With the company's long standing experience in designing, manufacturing and testing water and cooling pumps, the customer is guaranteed a quality part at an exceptional value. As well as offering one of the largest range of water pumps for the aftermarket under the Pro Flow brand, they also supply directly to many large automotive companies including prestige marques such as Volvo, Aston Martin and Jaguar Land Rover.

The warranty cover is three years of 36K miles whichever is earlier from the day of the first fitment.

If you have any queries please do not hesitate to contact the Cooling and Heating division –
