MERATRIM[®]

**futurebiotics**
health. nature. life.

Supports Weight Management* Now Available from Futurebiotics[®]

Meratrim[®] is a proprietary, patent-pending blend of two botanical extracts: *Sphaeranthus indicus* and *Garcinia mangostana*. A clinically-studied extract combination, research data has shown Meratrim[®] to be safe and effective for supporting weight management.*

Sphaeranthus, also known as East Globe Indian Thistle, has been widely used for centuries in the traditional Ayurvedic system of medicine. While all parts of this intensely fragrant annual herb have beneficial uses, Meratrim[®] utilizes extract from the purple flower heads. *Garcinia mangostana*, more commonly known as Mangosteen, is a Southeast Asian tropical fruit with juicy, soft flesh, a thick fruit rind, and a long history of traditional use as a food. Each plant contributes an essential part to the product's ability to affect multiple pathways involved in supporting weight management.*

Futurebiotics[®] Meratrim[®] is a 100% vegetarian supplement that provides the exact same amount of the Meratrim[®] proprietary blend in each daily serving that was utilized in the clinical studies.

- ✓ Supports Weight Management*
- ✓ Meratrim[®]: a proprietary, patent-pending extract blend
- ✓ Botanical extracts: *Sphaeranthus indicus* and *Garcinia mangostana*
- ✓ 400 mg. of Meratrim[®] per vegetarian capsule

PARTICLE POLLUTION AND YOUR SKIN

Why It's Time for a Deep Detox

Chances are you've heard and read about the rising concerns over global air pollution and its effect on human health and wellness. As the biggest single environmental health risk in the world, air particle pollution is now being linked to visible damage on skin as well.

Each and every day, we are exposed to toxins and allergens from smoke, fumes, dander, sweat and bacteria. These pollutants can build up on skin to not only clog pores, they can cause deeper skin cell damage and premature signs of aging from skin's natural inflammatory response to free radical attack. Acne, blemishes, sensitivity, fine lines, wrinkles, thinning or sagging skin are just some of the visible effects of chronically polluted skin.

Now, there is a way to break down the build up and boost skin's natural defenses.

New!

Purifying Skincare

Doctor developed and clinically tested, the **Purifying** line is like a daily deep detox regimen for skin.

Specially designed for oily, active or urban skin types, Purifying formulas work naturally to draw out toxins, replenish vital nutrients and restore skin's own resistance to oxidative stress.

Plus, the line is fragrance-free, allergy tested and made with minimal ingredients, so it's safe for even sensitive skin.

Purifying Power Blend

The Purifying line contains a unique combination of highly effective ingredients intended to boost skin's natural defenses against accelerated visible damage and aging caused by pollution, UV rays and lifestyle factors.

• **Kimarine® Wakame and Bladderwrack** marine algae help boost skin purity and resiliency

• **Activated Charcoal** draws out toxins from skin's surface down to the pores

• **Green Tea** delivers potent antioxidant defense

• **Aloe Leaf Juice** revives skin with fresh, healthy hydration

Teecino

For all those coffee lovers out there, including myself, we can all agree that we consume a little too much caffeine in our day to attain that extra pep in our step that keeps us going throughout the day.

While a caffeine boost here and there is not all that terrible, cutting back on caffeine intake is an effort all coffee and tea lovers should strive to make. Unfortunately, there aren't many satisfying substitutes that can offer the rich, flavorful taste profile that a good cup of coffee delivers. That problem is once and forever solved thanks to the wonderful caffeine-free products of herbal coffee company Teecino!

In the 1990's, herbal tea designer Caroline MacDougall found herself in a dilemma that most coffee enthusiasts can say has come across their minds here and there. Caroline began to question the gap between enjoying a good cup of coffee without the additional caffeine intake. She quickly realized that this gap held a profitable market opportunity, which was to offer a "delicious, hot beverage for coffee and tea drinkers who might not want caffeine all the time but still want to enjoy the flavor and taste profile of coffee." From that single idea grew a successful and growing brand, Teecino, or now known as "America's Favorite Coffee Alternative!"

When Teecino first hit the market in the mid-1990s, the brand had to ensure that its product offering would be much more unique than any other existing coffee alternatives. Not only did Teecino focus on maintaining, and even enhancing the coffee flavor in its herbal products, Teecino also made sure to

differentiate itself by including other benefits. Heart healthy benefits, such as "potassium, antioxidants, and prebiotic fiber", all which come together to offer the body a natural energy boost without the caffeine and acidity that real coffee brings. All these sought-after health benefits can be attributed to the unique herbal blend that makes Teecino so delicious and nutritious. The brand sources some of the world's most unique and exotic ingredients, such as chicory root and ramon seeds, which are derived from the rainforests of Guatemala and organic farms of India. By working closely with suppliers in these countries, Teecino proudly emphasizes its continuous work to provide economic support, and therefore a better quality of life, to the people who work so diligently to provide these sustainable ingredients.

Teecino's product offering is one that can easily be enjoyed by adults and kids combined! The brand offers a variety of caffeine-free, herbal tea flavors. From the exotic Maya Chai flavor to the classic French

Vanilla and Hazelnut, Teecino has a wide selection of unique flavors so anyone can undoubtedly find one that is most pleasing to their palette. In addition to herbal teas, Teecino introduced a gluten-free cereal line that serves an exquisite blend of yummy fruits, nuts, and seeds that give you lasting energy and satiety to keep you going through the day. Teecino's products are made to be enjoyed at any time of the day by people of all ages and lifestyles, so next time you're looking for a mid-day pick-me-up, consider trying one of Teecino's delectable beverages or cereals, which will bring you one step closer to a happier, healthier, more energized you!

"I'M ON A DIET"

Our Policy:
**DON'T SAY IT
 UNLESS YOU
 MEAN IT**

At Olympian Labs,
 when we say **gluten-free, allergen-free,
 non-GMO, vegan, vegetarian, or made
 with extra virgin olive oil,** we truly mean it.
 So you know you're getting the cleanest,
 highest quality vitamins and supplements
 on the market.

NEW PRE/PROBIOTIC, COMPLETE • 25 billion Live Cultures

We are born with a sterile digestive tract, but almost right away our guts begin to be colonized by different species of bacteria, through the milk we drink, the food we eat, the environmental toxins we are exposed to, and the daily stressors we encounter. Most of these bacteria are completely harmless, and some are, in fact, very beneficial.*

NEW WHITE KIDNEY BEAN EXTRACT • 1200 mg

Carbohydrates are your body's main source for fuel. We need them to maintain an active lifestyle, however when we eat too many the body starts adding them to your storage of fat. Olympian Labs White Kidney Bean helps you get the balance back by reducing the carbs being absorbed into your body as fat by inhibiting the enzymatic digestion of dietary starches.*

NEW CAFFEINE • 200 mg

Knowing exactly how much caffeine you are taking has been an issue for some time. Olympian Labs Caffeine supplement offers you an exact way of determining how much caffeine you are getting and simplifies the process by providing the stimulant in pill form.*

PEA PROTEIN VANILLA • 25 g Protein

Olympian Labs Pea Protein is an organic, vegetable-based complete protein powder derived from yellow peas (*Pisum sativum*). Pea Protein is a great protein source that helps to build lean muscle mass, provides optimum nutrition, and it keeps your hunger more satisfied than other protein powders. Its balanced amino acid profile with BCAAs is great when you are working out a lot and challenging your muscles.*

natural solutions for men, women & kids

These leading products brought to you by  **select** and **NUTRITION**

We got our start as street vendors in Harlem. Fresh out of college and without jobs, we set out to bring the healing traditions of African Black Soap and Shea Butter to the community we loved.

Nubian Heritage offers culturally authentic interpretations of ancient global healing remedies. Although our products are no longer made in bathtubs, little else has changed; we still make our own products, use fair trade organic ingredients and invest in community commerce.

For over two decades, we gathered traditional healing practices from around the world and remixed them into 21st century wellness solutions.

This is our evolving wellness wisdom.

We are dedicated to alleviating poverty in the communities that make up our supply chain. We invest in women's Shea Butter cooperatives in Africa, helping them become self-sustaining businesses through training and infrastructure development. **This is how we transform communities through commerce.**

We provide our customers with affordable premium products made of natural and organic ingredients without harsh or harmful chemicals and additives.

This is how we advance individual wellness.

ADAPTOGENS

For Whole Body Health

“Adaptogen” is a term used by herbalists to refer to an herb that is proposed to increase the body’s resistance to stress, trauma, anxiety and fatigue. Adaptogens are also referred to as “tonic” herbs, tonifying the entire system, and useful in treating imbalances of the body. They assist in getting better sleep, help ward off illness by boosting the immune system and increase energy and mental clarity. Because they positively affect every level of the body, they are widely considered anti-aging and enhance the quality of life. Adaptogens are only now gaining a great momentum in the U.S. but have been a favored group of herbs by Asians for thousands of years.

What makes an herb adaptogenic?

- 1) Nontoxic to the user; non-habit forming.
 - 2) Generates a nonspecific response (doesn't target a specific body region and instead \benefits the body as a whole).
 - 3) Creates a state of balance/homeostasis.
- Adaptogens generally work by supporting the immune system, nervous system and/or glandular systems. When used in a daily regimen these herbs allow you to look and feel great!

Eleuthero *(Siberian ginseng)*

is a wonder herb for stress, chronic fatigue and adrenal fatigue. It exhibits cardiovascular as well as mood- and energy-enhancing effects.

Goji Berry

is one of the most nutritious fruits on earth, it is said to have the highest amount of nutrients and antioxidants than any other food source on the planet!

NEW NutriSense™ Raw Protein Powder-Plus ...a true whole food, free of GMOs

NutriSense is the most ideal, potent protein powder available. It combines two raw vegetable proteins—sprouted brown rice and hemp—to provide a complete array of amino acids. Fortified with stabilized organic flax, rice bran, and rice germ, this is far more complete nutritionally as a protein powder than any other. It also contains wild, raw chaga, organic yacon, and red sour grape. Plus, it has even more benefits:

- dense amounts of naturally occurring B vitamins and iron
- great taste from organic yacon
- excellent source of soluble fiber
- increased nutritional value and absorption

Simply add to cool water and drink straight. It's great in yogurt or over cottage cheese. Potent as an addition to nut milk or dusted over cereal.

If you prefer some extra natural sweetness, add a little Yac-o-Power. Raw yacon syrup is dramatically less glycemic than honey, agave, or maple syrup. Plus, it is extremely low in calories.

Always original, always the best

Caffeine 200 mg

Knowing exactly how much caffeine you are taking has been an issue for some time. Olympian Labs Caffeine supplement offers you an exact way of determining how much caffeine you are getting and simplifies the process by providing the stimulant in pill form.

White Kidney Bean

Carbohydrates are your body's main source for fuel. We need them to maintain an active lifestyle, however when we eat too many the body starts adding them to your storage of fat. Olympian Labs White Kidney Bean helps you get the balance back by reducing the carbs being absorbed into your body as fat by inhibiting the enzymatic digestion of dietary starches.

How It Started

As a vegan, world -renowned exercise physiologist Marco Borges was always in search of the perfect nutrition for optimum wellness. He found that the options were limited to provide his clients with the types of foods they needed to perform at their best. Unwilling to settle for what was available on the market, Marco sought out to formulate nutrition-packed vegan options for people who are trying to transform their lives, bodies and habits.

Can Your Customers Find You?

NPA matches customers shopping for natural products to our retail members. The **Natural Products Store Locator** is the most popular section of the NPA website. Customers use it to find stores that sell natural products.

NPA retail members get listed at www.npainfo.org/retailstore.

NPA NATURAL CERTIFICATION PROGRAM

The first and only natural certification in the US

Are your customers asking for certified products?

Just because a product claims to use natural or naturally-derived ingredients does NOT mean the product is truly natural.

Many manufactures cut costs by using lesser quality ingredients in their products.

Now, when a product is certified natural, you can be sure that it is.

Sea Salt

Himalayan Crystal Salt is mineral rich, un-polluted, and bio-energetically alive. The pictures above (magnified 400x) show the intricacy of the energetic "branches" of a single grain of Himalayan Salt (A) dissolving in water, as compared to regular "table" salt (B) and sea salt (C). Notice how the minerals in B and C exist in isolation, and how those images are "smudged" by impurities and/or chemical pollutants.

e-cloth®

perfect cleaning with just water™

Chemical-Free Cleaning with e-cloth® —

It's the Natural Choice

Chemical-free cleaning is a worldwide movement. This movement is in the early stages in the U.S. but was started in Europe during 1995. For the past 30 months, chemical-free cleaning has been experiencing triple-digit growth in the U.S. The e-cloth® brand is the worldwide leader in chemical-free cleaning. The e-cloth® assortment of task specific cleaning products makes it possible to clean any hard surface in the home or at work with just water and a cloth. An e-cloth® is something you have to experience to believe. It is for this reason that customers often try one cloth and then come back again and again to build their collection.

Using an e-cloth® is a very easy way to begin chemical-free cleaning, conserve our nation's natural resources, and reduce the flow of waste into landfills. You don't have to sacrifice performance while cleaning without chemicals and paper towels. In fact, e-cloth®

e-cloth® Window Pack

products were prominently featured in the May 2012 issue of *REAL SIMPLE* magazine, rating e-cloth® Best of the Best in three categories, including Best Cleaning Cloth! *REAL SIMPLE* did this, not because the cloths clean chemical-free, but because they provide a better clean with less effort than traditional cleaning methods.

What is Chemical-free Cleaning?

It is a lifestyle change. It is choosing to clean without toxic chemicals, without sacrificing the results your customers expect. Recent studies show that more than 25% of the population is aware of the dangers of household cleaning chemicals and are actively reading labels and seeking alternatives. Many of these people are the same people that shop your store every day.

How do e-cloth®s Work?

e-cloth®s work because each has 1.6 million fibers per square inch. Why are fibers important? Dirt, oil, grease, grime and bacteria are trapped by the fibers and oil and water are attracted to the fibers – the more fibers the better the cloth performs. Think of it as millions of tiny hands grabbing everything on the surface of a countertop or any other hard surface in a home or at work. By spraying a surface with water, the cloth acts as a magnet while the millions of fibers scrape the surface. The result is a clean that you have to experience to believe.

Another major benefit of using an e-cloth® — the cloths are proven to remove over 99% of bacteria using just water and a cloth. The cloths don't kill the bacteria, the cloth removes the bacteria from surfaces. When you run this cloth under hot water in a sink, nearly all the bacteria, is released from the cloth. Just rinse and continue cleaning.

With an e-cloth®, windows and mirrors get a crystal clear clean, the glass is left lint-free and streak-free. Stainless steel surfaces will be smudge and fingerprint free. Countertops, appliances, cabinets, tables, walls, microwave interiors and work station surfaces all clean up quickly and completely using just an e-cloth® and water.

Reusable – Significantly Less Environmental Impact

e-cloth® products come with a 300 Wash Guarantee. That's almost 6 years of weekly washes. An e-cloth® can be used and rinsed out under a faucet with hot water all week long. Once each week, the cloth should be washed with a regular wash (do not use bleach or fabric softener) and they are ready for another week of cleaning.

The alternative is 1-2 rolls of paper towels each week (paper towels cannot be recycled) and whatever cleaning agent your customer is using, be it lemons, vinegar, or commercially available products. An e-cloth® and just water greatly reduces the amount of consumer waste that is being produced while cleaning. In six years, how many paper towels, wipes, spray cans and bottles will your customers throw away? Chemicals go down drains and remain on surfaces in homes and work places. The paper towels, cans and bottles end up in

landfills. An e-cloth® and just water avoids all of this mess.

Better for Your Customers' Families

A surface cleaned with an e-cloth® is free of two potentially harmful things: cleaning chemicals and bacteria. One of the scariest statements ever written is this excerpt from a Columbia University College of Physicians & Surgeons study: "Women who work at home have a 54% higher death rate from cancer than women working away from the home." A 15 year study concluded that it is directly linked to the toxic household chemicals in the home.

Cleaning chemicals leave residue on every surface of home and work. Eliminating chemicals is good for your customers and their families. We all know why it's important to get rid of bacteria, but the chemicals we've been using to kill them might be just as harmful to us.

e-cloth® really is a better cloth and a better clean. Still not convinced? We stand behind our products 100% and if a customer isn't satisfied, we'll refund their money. If an e-cloth® disappoints within 300 washes, we'll replace it. e-cloth® is the right choice for your customers' homes, families, work places and the environment.

OF YOUR MIND™

Supports Healthy Brain Metabolism*
Supports Healthy Brain Performance*

Clinically Studied Ingredient *

Cognizin® is a patented, branded form of Citicoline, a natural nutrient found in every cell of the body and especially vital to brain health. Unlike artificial stimulants that ramp up energy and attention levels only to have those levels come crashing down later, Cognizin® provides nutritional assistance that helps to:

- Support healthy brain metabolism by nourishing and maintaining phospholipids in brain cells* 1,2,3
- Maintain normal levels of acetylcholine, an important brain chemical that regulates memory and cognitive function* 4,5
- Support brain performance by enhancing metabolism and healthy brain activity* 4,6,7

To sustain your focus and concentration, your brain requires: (1) an adequate ongoing supply of energy and (2) healthy communication between neurons. Not only does Cognizin® support healthy brain metabolism, but it also protects your neural structures against free radical damage and provides phospholipids essential to healthy brain function*.

The Master Detoxifier

Setria®

The Power To Protect™

What is Glutathione?

Healthy Origins® Setria® L-Glutathione Reduced is a naturally derived substance that is a biologically active sulfur amino acid tripeptide compound containing three amino acids: L-Cysteine, L-Glutamic Acid, and Glycine. Glutathione is one of the most powerful protective substances in the body. Its function is to protect all kinds of cells from the damaging effects of toxins and oxidative stress.*

Setria® Glutathione:

- Offers superior antioxidant support by providing reduced glutathione, the most powerful intracellular antioxidant. 1*
- Provides reduced glutathione (GSH), which can regenerate oxidized Vitamin C back to its active form. 2, 3*
- Provides GSH to support glutathione-dependant enzymes crucial for detoxification within the body. 4*
- Provides GSH to support glutathione S-transferases in the safe elimination of toxins. 5*
- Provides GSH, which supports the detoxification of xenobiotics in the liver. 6*
- Supplies reduced glutathione, an antioxidant required for many stages of the immune response. 6*
- Promotes healthy aging by contributing to the body's antioxidant defenses and GSH levels that naturally decline with age. 7*
- Provides reduced glutathione (GSH), a unique antioxidant that can be absorbed intact. 8, 9*

Why is Setria® called the morning antioxidant?

Your body's natural glutathione levels fluctuate constantly throughout the day, are lowest in the morning and decrease as you age. Healthy Origins® Setria® L-Glutathione Reduced is recommended daily as a dietary supplement taken first thing in the morning to maintain healthy glutathione levels. *

What does L-Glutathione Reduced mean?

Reduced refers to the non-oxidized, stable form of L-Glutathione.

TEAVIGO® is your pure and natural choice.

What Is Teavigo?

Healthy Origins® Teavigo® is a pure, natural and caffeine free green tea extract made through a proprietary, patented production process that concentrates the benefits of fresh green tea leaves. *

For its pleasant taste and health benefits; green tea has been consumed by Asian countries for thousands of years. However, only recently have the proper testing methods been developed to determine what was providing these health benefits. It was determined that many of the health benefits associated with green tea consumption could be attributed to the high levels of catechins in the product. Catechins are natural phenols or flavonoids that provide a host of different benefits including high antioxidant activity. The primary catechin in green tea is epigallocatechin - 3 - gallate also known as EGCG.

Healthy Origins® Teavigo® is standardized to contain a minimum 90% EGCG content while minimizing other impurities commonly found in green tea production.

Healthy Origins® Teavigo® is free from pesticide or herbicide residues and is produced under strict manufacturing controls.
