

DRONES

by Bad Brad

Welcome to **DRONES By Bad Brad**

Drones are pretty cool, you may not need one, but whether you need one or not, we think a household could always benefit from having a drone lying around. Whether it's just for fun, to use as a filmmaker, or to spy on your neighborhood.

PROTO X NANO QUAD

The 50 mm Proto-X is tiny, ideal for indoor flying – and it weighs only 11.5 g, just four-tenths of an ounce. Bright, built-in LEDs make it easy to see the Proto-X in low-light conditions

\$49.99

REZO MICRO CAMERA DRONE RTF

Built-in camera records video and takes still photos at the press of a button Innovative altitude hold, automatic takeoff and landing technologies Available in one of three body colors - black, blue or orange Automatic flip mode so anyone can perform 360° aerial flips

\$59.99

INVEZO STUNT DRONE RTF

The Revolution Invezo Stunt Drone is easy to fly, even if it's your first time. After mastering the basics, the durable Invezo can take your skills higher with Easy, Pro and 3D modes plus 360° flip and upside down (inverted) flight capabilities.

\$66.99

JETMAN GO DRONE RTF

The JetMan Go Drone RTF is a unique, fun aircraft that is easy to fly, yet small enough to fly around the house. The built-in 6-axis gyro control system provides amazing stability, features like Auto Take-Off and Landing

\$79.99

KODO HD DRONE W/CAMERA

The digital camera in the KODO HD offers you more than high-definition resolution; it gives you full high-definition 1080p resolution to work with, so you can shoot videos and pictures of unprecedented sharpness and clarity.

\$79.99

PICO X MICRO DRONE

Although the Pico X RTF may be the smallest ultra-micro quad on the market, it's certainly not little when it comes to features. The incredibly small body of the Pico X is made from durable polycarbonate

\$89.99

INDUCTRIX RTF

Lightweight, fully assembled quadcopter
SAFE® technology makes drone flying easy
Quiet EDF power system
Durable rotor housings prevent damage
Brilliant LED orientation lights

\$89.99
