2016 LINCOLN MKZ

When you embark on a journey to consider what matters most to you, sometimes you find it right where you are. You find it by opening your mind to new ideas and your eyes to new styles. And thereby discovering what truly reflects your personality. Open yourself up to Lincoln MKZ. Take in the elegant simplicity of its stunning exterior, accentuated by distinctive curves and punctuated by dramatic accents. Experience the luxurious amenities of its impeccably crafted interior. The 2016 Lincoln MKZ is yours to discover.

GENUINE WOOD ACCENTS IMPART
VISUAL WARMTH AND ELEGANCE

FLOWING LINES CONVEY A SENSE OF CALM
WHILE SEAMLESSLY INTEGRATING CONTROLS

SWEEPING SUSPENSION BRIDGE CENTER CONSOLE
ACCENTUATES THE FEELING OF SPACIOUSNESS

GRACEFUL STRUCTURE PROVIDES
UNEXPECTED STORAGE POSSIBILITIES

EXPRESSIVE DESIGN

EXPRESSIVE DESIGN

EVER EXPERIENCE HOW IT FEELS TO FIND THE PERFECT PIECE OF ART FOR A FAVORITE ROOM? IT'S REMINISCENT OF THAT.

A rush of satisfaction that leads the way to enduring enjoyment. That's how it feels to experience Lincoln MKZ. The graceful lines of its interior styling embrace all occupants, no matter where they might be sitting, while its spaciousness expands everyone's view of the world.

Simply press a button to select a gear on its sleekly integrated, **push-button shift transmission**. Enjoy the welcoming effect and the exceptional comfort of its premium leather-trimmed, 10-way power, **cooled front seats**.¹ For help with reducing muscle fatigue and enhancing blood flow in one's legs and lower back, select its **multicontour front seats with Active Motion**,^{®1} which will be really appreciated on longer drives.

Even its storage areas are artfully designed. Discreetly tucked inside the **flush armrest's storage bin** are dual cupholders, plus a tray for coins and other small items. A **110-volt power outlet**¹ makes it convenient to charge media devices, while a subtle red glow lets everyone know the **LED-lit door locks** are activated. With **ambient lighting**, one can select any of 7 colors to complement the collective mood. And with **dual-zone electronic automatic temperature control**, ride in comfort. Lincoln MKZ. It's designed to stir the emotions of all occupants.

What could be easier than speaking your mind? **SYNC[®] with MyLincoln Touch^{™2}** connects you to the world around you. A simple spoken word activates the system, and puts you at the helm of your audio, climate choices, music, information, calling and personal contacts, and more – without ever having to take your hands off the wheel. In addition to the steering wheel-mounted 5-way controls, the system features a configurable, 8" color LCD screen, as well as a media hub with a USB port, an SD card reader and a 12-volt powerpoint, offering you many convenient ways to stay connected.

| SYNC

SYNC WITH MYLINCOLN TOUCH

Dial phone numbers and answer calls without picking up your phone – or taking your focus off the road. SYNC with MyLincoln Touch even mutes other audio sources so you won't miss an incoming call. Just say the word for voice control of your contacts, as well as the playlists on your USB or smartphone.

THX

THX[®] II CERTIFIED AUDIO SYSTEM

Specifically designed and acoustically engineered for the MKZ interior, the THX II Certified Audio System¹ lets every passenger experience concert-quality sound. Through specialized sound processing technology, 14 speakers – including 2 subwoofers that deliver rich, deep bass – and an amplifier that produces 700 watts of power bring the feel of a live show to your everyday commute.

¹Available feature. ²Driving while distracted can result in loss of vehicle control. Only use SYNC/other devices, even with voice commands, when it is safe to do so. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Functionality varies by market. THX and the THX logo are trademarks of THX Ltd., registered in the U.S. and other jurisdictions. All rights reserved.

INNOVATIVE TECHNOLOGIES

Many a driver has gone around the block just to avoid parallel parking. **Active park assist**¹ can help take the guesswork – and stress – out of it. Ultrasonic sensors measure open spaces, and help find a parking spot as small as 1.2 times the length of your vehicle. When it does, you literally take your hands off the wheel, then watch as the system guides you into it, while you control the brake, shifter and accelerator.

We could all benefit from a little forward thinking. Thankfully, when you're pulling into a space, the **Forward Sensing System**¹ on MKZ uses sensors on the front bumper to help detect objects that are in front of your vehicle, and then sounds an audible tone if something is detected.

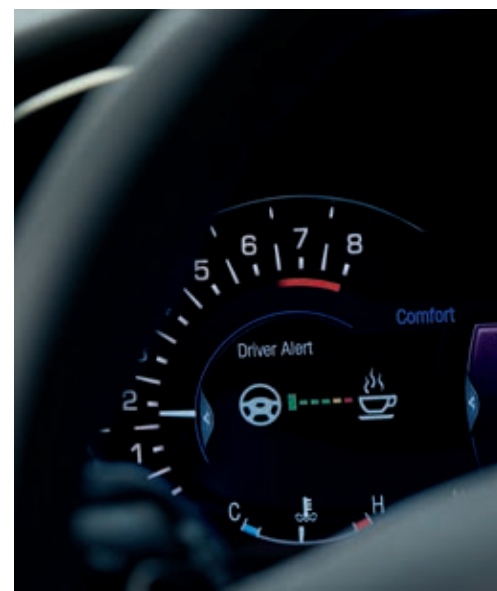

It's sort of like that friend you count on to watch your back. The standard **Reverse Sensing System** uses sensors on the rear bumper and a warning sound to help alert you if something is behind your vehicle when you're backing out of – or into – a parking spot or garage.

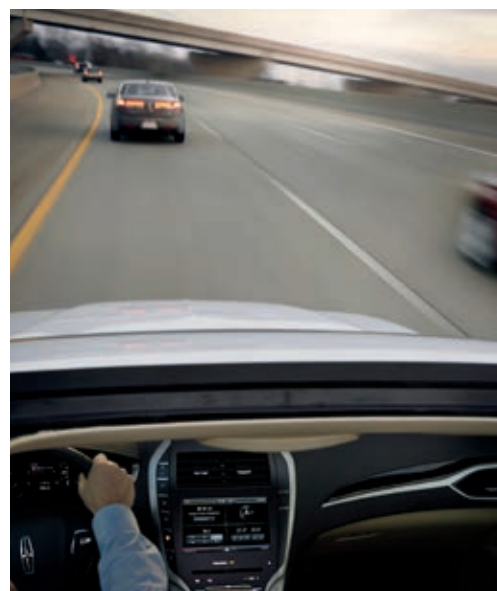

POWER-FOLDING,
PEDESTAL SIDEVIEW MIRRORS

LED TAILLAMPS RISE TO FULL INTENSITY 10 TIMES
FASTER THAN INCANDESCENT BULBS

Every now and then, we need a little nudge in the right direction. Fortunately, the **Lane-Keeping System**^{1,2} can alert you with steering wheel vibration pulses if it senses you drifting out of your lane, and can then apply steering wheel torque to help direct you to steer back into it. The **Driver Alert System**¹ uses a forward-facing camera to detect lane markings, and displays a coffee cup icon in your gauge cluster if it detects that you've come too close to – or crossed – the lane marker lines too many times.

It always pays to plan ahead – and your MKZ can help with that. Using advanced radar technology to constantly scan for slower vehicles in front of you, **adaptive cruise control and collision warning with brake support**¹ can automatically change your vehicle's speed to maintain your choice of 4 preset gaps – without you having to work the brake or accelerator pedals. If collision warning with brake support senses a potential collision, the system flashes a warning across the windshield, sounds an alarm, and then pre-charges the brakes and increases the brake-assist sensitivity to help provide full responsiveness when you brake.

It can be easy to miss when a vehicle has entered your blind spot. Just as the name suggests, **BLIS® (Blind Spot Information System)**¹ helps keep you aware of things that may be out of your line of view. The system alerts you with a light in the corresponding sideview mirror if its radar sensors detect a vehicle. **Cross-traffic alert**¹ notifies you with an audible warning and a light in your sideview mirror, if it detects a vehicle approaching either side as you're slowly backing out of a space.

245_{net PS}¹

2.0L ECOBOOST®

Get the on-demand power you expect from a V6 with the standard turbocharged 2.0L EcoBoost I-4 engine with 245 net PS¹. Thanks to direct fuel injection that delivers fuel right into the cylinders, you get 368 N•m of net torque¹ for an impressive balance of first-rate performance and fuel economy. The standard 6-speed SelectShift® automatic transmission features steering wheel-mounted paddle shifters you can use to shift for yourself, or leave it all to your MKZ.

307_{net PS}¹

3.7L TI-VCT V6²

Some of us are drawn to more powerful, thrilling experiences. With its 3.7L Ti-VCT V6 engine, MKZ gives you an exhilarating 307 net PS¹ and 377 N•m of net torque¹ while still delivering impressive fuel economy. Twin independent variable camshaft timing (Ti-VCT) controls when its intake and exhaust valves open and close, helping to optimize fuel combustion – and deliver power and low-speed torque for smooth, responsive passing and merging.

OUR ENGINES MEASURE UP TO
OUR MOST DEMANDING CRITERIA

POWERFUL PRESENCE

POWERFUL PRESENCE

Lincoln MKZ adapts so you don't have to. Because road conditions are always changing, **Lincoln Drive Control** featuring **continuously controlled damping** uses sensors to read the road – and your driving input – every 2 milliseconds, then quickly adjusts the firmness and damping at all 4 tires to help your vehicle be in harmony with the road. The system also lets you select between 3 drive modes – Comfort, Normal or Sport – to match your driving style. **Electric power-assisted steering (EPAS)** automatically adjusts your steering for different driving situations. In tight maneuvers when every slight move matters, the steering stiffens up. In more relaxed driving situations, it lightens up. At the same time, **Torque Vectoring Control** automatically adjusts the speed between your front wheels for enhanced cornering and agility.¹

¹Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. ²Available feature.

INTELLIGENT ALL-WHEEL DRIVE²
CORNERS WITH CONFIDENCE

PREMIUM EXPERIENCES

Every ride is also a quiet one thanks to the extensive noise-minimizing design. A streamlined shape allows for fluid airflow, while aerodynamic sideview mirrors are designed to deflect air away from the side windows to help minimize wind noise. An **underbody shield**, **multilayer door seals**, extra layers of **sound-deadening material**, and **absorption pads** under the carpeting help absorb road noise. In addition, the **active noise control** feature uses microphones in the cabin to detect unwanted noises, then sends opposing sound waves through the vehicle's speakers to cancel those sounds. The system also creates a tailored sound experience by helping to refine engine sounds. When you are in Sport mode, it enriches certain engine sounds while damping others, in order to give all occupants a customized cabin experience.

¹Available feature.

A luxury vehicle should be a sanctuary to all. Interior amenities like **rear reading lamps** activate with a swipe of the headliner cloth to shed light on rear-seat passengers as needed, and a **power rear-window sunshade**¹ helps block the harsh rays of the sun for everyone's benefit. In addition, **inflatable rear outboard safety belts**¹ inflate to distribute crash-force energy across more of a passenger's chest to help make every ride in your Lincoln MKZ a safer one.
