**Business Hours:** Monday – Friday, 8:00 am – 4:00pm CST

**Payment Methods:** Visa, Master Card, Discover, American Express, Prepayment, and Wire Transfer.

**Ordering Options:** Call and speak to an actual sales representative – 1-800-678-2492  
Email us at [sales@tan-u.com](mailto:sales@tan-u.com)  
Fax us at 1-262-387-0392

**Taxes:** Any sales, use, or manufacturer's tax that may be imposed upon the sale or use of the goods, or any property tax, excise tax, license, or similar fee required under this transaction will be added to the price paid by the purchaser; unless proper exemption documentation has been furnished in advance.

**Shipping Policy:** If your order is placed before 1:00 p.m., it will ship the same day. During peak season every effort will be made to continue this service. Orders are shipped via Speedee Delivery, UPS, FedEx and LTL Carrier. **Free shipping on Lotion orders of \$175.00 or more!**

**Damages:** Must be reported to the carrier immediately and within 72 hours to the company. No credit will be issued if damaged product is not noted at time of delivery with the carrier.

**Returns:** No goods shall be returned without prior notification. All closeout products & package changes are non-returnable. All goods, except for defectives, must be in original package, with no markings labels or price tags, unused & in resalable condition. Customer will be given credit towards their next purchase on all returns. The purchaser, unless otherwise agreed upon, will pay all shipping charges on returned goods.

**\*Warning: Repeated over-exposure to ultraviolet light may cause premature aging and skin cancer**

(A) "Contraindication: This product is contraindicated for use on persons under the age of 18 years."

(B) "Contraindication: This product must not be used if skin lesions or open wounds are present."

(C) "Warning: This product should not be used on individuals who have had/have a family history of skin cancer."

(D) "Warning: Persons repeatedly exposed to UV radiation should be regularly evaluated for skin cancer."

## Rated Life

**1500 - 2000 Hours**

The global anti-aging market is booming. In fact, many consider it to be recession proof. Light therapy anti-aging skincare treatments with UV-free Rejuvenessence lamps are the new affordable and rejuvenating alternative to plastic surgery or other invasive techniques like laser treatments. This therapy may tighten and improve skin's elasticity by using visible light in the 633nm region\*, which activates the production of collagen and elastin – two vital ingredients for achieving a desired anti-wrinkle effect. \*Visible red light spectrum lies between 600nm to 700nm.

## Skin Penetration Depth

Visible red light at a wavelength of 600nm to 700nm reaches the epidermal layer of the skin and begins to heat the dermis. It penetrates to the bottom of the dermis down to the subcutaneous adipose tissue. With the rise in temperature, new collagen and elastin is naturally produced by our body, which also helps to reduce acne.

\*Not compatible with any tanning lamps as defined by the FDA 'Policy on Lamp Compatibility' 21 CFR 1040.20

\*Not available for sale in Texas, Iowa or North Carolina

\*Not recommended for use in any unit originally designed and labeled for tanning use.

# Cosmetta FST

A truly unique tanning experience! The Cosmetta Full Spectrum Tanning lamp has an exclusive phosphor blend unlike any other lamp.

Over 5 years of research and development behind this lamp.

Provides rich, golden color and won't leave your skin feeling dry.

Signature Series lamps provide salon owners with improved quality that results in longer life and better tans from a reflector lamp. These lamps offer the highest quality phosphor blending and processes, and unique heat shield and cathode guards for optimal performance and minimal end darkening.

Signature Series lamps are also built to last. They emit more total UV while maintaining their higher output for longer than any other lamp. As a result, Signature Series offers tanners a higher UVA output. They provide your clients a full, efficient tan for a longer time with a deeper, bronzing tan for your clients.

In the world of high-pressure tanning, two constants remain: tanners want bronzing in less time, and salon owners want energy efficient lamps for their salon equipment. HP offers salon owners a stable lamp able to withstand constant high-pressure. It utilizes a special blend of UVA phosphors for a complete bronzing experience. Signature Series HP gives tanners the instant color they need directly after their session, and serious bronzing for hours after they leave the salon. The desired effect of a deeper, darker tan is achieved well after the tanning session.

- Proprietary Tri-Coat Technology
- Consistent output over lamp life
- Maximum UVA output
- Rated Lifetime of 1000+ Hours

- Premium upgrade for most sunbeds
- Premium glass
- New phosphor technology
- Rapid immediate pigmentation
- Long-lasting dark tanning results
- Highest UVA lamp available

# Aurora Series

Superior tanning results, top quality craftsmanship, combined with superb reliability and performance are the exact qualities that distinguish the Aurora Series lamps as the top lamp brand nationwide.

Your tanning equipment is only as good as the lamps you use in it. Aurora lamps were designed for salon owners who want to build a successful business reputation.

Aurora Series lamps contain only the highest quality phosphors and superior specialty glass manufactured specifically for only the tanning industry. It was the first lamp series to offer a 4.2, 5.0, 6.5, 7.5, and 8.5 percent lamps to the industry, which allows salon owners to cater their salon to their clientèle.

Aurora's product line is deep. It holds multiple options for every salon and every application in the industry. From the Morning Sun for fair skinned clients and new tanners, to the Equator Sun for seasoned clients, Aurora has a beautiful tan for everyone.

Best of all, Aurora lamps deliver superior color and deep, dark tans on a consistent, measurable basis. In the tanning industry, salons recognize one key is to keep the customers they have, and then get them to tell someone else about the wonderful tan your salon gives them. Aurora lamps do that every time.

## Midday Sun

Perfect for a type 2 or 3 tanner, the Midday Sun is an all around best bet for tanners looking for more color than the Morning Sun offers. Matched to the needs of most tanning clients, the Midday Sun is considered a bronzer, but packs enough UVB for more immediate results.

## Beach Sun

Serious tanners love the power and performance of Beach Sun. Give your tanners an all-over sexy glow and faster results! Beach Sun is ideally suited for type 3 or higher base tans and can enhance color to perfection. Looking good is important, with Beach Sun it's easy.

## Equator Sun

For serious tanners only, Equator Sun offers tanners a tropical experience and darker results. Specifically for type 3 with a good base tan, this lamp results in the darkest tan available for short session times.

Premium results at an affordable price.

The Brilliance Bronzer series casts a long, golden shadow on the competition in both standard and reflector applications. The highest quality phosphors, combined with a special gas mixture allow for approximately a 25% increased output. These special bronzing lamps are available in a variety of sizes as well as HO and VHO types.

The Brilliance Advanced Bronzing System incorporates only the highest quality glass tubes, which are manufactured specifically for the tanning industry. The highest quality phosphor blending and a specific gas mixture highlight this lamp series as a premium option.

## Cheetah 9.5

Our fastest lamp! Brilliance Cheetah has an unusually high UVB content and ultra fast, immediate results. Get a brilliant tan in less than 10 minutes!

**Recommended for skin type 3 or higher only.**

## Brilliance Energy Plus

Specially formulated for tanning units with electronic control systems. A balanced blend of UVA and UVB phosphors for rich, golden results.

## Euro Power Bronzer

Euro Power Bronzer combines the highest quality phosphors available with premium glass tubes and reflector hardware, delivering salon owners serious value and tanners serious results.

As a result of superior European manufacturing, Supreme Bronzer allows a higher level of UV to reach the tanner, which results in repeat customers who love power bronzing. Salon owners will agree, it's hard to find a quality VHOR lamp with lasting results, but the Supreme Bronzer is the exception. Built with quality in mind, this lamp will outperform and outlast other reflector lamps hands down.

## Euro Active Bronzer

All the benefits and qualities of the Euro Power Bronzer with an added kick of UVB. The Euro Active Bronzer provides more immediate color for the most demanding clients.

## Brilliance Bronzer 5.0

Built with superior glass tubes and the highest quality phosphor blends, the Brilliance Bronzer 5.0 120w lamp is an economical choice for units requiring 120w lamps, but does not sacrifice its bronzing powers.

## Active Bronzer 7.0

The Active Bronzer 7.0 allows salon owners to offer their patrons a tanning experience with enhanced results. By increasing the UVB content, the Active Bronzer 7.0, adds approximately 20% more output when compared to the standard bronzer lamps. This gives your patron immediate results, while still offering an impressive amount of UVA for lasting results.

## Supreme Bronzer

The Supreme Bronzer allows quick bronzing results in just a 10 minute session. With its high UVB content, your clients will love its staying power and be back for more.

Brilliance 5.0 offers tanners an exceptional value. It combines an acceptable amount of UVB while delivering enough UVA for excellent pigment darkening.

If you like the performance of the Brilliance 5.0 but want faster results, the Brilliance 6.5 is the answer for you. Brilliance 6.5 has more UVB for quicker skin reddening and the same UVA for excellent pigment darkening.

Brilliance 8.5 is an exceptionally fast, hot lamp for use by experienced tanners only. Its high UVB content is intended for skin type's 3 or higher!

Brilliance EuroPower is a superb option when you're looking for an economical reflector replacement for your high-performance tanning beds. Brilliance EuroPower's quality phosphors support longer lamp life that rivals other premium reflectors. Brilliance Euro Power also boasts compatibility to many popular premium brands.

## Brilliance Series

Brilliance lamps were developed to give salon owners a long-lasting, high-performance replacement lamp for many OEM lamps. Brilliance lamps give superior tanning results and their quality is unsurpassed!

For over five years, thousands of salon owners re-lamp their equipment with Brilliance lamps because they tan incredibly well, and they have the best quality. New lamps have been added to this spectacular line, providing salon owners with a full line of brilliant tanning lamps.

Brilliance Series lamps add value to your salon without sacrificing performance. In a time when economics sometimes speak the loudest, Brilliance Series lamps are able to transcend difficult lamp changes during the off-season into profitable value.

Strong, solid results define the Brilliance series lamps. They are durable High Output and Very High Output lamps that are compatible to many different lamp brands. Available in all standard popular sizes and strengths, Brilliance lamps offer salon owners a reliable lamp for a reasonable price.

# Acrylics

## HOW TO MEASURE ACRYLIC SHIELDS

From the tanning bed, get the following information:

Make, Model, Year and # of Lamps

1. Take the shield out of the bed.
2. Measure the full length of the shield\*.  
Include special features such as holes, tape, facial units, etc.
3. Measure the width along the back side.  
Include all bends and curves.

\*A tape measure works best when measuring acrylics.  
Be sure to be EXACT when measuring.  
DO NOT ROUND OFF.

## T-Max & Tantime Timers

The T-Max® Series timers are the industry standard for controlling your tanning salon.

Now with our G2™ Wireless Modules you can control your entire salon without the need to run cables throughout your building.

This makes the T-Max® Series the easiest and most versatile timers in the tanning industry to install.
