UA INNOVATION LABS

CORE TECHNOLOGIES

Under Armour® products augment your training and capabilities with the following roster of proprietary performance-enhancing technologies.

PERFORMANCE DNA

Every Under Armour® product is doing something for you: it's making you better. Following are the core pieces of DNA that deliver on this promise. The building blocks of performance.

Waterproof and breathable GORE-TEX® outerwear is made of the very toughest fabrics and is thoroughly tested to guarantee performance even after serious wear and tear.

**UNDER ARMOUR
CHARGED
COTTON®**

Fabric made from natural cotton for superior softness and comfort – with the added benefit of UA performance.

EPA-registered anti-fungal fibers kill 99.9% of Trichophyton mentagrophytes (Athlete's Foot fungus) after 12 hours of contact with the sockliner.

**coldgear
INFRARED**

Ceramic coating on the inner layer of your garment absorbs and retains body heat, so you stay warmer longer.

FLAME RESISTANT

Incorporates fabrics that resist vertical flames, flashfires, and have non-melt properties for extreme conditions.

ARMOURBLOCK®

Fabric treated with antimicrobial agents.

TOUCH SCREEN COMPATIBLE

Conductive thread for operating touch screen devices

BENEFITS OF COMPRESSION

Whether it's training or gameday, your UA Compression base layer makes you better and unleashes the power of your muscles.

INCREASED POWER & STAMINA: **STAY STRONGER FOR LONGER**

Reduces muscle vibration to lessen fatigue and maintain power output. Keeps muscles aligned correctly to increase repetitive muscle power.

ENHANCED PROPRIOCEPTION: **KNOW YOUR BODY'S PLACE IN SPACE**

Enhances proprioception - the body's recognition of muscle patterns and spatial awareness - to increase muscle efficiency.

FASTER RECOVERY: **GET YOUR MUSCLES BACK TO FULL STRENGTH FASTER**

Creates a healing environment around muscles and circulatory systems. Post-workout, reduces swelling, decreases soreness time and promotes muscle repair.

SUPERIOR COMFORT: **STAY COOL, DRY, AND LIGHT**

Wicks moisture to keep you 53% lighter than cotton after 60 minutes of athletic performance. Speeds evaporation to regulate your core temperature.

GEARLINES

Blistering heat to bitter cold. Whatever the climate, whatever the conditions, Under Armour® Performance keeps athletes comfortable, dry, and light with gearlines engineered to perform.
