COAST™

LIGHTS • KNIVES • MULTI-TOOLS

INSPECTION BEAM POCKET LIGHT INSPECTION BEAM - 72 FT BEAM - 1 X AAA

Only
£9.95
+ VAT

Part No.: COA20910A

INSPECTION BEAM

The Inspection Beam produces an incredibly clear and consistent beam from edge to edge making up close work or activities easier. Found on a variety of our penlights, the beam is capable of illuminating a defined area up to 30 feet (9 meters).

The G9 Flashlight features our Inspection Beam Optic that gives users a perfectly circular beam that has little glare, making optimal for up close work. Due to its small size and weight, it is an excellent choice for an everyday carry item. The light also possesses the versatility of a two-way clip, which allows for users to clip to a pocket or a bill of a hat. Built for ease of use, the light is activated by just twisting the end cap.

With Coast's commitment to quality, the G9 Flashlight is impact resistant, weather resistant and its LED is virtually unbreakable. The G9 Flashlight is backed by Coast's lifetime warranty against defects in materials and workmanship.

RECHARGEABLE LONG DISTANCE FOCUSING - 300 LUMENS - 1154 FT BEAM - LI-ION PACK OR 4 X AAA

Only
£59.95
+ VAT

Part No.: COAHP7R

LONG RANGE FOCUSING OPTICS

The Long Range Focusing Optic gives you the ability to easily illuminate and scan nearby distances with a crisp edge-to-edge Broad View Flood Beam or then focus it down to the X-Range Spot Beam that stretches extremely far. The X-Range Spot Beam can provide good viewing all the way up to 2240 feet (683 meters) and the Broad View Flood Beam provides a consistent circle of light up to 7 1/2 feet (2.3 meters) in diameter at a distance of 6 feet (1.8 meters).

The HP7R Flashlight is the ultimate light for any law enforcement official or serious professional by combining our Long Range Optic System with slide focus and a lightweight aluminum body. With our Flex Charge Dual Power system, this light harnesses either lithium or alkaline power and using a micro USB, you can recharge the batteries either in or out of the light. With high, strobe and low modes with the slide focus, this light is immediately adaptable to a variety of situations.

With Coast's commitment to quality, the HP7R Flashlight is impact resistant, weather resistant and its LED is virtually unbreakable. The HP7R Flashlight is backed by Coast's 5 year warranty against defects in materials and workmanship.

PURE BEAM FOCUSING 410 LUMENS - 751 FT BEAM - 4 X AAA

Only
£39.95
+ VAT

Part No.: COAHP7RPLUS

PURE BEAM FOCUSING OPTICS

The Pure Beam Focusing Optic combines our largest Ultra View Flood Beam with the Bulls-Eye Spot Beam making either up close or downrange illumination highly effective. While using the Ultra View Flood Beam, there is a consistent circle of light up to 11.5 feet (3.5 meters) in diameter at 6 feet (1.8 meters) in distance. While on the Bulls-Eye Spot Beam, you can illuminate up to 767 feet (234 meters) downrange with a transition halo around the spot to increase the effective viewing area.

A perfect mix of size, form, and performance, the HP7 Flashlight is rightfully one of our most popular handheld lights. It combines our Pure Beam Focusing System with Slide Focus with high, medium, and low output modes to illuminate with either a super wide flood beam or spot mode with transition halo at varying distances and brightness all controllable with one hand. It's anti-roll tailcap allows you to set it on uneven surfaces without rolling off and it even allows you to stand the light up on its cap for vertical lighting situations.

With Coast's commitment to quality, the HP7 Flashlight is impact resistant, weather resistant and its LED is virtually unbreakable. The HP7 Flashlight is backed by Coast's 5 year warranty against defects in materials and workmanship.

WABCO

S A F E T Y D R I V E S U S

We are delighted to announce we are now distributors for Knorr-Bremse. They will sit along our existing accounts with Haldex and Wabco and it means that Truckstop is the number one choice for air brake components. With our expanding stock, knowledgeable staff, three branches and same day delivery trust Truckstop as your air brake specialist.

NEW! Wheel Nut Cover Reflector Indicator

Reflector Indicator

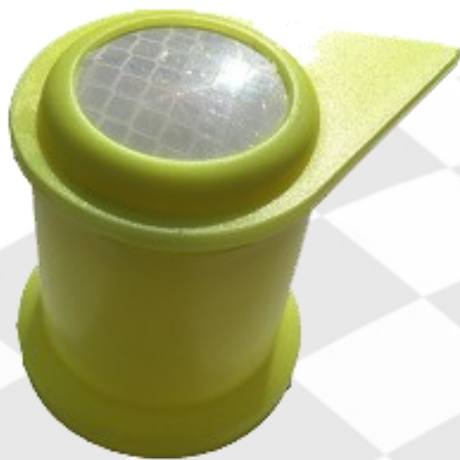

The reflector indicator is aiming for more safety in traffic, specifically for the traffic in the blind spot area of busses and trucks.

The reflector is part of the cover which also functions as a wheel nut loosening indicator

Retro-reflection material is used on the top of the cap to reflect the light towards other road users

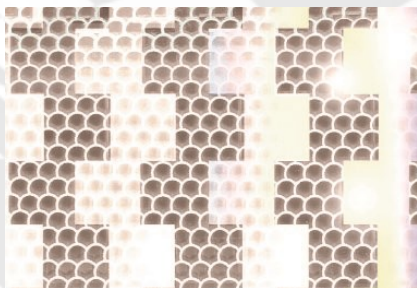

When the steering axle wheels of the vehicle start to turn, the light from the cover reflects and then allows other road users to act quickly.

Available in nut size 32mm and 33mm

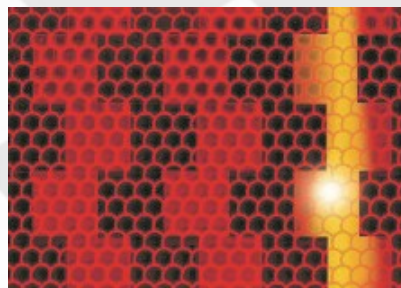

Conspicuity Tape

From July 2011, all newly registered HGVs over 7.5 tonnes and trailers over 3.5 tonnes must have reflective conspicuity markings that clearly outline the rear and sides of the vehicle to make it visible for up to 1000 metres at night. ECE104 specifies the standard for the reflective materials used, and where and how it must be positioned on the vehicle or trailer.
