to indicate power.

- Loud 85 dB horn for safety
- Ionization chamber responds fast to lowsmoke flaming fires

Part No.	Description	Price
114608	Economy Smoke Detector	12.95

Self-Diagnostic Photoelectric Smoke Detector

This unit features a replaceable optical chamber, diagnostic LED, sounder, heat detector, built-in power supervision relay and a design to reduce nuisance alarms caused by dust, RF interference and ambient light. Mounts on single-gang box, 3" round or 4" octagonal boxes. 4-wire, 12 or 24 V.

Part No.	Description	Price
115430	Self-Diagnostic Photoelectric Smoke Detector	82.95

Heat Detector connects easily to most commercial fire alarm systems. For use in areas where property protection is required such as boiler rooms, kitchens, medicine or linen storage areas. Rate-of-rise models respond to a temperature increase of 15° F/minute, sensing flash fires even before the 135° or 194° fixed temperature is reached.

- Rate-of-rise feature is automatically self-restoring
- Not for use where life safety is a factor

Part No.	Description	Price
283B	Heat Detector, fixed temp, 135° F	12.95
284B	Heat Detector, fixed temp, 194° F	13.95

710CS Smoke Detector for the Hearing-Impaired

710CS is a smoke detector for the hearingimpaired. The Gentex 710CS is a 120 VAC photoelectric single station smoke detector designed to provide reliable early warning of smoke where both audible and visual alarms are required. Operates on the "light scatter" principle, utilizing a pulsing LED light source and a photodiode sensor in a fully screened sensing chamber. Smoke entering the chamber deflects the infrared beam and triggers the alarm. During the alarm period, the strobe will flash at a brightness of 120 candela, 60 times per minute. Complies with Title 19 of the California Administrative Code.

- 90 dB piezo signal
- 5 to 1 signal-to-noise ratio
- Nominal 2½% sensitivity
- Convenient test switch
- High-intensity strobe light with red "FIRE" lettering

Part No.	Description	Price
710CS-C	Smoke Detector for the hearing impaired	124.95

First Alert[®] Carbon Monoxide Alarm

The CO Alarm features a digital display that lights up for easy readings. Electrochemical CO sensing allows greater temperature and humidity variations for accurate detection. Peak Level Memory stores and displays the highest CO level detected. Detector will alarm at 70, 150 and 400 PPM, and can be tested using the front test button or remotely using most standard IR remote controls. The unit plugs directly into a standard non-switched outlet, or use the 7 ft line cord for multiple placement options. Two AA batteries (included) provide battery backup and can be changed without unplugging the monitor.

- Low battery warning
- Operates at 120 VAC, 60 Hz
- Alarms at 85 dB from 10'

	Part No.	Description	Price
;	114485	Carbon Monoxide Alarm with battery backup	54.95

Combined Smoke/Heat Detector

This photoelectric smoke detector with heat sensor is available in a 2-wire or 4-wire unit. Easy to install, with a plug-in design, the large wire entry port and in-line terminals provide ample room for neatly routing wiring inside the base. Base accommodates a variety of back box mounting methods as well as direct mounting with drywall anchors.

- Built-in remote maintenance signaling
- Drift compensation & smoothing algorithms
- Simplified sensitivity measurement
- Wide-angle, dual-color LED indication
- Loop testing via EZ Walk feature

Part No.	Description	Price

115218	Ground Fault Indicator and Circuit Tester	15.95	

Receptacle Tension Tester

Provides a simple way to check the spring contact tension of a standard straight blade receptacle. Designed to test outlets with the following ratings: 15 A, 125 V, two pole, three wire; 20 A,125 V, two pole, three wire. Completely insulated in an impact-resistant plastic housing and is safe to use on energized receptacles. Each blade has an independent spring to relieve stress and assure consistent readings over a long life. When tension falls below 10 oz, monitor the receptacle closely for further deterioration. Tension of 4 oz is the lowest point which a receptacle should be allowed to remain in service. NFPA Standard 99-1996.

Step 1: Select a sign style.

Choose from Contemporary, Marquis and Contour. All sign styles are manufactured exactly the same; the only difference is their unique shapes and accents. Each sign features a durable, scratch and chemical resistant sign face.

Step 2: Determine what sign type you need.

Our signage products are listed by sign type to help easily locate the type of sign needed.

Step 3: Select a sign color.

All signs ship with white lettering unless otherwise noted. For the sign background color, see the color chart below. Custom ordered signs are non-returnable and non-cancelable, please request sample color chips prior to placing your order.

Step 4: Phone, fax or mail your order.

See the back of the catalog for our order form. Please complete the listed information. For each sign ordered, remember to include product number, quantity, sign message and color.

ENVIRONMENTAL

SERVICES

Contemporary Style

See Page 254. Features a low profile; projects less than 3/8" from the wall, with radius corners and a white accent line.

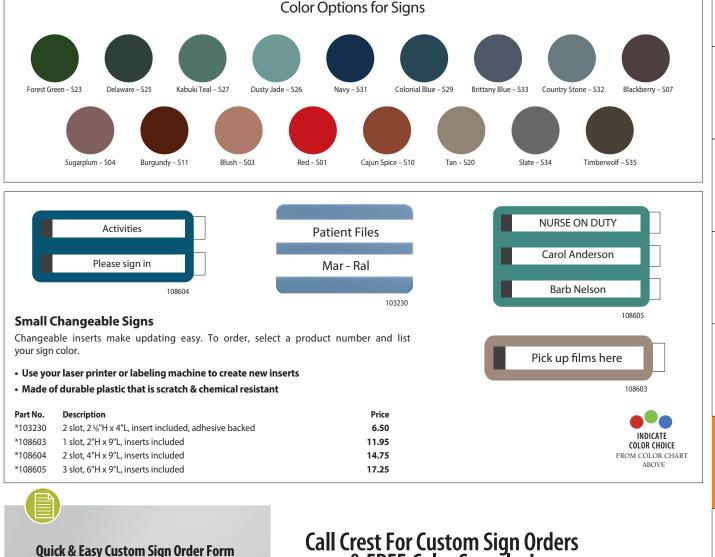

Marquis Style

Wall Guards offer impact protection from everyday abuse in high traffic areas. High-impact embossed rigid vinyl guards completely cover continuous aluminum retainers, and matching end caps and outside corners of injection-molded thermoplastic give a finished appearance.

3" Wall Guard is usually installed at wainscot height or at top of cove base height and protects wall from wheelchairs, carts and furniture. Install flush or extended from wall (see diagram below).

The 6" Wall Guard is a popular choice for a mid-sized wall guard.

Wider 7³/₄" Wall Guard is ideal for protecting walls against equipment of varying height.

- · Fasteners & end caps sold separately
- · Costs less than wood or metal products
- · Fast easy installation with screws or adhesive
- · Prolongs life of expensive wall coverings & finishes
- · Maintenance-free, easy to clean, chemical & stain resistant

Rapid Response Program for Select Wall Protection & Handrail Products

The Rapid Response program is designed to ensure our most popular products in the most popular colors are shipped out within four business days of when the order was placed, or the freight on the order is free. (Orders cannot exceed more than 50 pieces and must be for standard sizes. Rapid Response items must be a separate order from items that do not qualify as Rapid Response items, and you must state when ordering that you want it to be placed as a Rapid Response order). The "Wall Protection and Handrail Color Options" shown are all Rapid Response colors. Not all Wall Protection and Handrail products are eligible for the Rapid Response Program. Look for the Rapid Response icon to determine eligible items or contact Crest Customer Relations for assistance.

Shock Absorbing Corner Guards

Surface-Mounted Shock Absorbing Corner Guards are specifically designed to meet the most demanding impact situations. Extruded aluminum retainers inside absorb the shock and reduce transmission of impact to wall. Matching end caps available. Choice of two sizes - 3" x 3" for maximum structural protection or 2" x 2" for short return corners. Please specify color number.

· Available in 4' & 8' lengths

Fasteners not included

Part No.	Description	Price
*107323	3" x 3" x 4'L 90° Corner Guard (Top Caps included)	23.95
*100379	3" x 3" x 8'L 90° Corner Guard (Top Caps included)	44.95
*100393	Top Cap for 3" 90° Corner Guard	1.50
*107324	2" x 2" x 4'L 90° Corner Guard (Top Caps included)	17.95
*100387	2" x 2" x 8'L 90° Corner Guard (Top Caps included)	32.95
*100397	Top Cap for 2" 90° Corner Guard	1.50

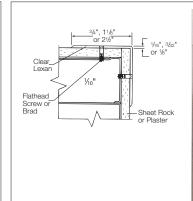

Surface Mounted Corner Guards

Surface-Mounted Corner Guards are constructed of high-impact, rigid, embossed acrylic vinyl which provides good corner protection – 25⁴/₅ ft/lb per sq in. Easy to install with counter-sunk screws, liquid adhesive or double-faced tape. Easy to maintain — just wipe clean. Available in decorator colors matching our other wall protection systems.

- All are 90° angles
- Fasteners not included
- Comes in drilled or undrilled models

Crest's Repair Services

Expert & Economical Repairs for a Wide Range of Healthcare Products.

It's Easy to Use the Crest Repair Service:

- 1) Contact Crest Customer Relations at 1-800-328-8908 to request a repair authorization (RA) number.
- 2) Gather the following information or complete the form to the right and include it with the product sent in for repair.
 - Contact name & phone number
 - Return address (street address, not PO box)
 - RA number received from Crest
 - Explanation of issue needing repair
 - · Special instructions, if any
- 3) Select method of return shipping. Ground averages 4-5 days in each direction, or choose 1, 2 or 3 day shipping.
- 4) Write your assigned RA number on outside of shipping box.
- 5) Ship to: **Crest Healthcare Supply 195 Third Street South** Dassel, MN 55325

phone: 1-800-328-8908

Send products by your choice of carrier. Crest does not issue call tags for repairs.

Do you have any additional questions? Call 1-800-328-8908 to speak with one of our Customer Relations Representatives.

Note: Return Authorization Number is needed before sending in your repair. Failure to obtain RA number may result in a processing delay.

Crest makes every effort to effectively and efficiently repair products sent to us by customers. Your products will be inspected, cleaned, repaired and tested before being returned to you. Products with biomedical contamination cannot be repaired for the safety of our employees and will be disposed of properly. See pages 268-269 for list of products eligible for repair.

Repairs & Services | Crest Repairs

Nurse Call 4-82

Crest's Repairs Department can fix a variety of healthcare products. While nurse call components are our specialty, we can repair many healthcare products. The products and pricing listed below are items we commonly repair. Please contact Crest's Customer Relations team to inquire about repairing other products.

Reparable Products & Fees

A \$15.00 minimum service charge applies to any item sent in for repair estimates or deemed unreparable. Reparable products will be charged as listed below. The service charge includes inspection, cleaning and testing to ensure your product is returned to you in the best condition possible.

Products may be deemed unrepairable due to age, condition or cost of replacement parts. Whenever possible, Crest will recommend a direct substitute and will waive the \$15.00 minimum service charge if replacements are purchased.

Stations

Crest can repair Original Equipment analog stations sometimes, call for more information. Crest has the ability to repair all Crest replacement stations found on pages 53-81. Replacement stations are notated by the following logo.

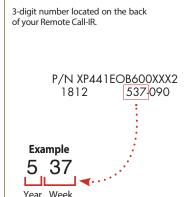

Date Codes

If you are calling about a Pillow Speaker repair, please have your date code ready. Reference the figures below to see where the date code is shown on your device.

5

Crest Pillow Speaker Date Code

Your Authorized Dukane® Repair Service Provider

Crest is the authorized repair service provider for Legacy Dukane® products, such as the ProCare 2000, ProCare 6000 and StaffCall Pro systems. Occasionally ProCare 1000 products can also be repaired, but part availability is limited. Please note, while Crest completes the repair of these products, they are processed through Ascom®. Please contact Ascom at 1-800-385-2639 to submit your Dukane repairs.

DUKAA

Crest manufactured Dukane station repairs can be processed directly through Crest by following the process on page 267. Crest manufactured Dukane stations have a "C" at the end of the part number and are marked with the "Crest Replacement Station" logo in this catalog. Part numbers can be found on the back of each station.

Below you will find examples of commonly repaired Dukane products.

Crest Healthcare Supply strives to provide customers with unparalleled service and support. Our team of knowledgeable and responsive Customer Service Representatives are consistently rated as outstanding on customer feedback surveys. We are here to make your experience with Crest exceptional!

How are we doing?

Please share your feedback regarding our service and products. We want to hear your compliments and complaints! It helps us grow and improve.

Promotional Delivery

Ordering products from Crest Healthcare Supply is considered consent to receive future promotions, unless you tell us otherwise. Call Crest Customer Relations to update your promotional preferences to ensure we are communicating in accordance with your preferences.

Preferred Contact Method:

Crest Technical Support

Repairs & Services

Warranties & Returns

Crest offers high-quality products to support customer demands with both manufactured and distributed products. We work with suppliers that provide us with guality components and finished products. Products are often tested to ETL and UL standards; these certifications are noted near individual products within this catalog. When a product doesn't function to your standards, we want to hear from you and make it right! We can check to see if your product is within its warranty timeframe and repair or replace your item. If it is outside the warranty we can help you find a replacement or repair your item in our Crest Repairs Department - see more information on pages 267-269.

Return Policy

If you order the wrong item or are dissatisfied with your purchase, please call for a Return Authorization number (RA). We want to make it right! Return the item along with a copy of your invoice within 30 days from the date of invoice. We will replace the item or issue credit to your account.

Things to keep in mind:

- All items must be in original packaging and in sellable condition or restocking fees may apply.
- All items returned after 30 days from date of invoice will be subject to a restocking fee.

Used to show Crest Replacements.

Indicates where discounts apply for

Used to show warranty information. Different colors represent different

Hospital Grade version of products.

- Returns after 90 days are not normally accepted.
- Personal use items are not returnable if removed from their original packaging.
- Custom-made products are not returnable.
- Nolume purchases and items built to order are subject to restocking fees unless found to be defective.
- Items with an asterisk (*) are shipped directly from our vendors. Returns may be subject to our vendor's return policy and may incur a restocking fee.
- Purchaser is responsible for all freight charges unless an item was shipped in error or is found to be defective within 30 days from date of invoice.

Warranty Icon

Watch for these icons within the Crest catalog. They will state the warranty included with the product. Crest Manufactured products listed without an icon have a 1 year warranty.

Crest warrants that all products manufactured by Crest which do not otherwise have a stated warranty period shall be free from defects in material and workmanship for a period of one (1) year from the date of shipment of the products. All television receivers are sold "as is" and no warranty shall apply. All products manufactured by a third party and distributed by Crest are sold to you "as is" and are subject only to the warranties provided by the manufacturer. Any warranty granted in this agreement is for the exclusive benefit of you and shall not accrue to the benefit of any third party. Crest makes no warranties as to the products except as described herein and expressly disclaims all other warranties whether expressed, implied or statutory, including the warranties of merchantability and fitness for a particular purpose, non-infringement, or warranties arising from the course of dealing or usage of trade.

The warranties set forth above are also subject to the following provisions:

- 1. The warranties are void and do not cover any products that have been altered, tampered with, abused, misused, or used for purposes other than for the use intended by Crest.
- 2. You are responsible for costs incurred to return products to Crest or a third party manufacturer for warranty claims. Products repaired by Crest will be returned to you postage paid.
- 3. A minimum cleaning charge may apply to certain products.
- 4. Repaired or replaced products will be covered for the balance of the original warranty period, if any.

To make a claim under this warranty, simply obtain a Return Authorization Number from the Crest Customer Relations Department at: 1-800-328-8908 or customerservice@cresthealthcare.com. Return the unit prepaid to Crest Healthcare Supply at 195 Third Street South, Dassel, MN 55325-0727.

CREST

Policies

Delivery Policy

Crest Healthcare Supply utilizes FedEx Ground or Air, UPS Ground or Air and common carrier to ensure your products arrive on time. You may choose from the following options:

Service	Standard Delivery Timeframe
Standard Ground Service	7-10 business days from receipt of order
3-Day Air	3 business days from receipt of order
2-Day Air	2 business days from receipt of order
1-Day Air	1 business day from receipt of order

All orders must be received by 2:00 p.m. CST to ship same day (1:00 p.m. CST if submitting an order through www.cresthealthcare.com).

1-Day Air Saturday Delivery is only available in certain areas. Call our Customer Relations Department for availability. Shipments to AK, HI and PR must use 1 or 2-day air delivery. Please add an additional 1-2 days for delivery, and call to obtain a cost estimate. Items marked with the "Truck Ship" logo cannot be shipped via common carrier. Please call to verify your facility's receiving capabilities to ensure on-time delivery.

Shipping Locations

All products are shipped from Crest Healthcare Supply headquarters in Dassel, Minnesota unless noted with an asterisk (*). Allow additional time for delivery of most (*) items.

Freight Policy

All freight is free on board (F.O.B.) origin with freight handling charges prepaid and added to the invoice. Large items shipped via common carrier (Truck) are noted with the following symbol — . It is recommended that the purchaser call Crest for a freight quote prior to placing an order for these items. Freight included offers apply to the continental U.S. only.

Order Expediting

Crest will attempt to expedite all orders being shipped by air delivery. Crest will also attempt to ship products by ground within 24 hours of receipt of your order. You will be advised if a product you order is out of stock or has an extended lead time by our Customer Relations Department.

Pricing & Information Policy

All listed prices and products in this catalog are subject to change without notice. Crest Healthcare Supply makes every effort to ensure the accuracy of listed prices, product photography and specifications. Crest is not responsible for photographical or typographical errors.

Customer is responsible for any additional taxes or fees associated with international orders.

Privacy

Crest Healthcare Supply protects the privacy of our customers and will never sell your contact information to a third party.

CREST 273

Curtain Order Form

Crest Custom Cubicle Curtain Order Form

Please fill out the attached form and fax to Crest Customer Relations at **1-800-369-9207** or email to **customerservice@cresthealthcare.com.** Crest will create a quote for your custom product and contact you back as quickly as possible.

PRIVACY CURTAIN ORDERING TIPS:

- 1. You may wish to add 12 15% to your width measurement for fullness in the curtain.
- 2. Remember that track and carriers generally add 2" of height difference and most curtains should stop about 1 ft. above the floor to avoid dragging or tripping hazards. You can account for this by taking your ceiling height and subtracting 14" to find your desired curtain height.
- 3. Please note that custom curtains are not cancellable and non-returnable. Please ensure accuracy when placing your order.

Crest Healthcare Supply[®]

Proudly partners with the following organizations to offer you value-added pricing on quality healthcare products. Crest also partners with additional groups not listed. Call Crest for details.

Update Your Information

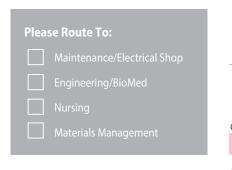

We want to be as efficient as possible and don't want to bother you with extra mailings. Help us do that by letting us know if you are receiving duplicative catalogs or we are sending them to the wrong person. Also, if there is someone at your facility that should have a catalog but we missed them, let us know and we'll get a catalog in the mail. Contact Crest Healthcare Supply in one of the following ways and we'll take care of it!

Phone: 1-800-328-8908 Fax: 1-800-369-9207 Email: customerservice@cresthealthcare.com Mail: PO Box 727, Dassel, MN 55325

Every year we work to make the catalog as effective and efficient as possible for both our customers and the environment.

P.O. Box 727, 195 Third Street South Dassel, Minnesota 55325-0727
