The Human Body: Concepts of Anatomy and Physiology, 3rd Edition

B. Wingerd

Bruce Wingerd's **The Human Body: Concepts of Anatomy and Physiology** helps encourage learning through concept building, and is truly written with the student in mind. Learning Concepts divide each chapter into easily absorbed sub-units of information, making learning more achievable. Since students in a one-semester course may have little experience with biological and chemical concepts, giving them tools such as the “big picture”, “concept check” questions, and a “concept block study sheet” at the end of each chapter help them relate complex ideas to simple everyday events.

Lippincott NCLEX-RN PassPoint

Increase student
pass rates on the
NCLEX®.

Prepare your students for the
NCLEX® and successful nursing
careers.

Lippincott NCLEX-RN PassPoint | Powered by PrepU is a multifaceted learning resource, rich with unique tools and features and designed to help your students succeed on the NCLEX-RN and make a smooth transition from the classroom to real-world practice settings.

Lippincott PassPoint is the only solution available today that provides students the opportunity to take both practice quizzes and to simulate the NCLEX. Both are adaptive. That is, they have the ability to customize students' pathways through the curriculum and to provide a more personalized, technology-enabled, and data-driven approach to learning.

The NCLEX pass rate for students who use PrepU is 98.7% (national average is 87.89%).* *Lippincott PassPoint* combines the power of *PrepU* with trusted content from clinical resources currently used by thousands of nurses in hundreds of health care facilities nationwide, along with ongoing access to and data from a unique NCLEX-simulating tool.

An Investigation of Student Use of PrepU and NCLEX Success, Julia C. Phelan, Ph.D.

Lippincott PassPoint | Powered by *PrepU* features:

- **Practice quizzes that adapt to each student's knowledge level.** Each set of quiz questions becomes more difficult as the student masters each nursing topic, concept, or NCLEX Client Needs category. This adaptive functionality helps students focus their preparation, prioritize study time, and build test-taking confidence.
- **Practice exams that simulate the comprehensive NCLEX. Just like the NCLEX, *Lippincott PassPoint's* comprehensive Practice Exams adapt question by question.** As students quiz, each question adapts in difficulty—higher or lower—depending on whether they answer that question correctly or not.
- **Remediation to evidence-based content.** Answer keys within *Lippincott PassPoint* remediate to evidence-based, point-of-care content at the moment students don't understand something.
- **Superior content and feedback.** This dynamic solution offers more NCLEX-style questions than any other system and provides instant detailed feedback that explains why answers are correct or incorrect.

"No comparison. [*PassPoint* is the] best product I have used."

—Susan Snellgrove, PhD, APN, Arkansas State University
