2017 LINCOLN
NAVIGATOR

STRENGTH RADIATES
FROM DEEP WITHIN

EMPOWERING YOU TO RISE TO NEW HEIGHTS

NAVIGATOR PERFORMS ON COMMAND.

Exuding a quiet confidence, the design of Lincoln Navigator is inspired by a very particular sort of power. One to which many of us aspire. It's a steadfast strength that radiates outward, silently encircling those around you. From its distinctive satin-finish grille to its graceful wraparound taillamps, Navigator embraces you and your passengers, surrounding each of you in exquisitely crafted, luxurious comfort.

Inside its spacious sanctuary, you'll enjoy seating for up to 8,¹ plus responsive technologies designed to elevate your travels and guide you through each day. Beneath its hood, a 3.5-liter GTDI engine uses twin-turbocharging and direct-injection technology to give Navigator 390 net PS.² It also produces 629 N•m of net torque² – with plenty available at lower rpm for on-ramps, passing and towing.

¹Available feature. ²Data as per GCC Standardization Organization certification. ³When properly equipped. ⁴Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.

PROCEED WITH POISE.

An impressive 4,082-kg towing capacity³ and standard trailer sway control help make towing look easy. By monitoring the motions of the vehicle to detect trailer sway, and selectively braking individual wheels as needed, this sophisticated technology helps you maintain control of your trailer and your Navigator while towing.⁴ Hill Start Assist helps hold Navigator in place as you move your foot toward the accelerator after having stopped on a hill.

RESPONSIVE RIDE WITH AN INDEPENDENT SIDE

Even the most tranquil road can surprise you with the unexpected. You'll be prepared with Lincoln Drive Control¹ featuring Continuously Controlled Damping (CCD). Using sophisticated sensors, the system reads the road and your driving input every 2 milliseconds. Then, it adjusts to help deliver a smooth ride and responsive handling.

Depending on your mood, feel free to select between 3 drive modes – Comfort, Normal or Sport. With any of them, Electric Power-Assisted Steering (EPAS) constantly adapts to provide the kind of steering response and feedback that make you feel confident behind the wheel.

The Rear Load-Leveling Suspension¹ helps Navigator maintain its ride height for consistent handling, while riding on a fully independent front and rear suspension helps it keep all of your travels as smooth as possible.

¹Available feature.

COMMANDING VIEWS

FROM EVERY VANTAGE POINT

GIVE THEM EACH THEIR OWN SPACE.

Lincoln Navigator is designed to help you provide your loved ones with the support they need to flourish on every journey. The roomy leather-trimmed 2nd-row bucket seats¹ feature reclining seat backs and a 2nd-row center floor console.

PLUS, THE POWER TO ADAPT.

At the touch of a button, the PowerFold[®] 3rd-row 60/40 split bench seat can be folded flat to make way for long cargo. In its upright position, the seat treats your passengers to expansive 3rd-row leg room, an added benefit of the independent rear suspension.

AND PUT EVERYTHING IN ITS PLACE.

The long-wheelbase Navigator L provides you with a Cargo Management System to help make the most of the 1,207 liters of cargo space behind its 3rd row. Life is so much fuller when you're able to bring your loved ones and their favorite things along for the ride.

¹Available feature.

TREAT YOURSELF TO RICH REWARDS.

Navigator commends your efforts and honors your accomplishments with a luxuriously appointed cabin. Relax into its premium leather-trimmed seating – cooled up front for extra comfort. Note the precise stitching on the leather-trimmed instrument panel¹ and steering wheel. Genuine wood inlays satisfy your penchant for attention to detail. Navigator even recalls settings for your driver's seat, sideview mirrors, brake and accelerator pedals, and tilt/telescoping steering column – all at the touch of a button.

Outside, the power liftgate provides one-touch access to the spacious rear cargo area. Power-deployable running boards lower themselves to ease your entry and exit from the vehicle any time a door is opened. When the doors are closed, the running boards tuck beneath the vehicle for a streamlined appearance. Navigator is filled with thoughtful features designed to help make your life easy and beautiful.

In order to provide this highly refined environment, the Lincoln Luxury Validation Center meticulously inspects the materials, craftsmanship, fit and finish, and function of each Navigator that leaves our facility. Ensuring that it meets Lincoln standards in every way, before you see that it meets yours.

¹Available feature.

DETAIL STANDS OUT
ATTENTION TO

THE DESIRE
TO CONNECT
IS HUMAN NATURE

| SYNC

What could be easier than speaking your mind? Our next generation of voice-activated technology – SYNC® 3 – connects you to the world around you with its straightforward new design and features! Audio, phone, navigation and other functions are concisely presented on the full-color LCD screen. Whether you command it using simple, everyday language, or swipe its capacitive touchscreen, SYNC 3 delivers high-speed performance. Plus, automatic updates over Wi-Fi®² help keep it running at its best, so you can keep your eyes on the road and hands on the wheel.

SYNC KEEPS YOU CONNECTED.

Place and answer calls, and control music from your USB device or smartphone, all with simple voice commands. The Navigation System lets you pinch-to-zoom maps and makes it easy to enter your destination, find a market, a particular shop or a new restaurant, and so much more.

¹Don't drive while distracted. Use voice-operated systems when possible; don't use handheld devices while driving. Some features may be locked out when the vehicle is in gear. Not all features are compatible with all phones. Message and data rates may apply. Functionality varies by market. ²Navigation System map updates cannot be received via Wi-Fi and require a separate update.

| THX

Every passenger inside Navigator has a front-row seat to the concert, courtesy of its THX® II Certified Audio System. Its sound-processing technology distributes your music's bass evenly throughout the interior and, together with 14 speakers, brings the rich, full sound of the studio to your everyday commute.

THX and the THX logo are trademarks of THX Ltd., which are registered in some jurisdictions. All rights reserved. Wi-Fi is a registered trademark of the Wi-Fi Alliance®.

A SENSE OF CALM IN A HECTIC WORLD

PLAN AHEAD.

As you drive your Navigator into or out of a parking space, the Forward Sensing System helps by alerting you with audible tones if it detects an object near your front bumper.

DON'T BE CAUGHT OFF GUARD.

Some vehicles may be out of your line of sight, but they can be detected by BLIS® (Blind Spot Information System) with cross-traffic alert. If the system's radar sensors detect a vehicle in either blind spot while you're driving forward, the system can alert you with a light in the corresponding sideview mirror. While backing up, it can also detect a vehicle approaching from either side, then notify you with a warning light and an audible tone.

AND BACK UP YOUR SENSES.

As you back your Navigator into or out of tight spaces, the rear view camera provides full-color visuals, and the Reverse Sensing System emits audible tones to help.

CONFIDENCE CAN
EXPAND HORIZONS

GIVE THEM A SENSE OF SECURITY.

Navigator surrounds you and your passengers with its structural safety cage, dual-stage front airbags and front-seat side airbags for the driver and front passenger, plus side-curtain airbags for outboard passengers in all 3 rows. In addition, the SOS Post-Crash Alert System™ can unlock doors and flash lights to let others know you may need help.¹

REMARKABLE COMPOSURE.

Slippery surfaces and emergency maneuvers often require a bit more from your vehicle. Fortunately, Navigator provides just the help you need. AdvanceTrac® with RSC® (Roll Stability Control™) can selectively apply individual brakes and modify engine power to help keep all 4 wheels firmly planted.²

BRILLIANT VISION.

As you guide Navigator through curves, the bright white beams of its adaptive HID headlamps move in the same direction as your steering wheel. Providing better visibility than conventional halogen lamps, the HID headlamps combine with LED signature lamps and LED daytime running lamps to beautifully illuminate your path.

AND OUTSTANDING DRIVE.

As conditions change, the Control Trac® 4-Wheel-Drive (4WD) System³ helps improve your grip at the turn of a dial. When you choose 4x4 Auto mode, the system can send power to all 4 wheels as required. Or, you can select 4x4 mode for optimal traction in deep or shallow sand and other severe off-road conditions.

¹SOS hardware may become damaged or the battery may lose power in a crash, which could prevent operation. Not all crashes will activate an airbag or safety belt pretensioner.

²Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. ³Available feature.

When you're away, your Navigator patiently awaits your return, then welcomes you by illuminating your path in the darkness.

As you approach, Navigator senses your key fob from up to 8' away and graciously casts a luminous welcome mat with the Lincoln logo upon the ground beneath each sideview mirror.

Take your seat inside the cabin as the welcoming glow of ambient lighting surrounds you, and Navigator adjusts the sideview mirrors with memory to your personalized settings. It's been expecting you.
