U.K. Flatware Brand Heads to the U.S. Market

Typhoon Housewares will preview the Viners line at Atlanta Market next month

July 5, 2017, Andrea Lillo

Several Viners products

NEW YORK—Typhoon Housewares, the U.S. division of U.K.-based Rayware Group, will bring over another U.K. brand from across the pond: Viners, a flatware and cutlery brand that began in the early 1900s.

Viners "is bridal, it's aspirational," said Ryan Murphy, business development manager, [Typhoon Housewares](#). "It fits into the brand." Viners will be the fifth Rayware brand to be available in the U.S. market; the others are Typhoon, Mason Cash, Kilner, and Price and Kensington. Typhoon Housewares will preview the line at the Atlanta International Gift & Home Furnishings Market later this month.

Typhoon Housewares had to tweak the Viners lines, as Americans like a larger teaspoon, Murphy said, as well as an additional salad fork, requiring a 20-piece flatware set instead of 16 pieces. Made of 18/10 stainless steel, the flatware comes with a 15-year guarantee, he said. The full-tang cutlery is made of German steel and has a handle that is polished to look like wood. It has a 25-year guarantee.

Typhoon is experiencing a period of growth, he said. "We're expanding our assortments, our brands, maybe even our showrooms." Typhoon Housewares wants to be as strong in the U.S. as it is in the U.K., Murphy said.

In addition, Kilner's create-and-make products—such as the spiralizer jar, the coffee grinder and the grater—"are hot, hot, hot" right now for Typhoon, he added.
