Long Slider Short

Slider Short

The Steel Skin slider shorts are crafted with no excess bulky padding to keep your movements free, while precisely placed performance fabrics keep you cool while preventing skin abrasion when you slide. **Recovery Skin** - main body fabric is moisture wicking & features 4 way compression fit, promoting blood flow to muscles. **Steel Skin** - fabric weaved with steel fibers located on the hips and thighs and on top of the knees on the long slider, 5 times stronger than steel on an equal weight basis, provides unequalled abrasion protection. **Cold Skin** - the cup liner uses a thermal reduction process to promote extra cooling, **Waist band** - Soft and comfortable logoed elastic waist band sits smooth on your skin for added comfort. Contrast stitching, With no bulk, can be worn as a slider short or compression shorts.

### NEW Cool Base® LONG SLIDER SHORT
