FUNDAMENTALS OF NURSING

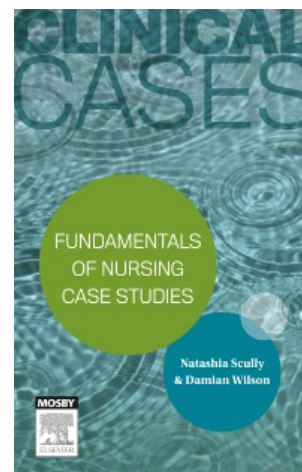

Fundamentals of Nursing, 5e
Crisp | Taylor | Douglas | Rebeiro

This 5th edition has been carefully revised and restructured, focusing on the very important basics – the fundamentals of care that are the building blocks on which professional nursing practice is built.

Fundamentals of Nursing, Clinical Skills Workbook, 3e
Rebeiro | Jack | Scully | Wilson

This lightweight clinical skills workbook provides students with a clear and accessible personal record of achievement and allows an opportunity for reflection to encourage meaningful learning.

Fundamentals of Nursing Case Studies
Scully | Wilson

Get to know the fundamentals of nursing with this nursing textbook, which offers nursing students insightful case studies based on real-life situations that you are likely to encounter in a practical environment.

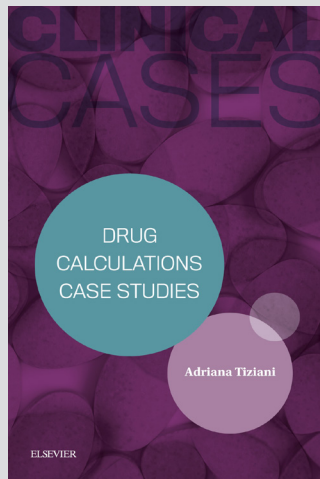

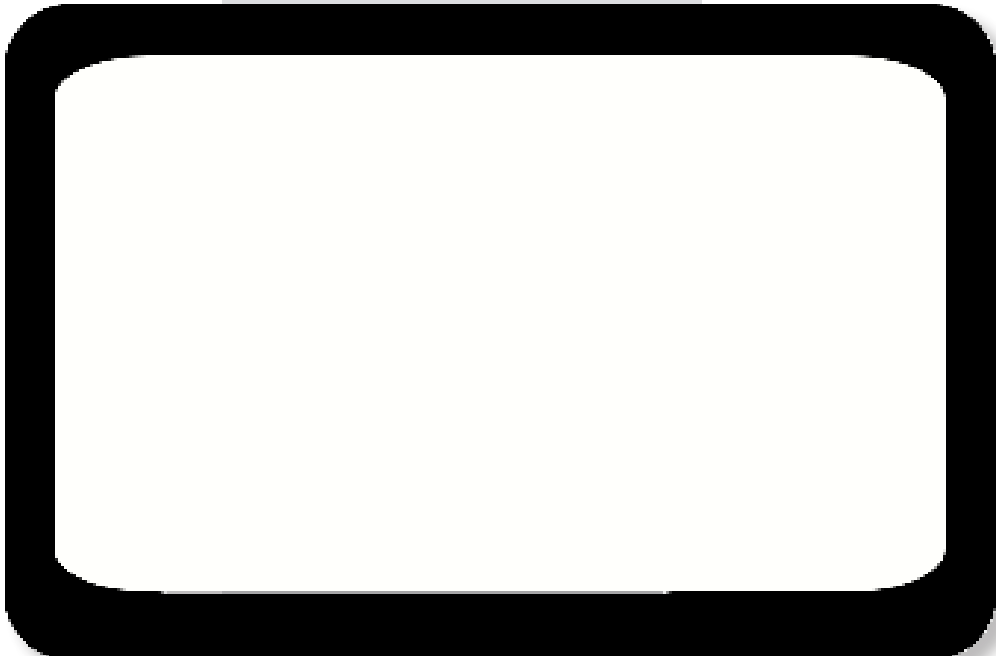

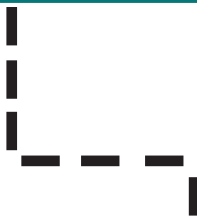

Understanding the Australian Health Care System, 3e

Willis | Reynolds | Keleher

This text covers the key issues and theoretical concepts that provide insight into the way the Australian health care system is organised and how policy change impacts health care.

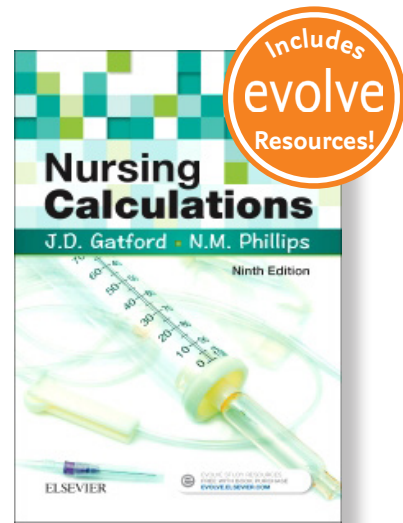

[View Sample Video](#)

Drug Calculations Case Studies

Tiziani

This text is the perfect companion to *Havard's Nursing Guide to Drugs*, forming an ideal suite of resources for undergraduate and Diploma of nursing students.

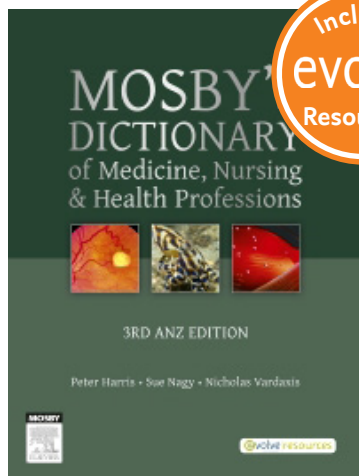

Nursing Calculations, 9e

Gatford | Phillips

Now entering its ninth edition, this internationally renowned guide to basic arithmetic for nursing students has been completely revised and updated for a new generation of readers.

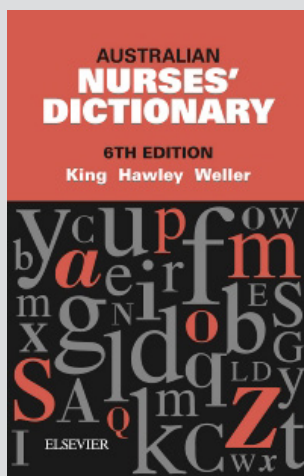

Includes
evolve
Resources!

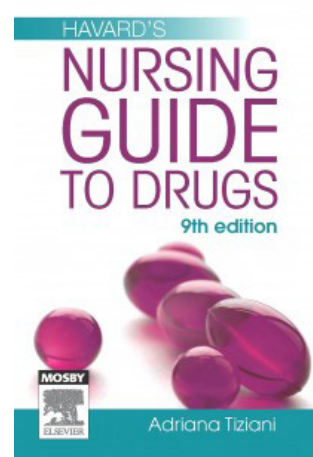

Mosby's Dictionary of Medicine, Nursing & Health Professions, 3e
Harris | Vardaxis | Nagy

This definitive reference text delivers more than 1,100 new and revised definitions, more than 50 new drug entries, plus 74 new and updated tables for key reference information.

Australian Nurses' Dictionary, 6e
King | Hawler | Weller

This dictionary features comprehensive nursing definitions, guidelines, terminology, policies and procedures, and provides a quick reference source for both students and nurses.

Havard's Nursing Guide to Drugs, 9e
Tiziani

This versatile drug guide features a thorough outline of all drugs by both trade and generic names as well as patient teaching and current pharmaceutical guidelines.

“Havard's Nursing Guide to Drugs is a great, versatile book and I would recommend this to any nurse, student nurse or even student doctor.”

Reviewed by Louise Goodyear -
Nursing Times

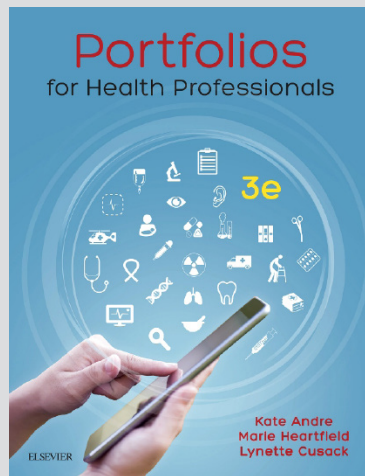

Contexts of Nursing Case, 4e

Daly | Speedy | Jackson

This exceptional nursing text incorporates diverse views and voices and sometimes-controversial topics, encouraging student nurses to reflect, discuss and debate various issues, and ultimately helping them to develop their own positions.

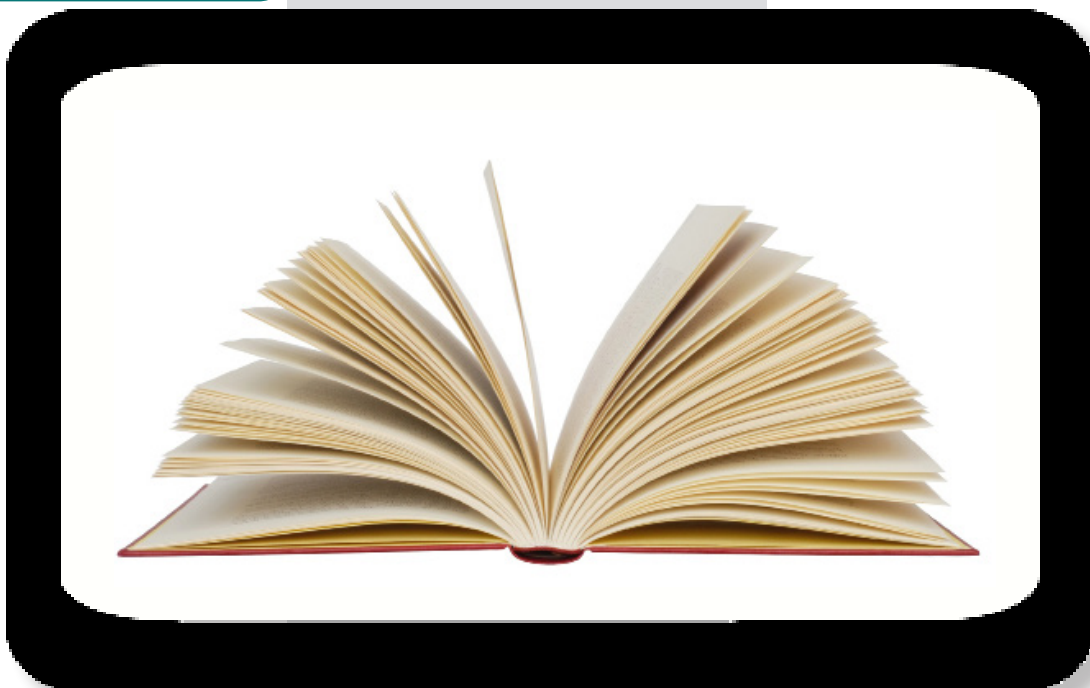

[View Sample Chapter](#)

Portfolios for Health Professionals, 3e

Andre | Heartfield | Cusack

Now revised to address a range of health professions, this third edition will help students to gain a basic understanding of what a portfolio is, how it is used, and why different types of portfolio may be required for different purposes.

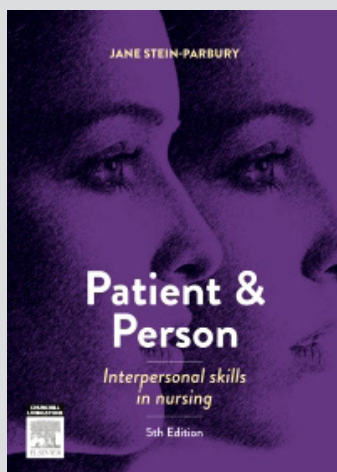

Includes
evolve
Resources!

Communication, 3e O'Toole

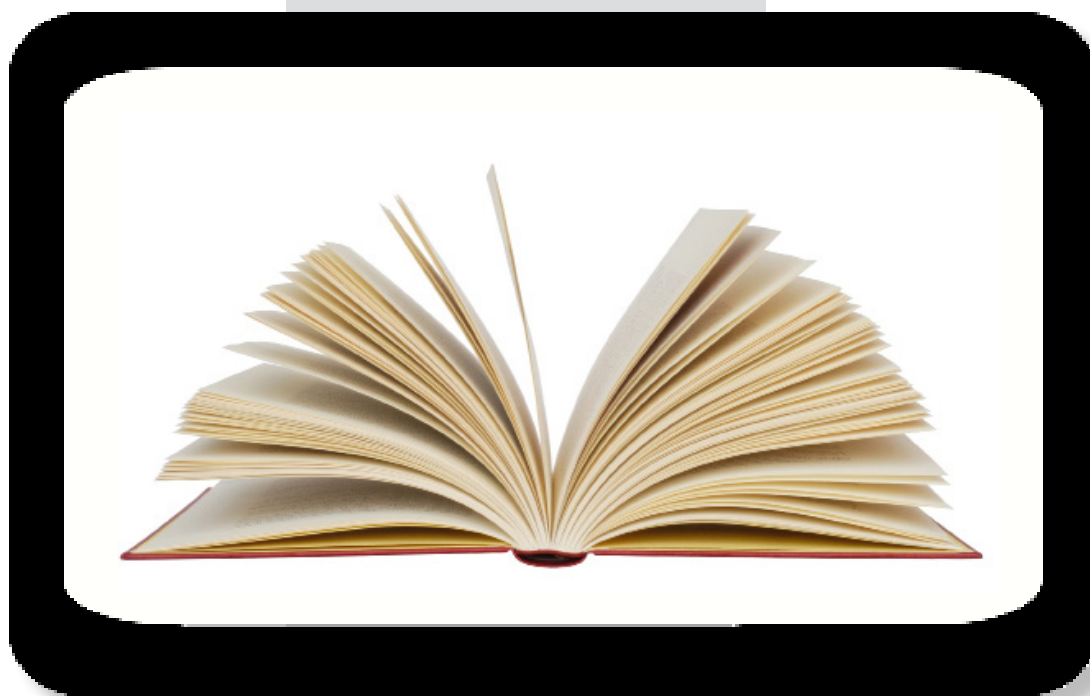

This fully revised third edition will appeal to the health student and practitioner seeking to improve communication style and practice in an increasingly complex healthcare environment.

[View Sample Chapter](#)

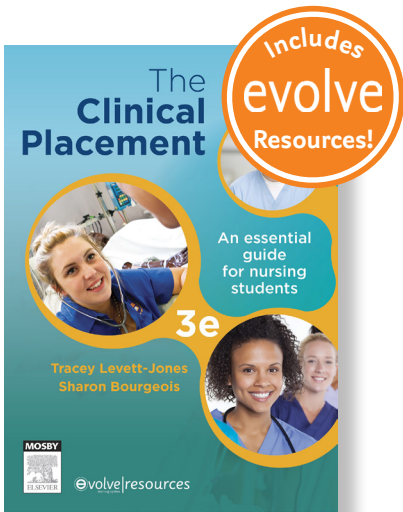

Patient and Person, 5e Stein-Parbury

This key text systematically addresses the theoretical, practical and personal dimensions of relating to patients, and provides guidelines for determining when and how to act.

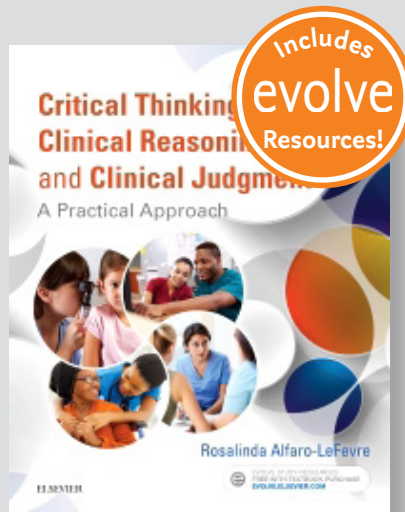

CLINICAL PLACEMENT

The Clinical Placement, 3e Levett-Jones | Bourgeois

With a focus on expectations and how to think, act, feel and communicate within complex clinical environments, this text provides tips for maximising learning opportunities and practical strategies for dealing with difficult and challenging situations.

[View Sample Video](#)

Critical Thinking, Clinical Reasoning and Clinical Judgement, 6e Alfaro-LeFevre

With a motivational style and insightful “how-to” approach, this unique textbook draws upon real-life scenarios and evidence-based strategies as it guides you in learning to think critically in clinically meaningful ways.

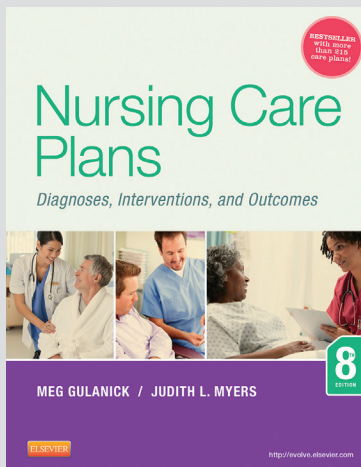

Lewis' Medical-Surgical Nursing, 4e

Brown | Edwards | Seaton | Buckley

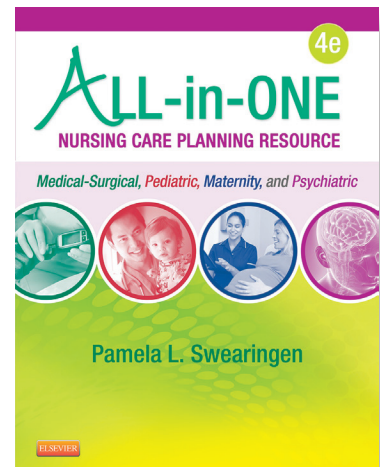

Using the nursing process as a framework for practice, this edition reflects the rapid changing nature of nursing practice and the increasing focus on key nursing care priorities.

Nursing Care Plans, 8e

Gulanick | Myers

Complete with 217 care plans, this bestselling nursing care planning book covers the most common medical-surgical nursing diagnoses and clinical problems seen in adults.

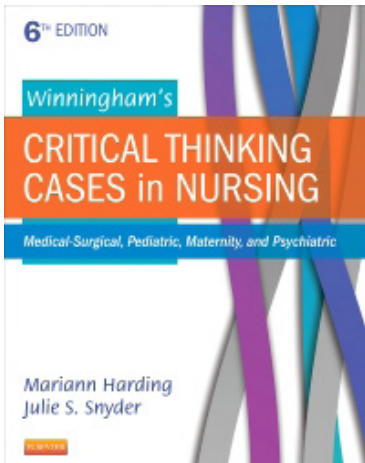

All-in-One Nursing Care Planning Resource, 4e

Swearingen

The only book featuring nursing care plans for all core clinical areas, this title provides 100 care plans with the nursing diagnoses and interventions you need to know to care for patients in all settings.

“This is a great book, I referred to it a lot during my Bachelor of Nursing degree.”

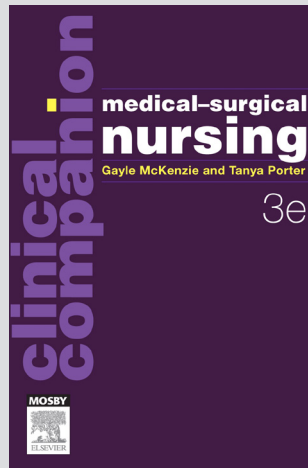

Review by Suyin - Elsevier Customer

Critical Thinking Cases in Nursing, 6e

Harding | Snyder

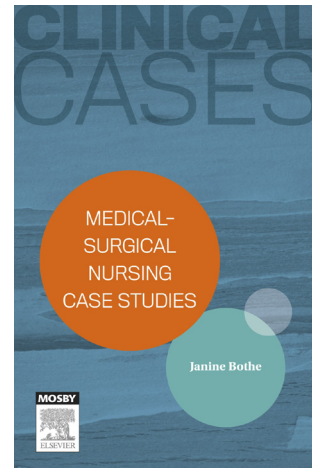

This highly regarded text reflects the most current standards of clinical practice, including content on pharmacology, nutrition, and diagnostic/laboratory tests to prepare you for all aspects of patient care.

Clinical Companion to Medical-Surgical Nursing, 3e

McKenzie | Porter

This companion text provide accessible information to assist with nursing care, including the assessment and management of people experiencing chronic, acute and complex health issues.

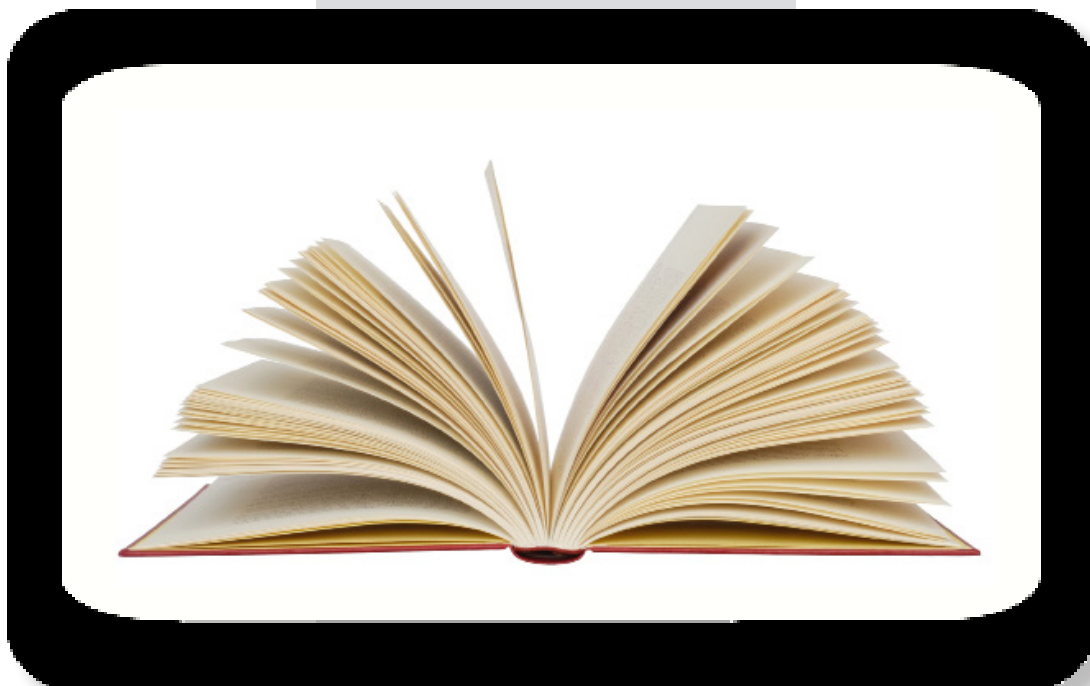

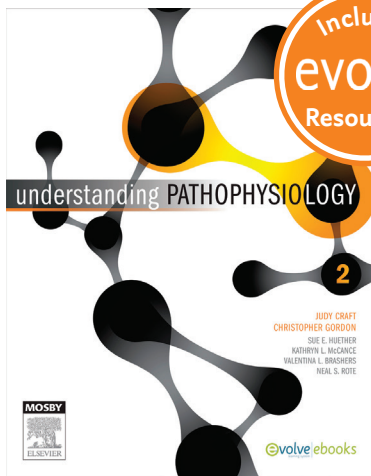

Medical-Surgical Nursing Case Studies

Bothe

This textbook is complete with multiple choice questions throughout the chapters so you can revise and test your knowledge as you progress through the text.

Includes
evolve
Resources!

Pharmacology for Health Professionals, 4e

Bryant | Knights

This text reflects the most up-to-date information on the clinical use of drugs, Australian and New Zealand scheduling, drug legislation and ethics.

Includes
evolve
Resources!

Pharmacology for Health Professionals Workbook

Knights | Miners

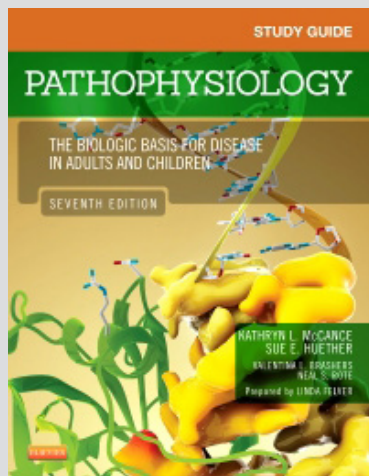

This text reflects the most up-to-date information on the clinical use of drugs, Australian and New Zealand scheduling, drug legislation and ethics.

Pathophysiology, 7e
McCance | Heuther

With easy-to-read, in-depth descriptions, this text helps you understand the most important and the most complex pathophysiology concept.

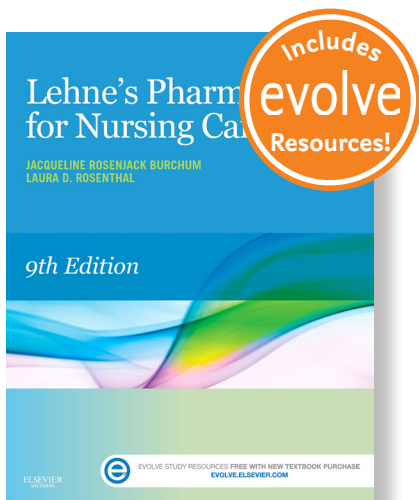

Study Guide for Pathophysiology, 7e
McCance | Heuther

With interactive questions and disease processes, this study guide offers practical activities to help you review and remember basic pathophysiology.

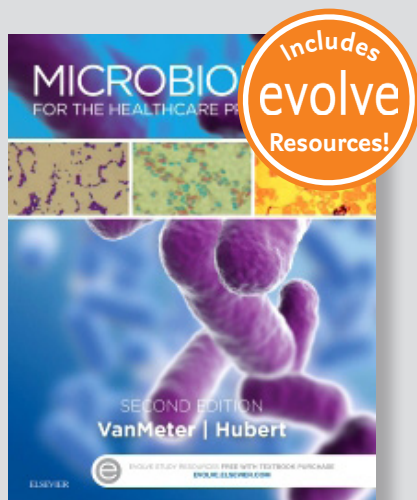

Pathophysiology: Online Access Code and Textbook Package, 7e
McCance | Heuther

This money-saving package enhances the textbook with online activities showing processes and concepts using animation, sound, and more.

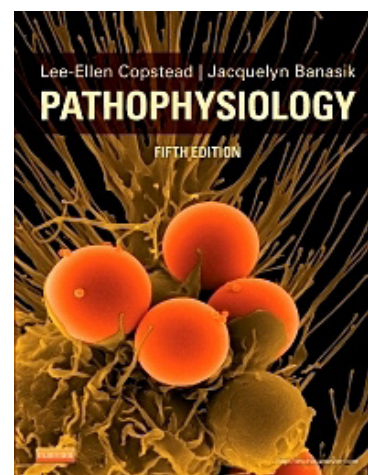

Lehne's Pharmacology for Nursing Care, 9e
Burchum | Rosenthal

Known for its clear explanations of drug prototypes, this text provides a solid understanding of key drugs and their implications for nursing care.

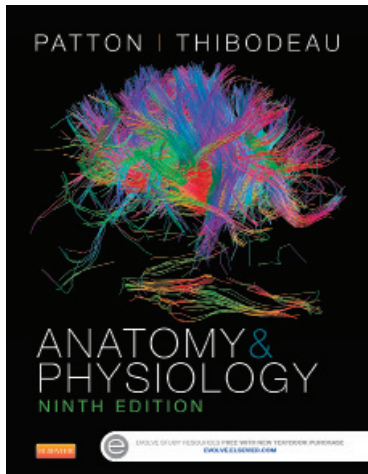

Microbiology for the Healthcare Professional, 2e
VanMeter | Hubert

Critical for today's healthcare professional, this title offers an excellent foundation for understanding the spread, treatment, and prevention of infectious disease.

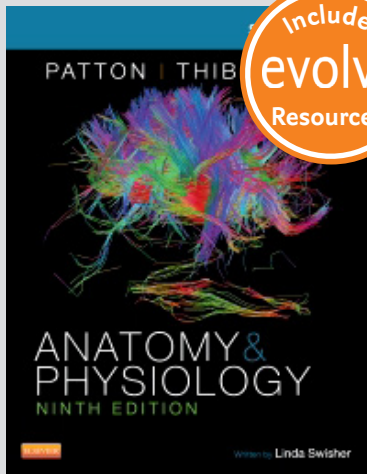

Pathophysiology, 5e
Copstead-Kirkhorn | Banasik

This title explores the etiology, pathogenesis, clinical manifestations, and treatment of disorders.

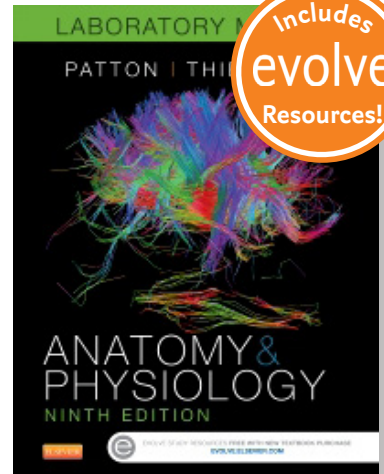

Anatomy & Physiology, 9e
Patton | Thibodeau

Focusing on the unifying themes of structure and function and homeostasis, this title utilises an easy-to-follow narrative style to guide readers through difficult A&P material.

Study Guide for Anatomy & Physiology, 9e
Patton | Thibodeau

This text provides a variety of chapter activities and questions in a variety of formats designed to help you apply concepts and test your A&P knowledge.

Anatomy & Physiology Laboratory Manual, 9e
Patton | Thibodeau

This practical, full-colour lab manual contains 55 different A&P lab exercises that cover labeling anatomy identification, dissection, physiological experiments and much more.

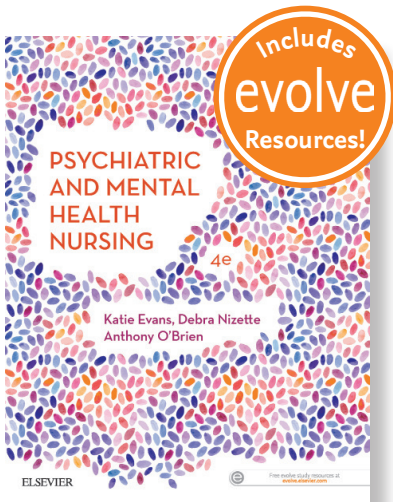

'TEXTY' WINNER!
Anatomy & Physiology, Ninth Edition by Patton and Thibodeau has received the prestigious 2016 Textbook Excellence Award

The Human Body in Health and Disease - Text and Elsevier Adaptive Quizzing Package, 6e
Patton | Thibodeau

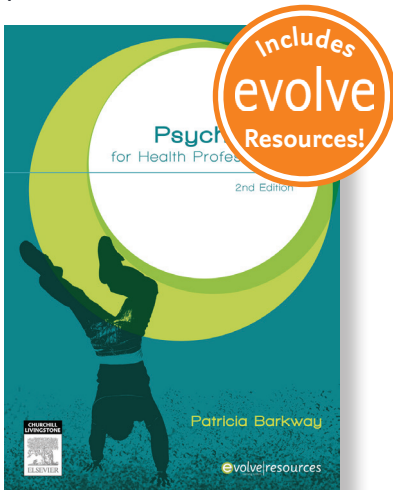

This package is the fun and engaging way to focus your study time and effectively prepare for class and exams.

Psychiatric and Mental Health Nursing, 4e

Evans | Nizette | O'Brien

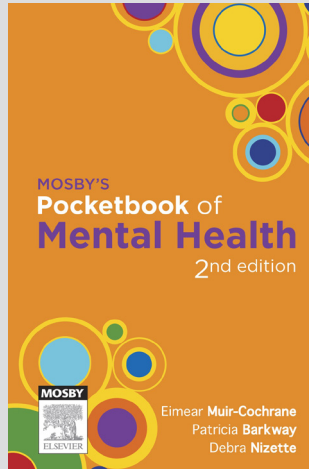

This essential text provides vital information for approaching the most familiar disorders mental health nurses and students will see in clinical practice.

Psychology for Health Professionals, 2e

Barkway

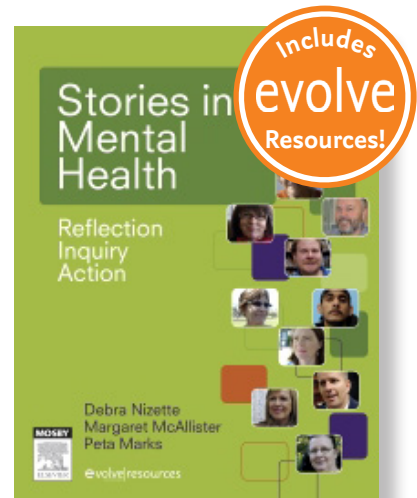

Written specifically for health science and nursing students, this fully updated text examines essential psychological theories within a social context.

Mosby's Pocketbook of Mental Health, 2e

Muir-Cochrane | Barkway | Nizette

Mosby's Pocketbook of Mental Health is a convenient reference guide for nursing students and health professionals required to respond to individuals in crisis.

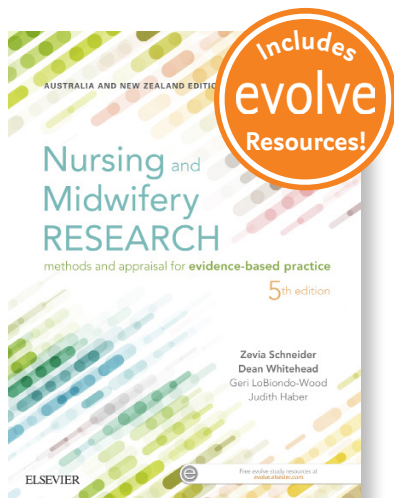

Stories in Mental Health

Nizette | McAllister | Marks

This important mental health resource features 27 video and audio interviews with a range of consumers, carers and clinicians that give a much-needed voice to mental health care.

[View Sample Video](#)

Nursing and Midwifery Research, 5e

Schneider | Whitehead | LoBiondo-Wood | Haber

This text is an essential guide to developing research skills, critically appraising research literature and applying research outcomes to practice.

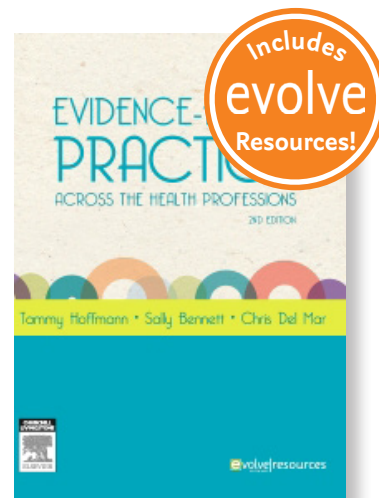

[View Sample Chapter](#)

Navigating the Maze of Research, 4e

Borbasi | Jackson

Written for undergraduate nurses, this title introduces the research process and provides insight into both how and why research is conducted.

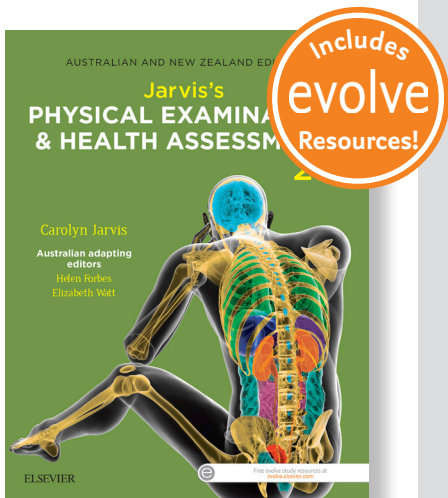

Evidence-Based Practice, 2e

Hoffman | Bennett | Del Mar

This publication provides health professions students with the basic knowledge and skills necessary to become evidence-based clinicians.

HEALTH ASSESSMENT

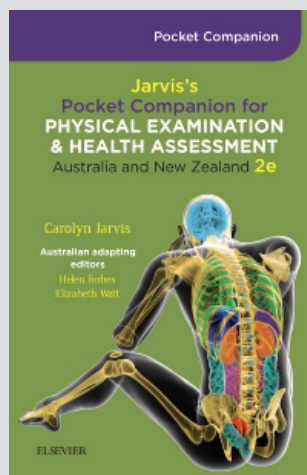

Physical Examination & Health Assessment, 2e

Evans | Elder | Nizette

Physical Examination and Health Assessment incorporates the most up-to-date research data, clinical practice, policies and procedures.

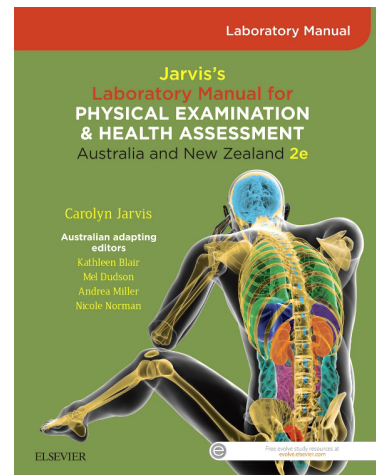

[View Sample Chapter](#)

Pocket Companion for Physical Examination & Health Assessment, 2e

Forbes | Watt

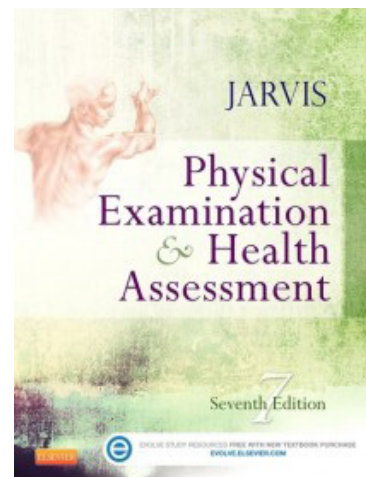

This must-have clinical placement guide and bedside resource provides the essential steps for health assessment in an user-friendly, pocket size format.

Physical Examination & Health Assessment Lab Manual, 2e

Evans | Elder | Nizette

This lab manual is a practical, step-by-step guide designed to develop competency in history taking and physical examination skills.

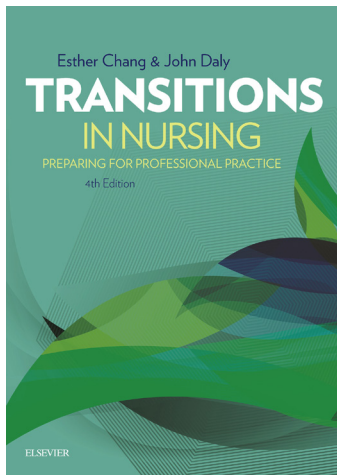

Jarvis's Physical Examination & Health Assessment, 7e (US Edition)

Jarvis

With an easy-to-read approach and unmatched learning resources this text offers a clear, holistic approach to physical exams across the lifespan.

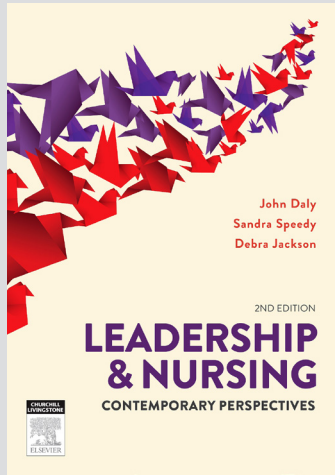

Transitions in Nursing, 4e Chang | Daly

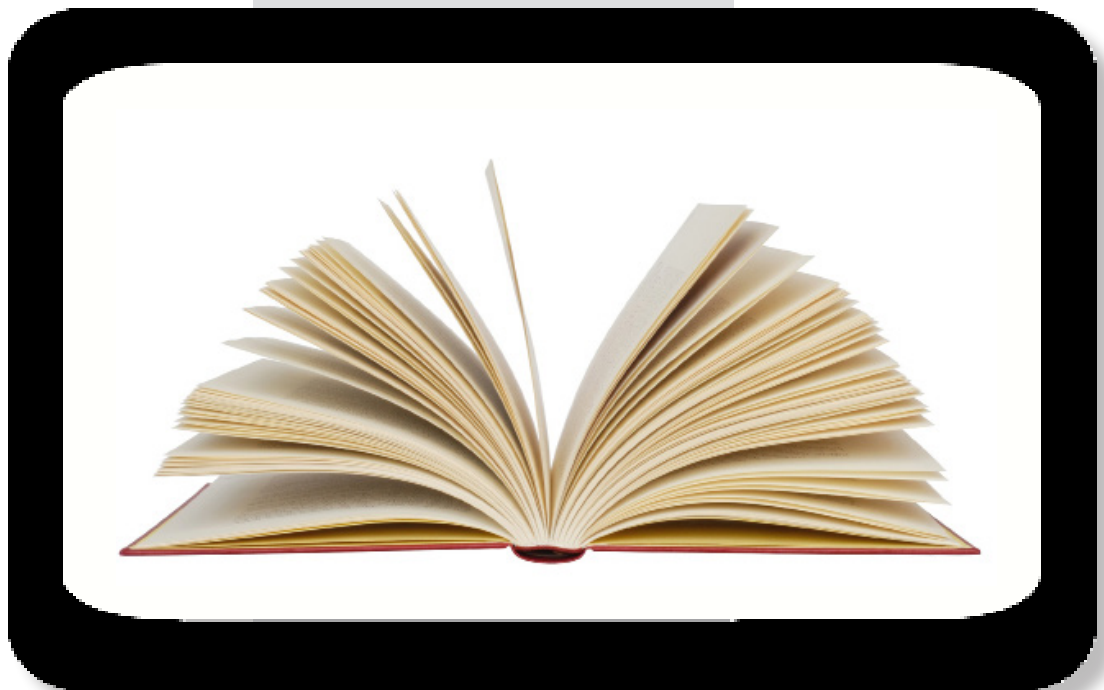

Transitions in Nursing continues to offer fresh insights and discussions around the issues and challenges faced by senior nursing students when making the transition to nursing practice.

[View Sample Chapter](#)

Leadership & Nursing, 2e Chang | Daly

This title presents a global perspective of leadership issues within the Australian context. It builds on the premise that nursing leadership is for all nurses - not just those who are authorised to hold a position within an organisation.

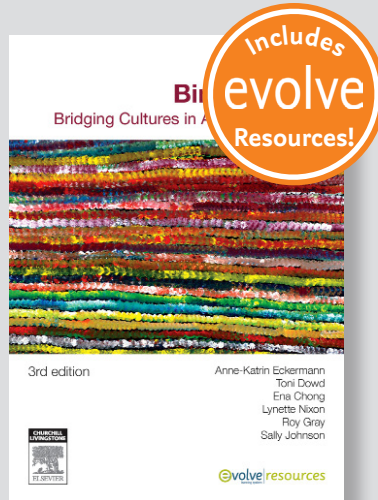

Australia's Rural, Remote and Indigenous Health, 3e

Dade-Smith

Drawing on the personal experiences of practitioners, historical accounts, literature analysis and epidemiology, this text is a practical guide to the delivery of health care in rural and remote Australia.

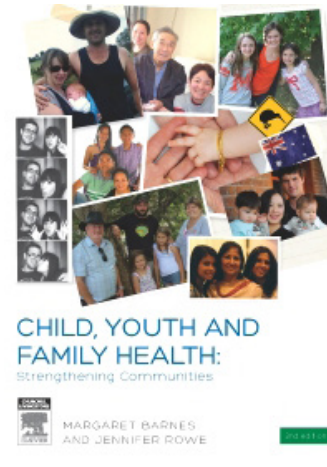

[View Sample Video](#)

Binan Goonj, 3e

Eckermann | Dowd | Chong | Nixon | Gray | Johnson

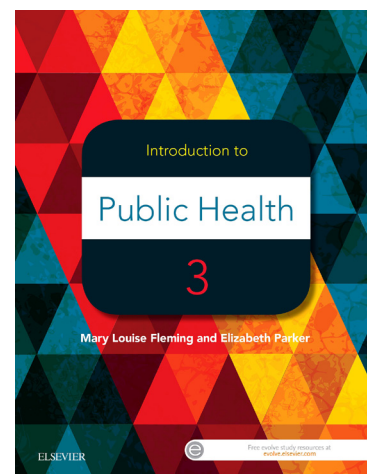

Binan Goonj, 3rd Edition: Bridging cultures in Aboriginal health is a comprehensive Indigenous health text which addresses key topics in a clear and accessible manner.

Child, Youth and Family Health, 2e

Barnes | Rowe

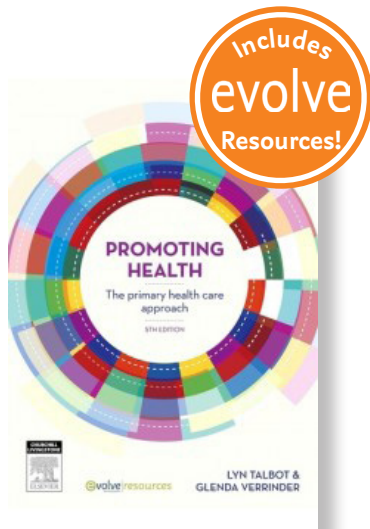

This title focuses on the importance of a collaborative partnership between healthcare professionals and members of the community.

Introduction to Public Health, 3e

Fleming | Parker

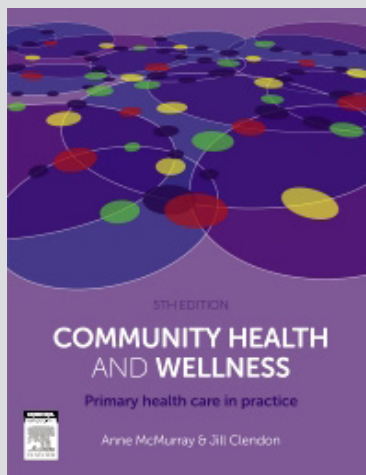

This title provides an up-to-date, comprehensive overview of the key concepts and principles of public health from a multidisciplinary perspective.

Promoting Health, 5e
Talbot | Verrinder

Featuring updated policy and practice initiatives, this health promotion text clearly explains the integral role of primary health care in supporting health promotion across all health care settings internationally.

[View Sample Chapter](#)

Community Health and Wellness, 5e
McMurray | Clendon

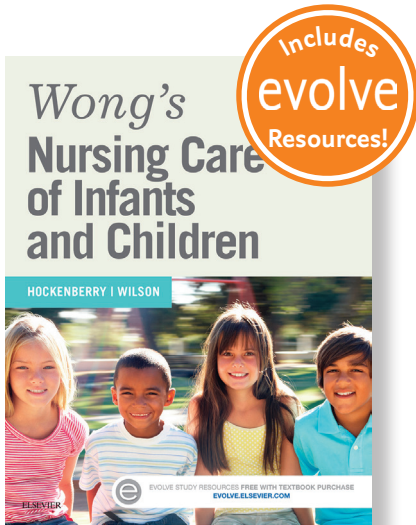

This title represents contemporary thinking and research in community health and wellness from Australia, New Zealand and the global community.

Health Promotion Throughout the Life Span, 8e
Edelman | Kudzma | Mandle

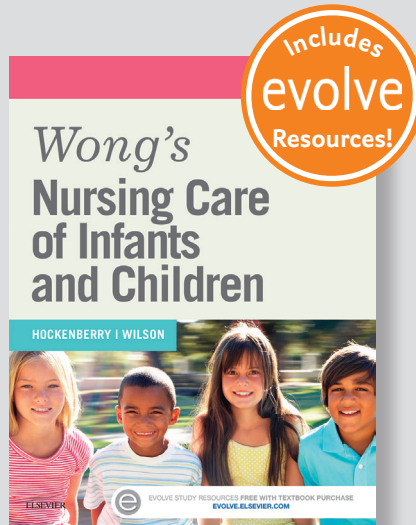

This comprehensive guide gives readers the tools required to stay current on the latest research and trends in health promotion.

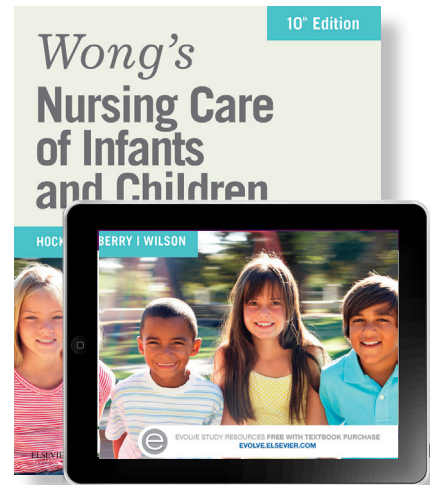

Wong's Nursing Care of Infants and Children, 10e
Hockenberry | Wilson | McCampbell

This leading text, takes a unique, clear developmental approach to describe the care of children at each age and stage of development.

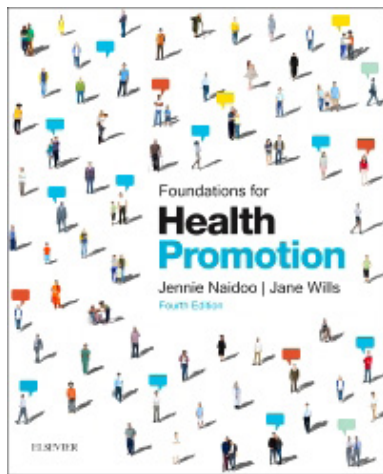

Study Guide to Wong's Nursing Care of Infants and Children, 10e
Hockenberry | Wilson | McCampbell

This study guide reinforces your understanding of pediatric nursing with learning activities, review questions, and case studies.

Wong's Nursing Care of Infants and Children, Text + Elsevier Adaptive Learning Package, 10e
Hockenberry | Wilson

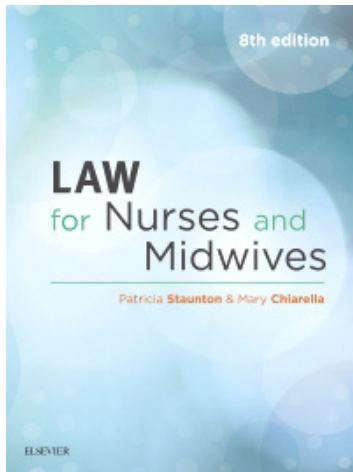

Corresponding chapter-by-chapter, this pack combines the power of brain science with sophisticated algorithms to help you learn faster.

Foundations for Health Promotion, 4e
Naidoo | Wills

Containing over 300 artworks, tables and 'pull out' boxes, this new edition continues to offer a wealth of information in a unique, user-friendly format.

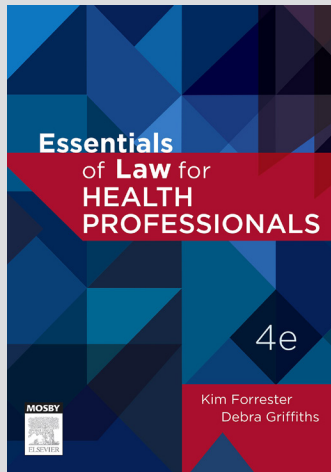

Law for Nurses and Midwives, 3e
Staunton | Chiarella

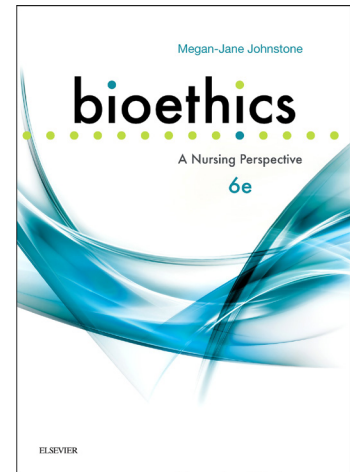

Now in its 8th edition, this fundamental text outlines legal issues and responsibilities specific to both nursing and midwifery practice and features the legislation relevant to the provision of safe, quality healthcare in Australia.

[View Sample Chapter](#)

Essentials of Law for Health Professionals, 4e
Forrester | Griffiths

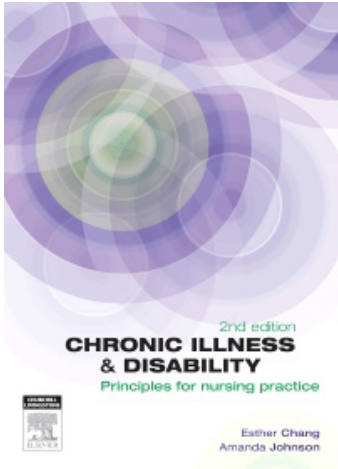

This text provides students with the information and knowledge necessary to make well-informed and considered decisions about their legal rights and obligations, and the legal rights and obligations of the patients and clients.

Bioethics, 6e
Johnstone

An essential resource for both undergraduate and postgraduate students and registered nurses to develop new insights and moral wisdom around ethical issues they will face in clinical practice.

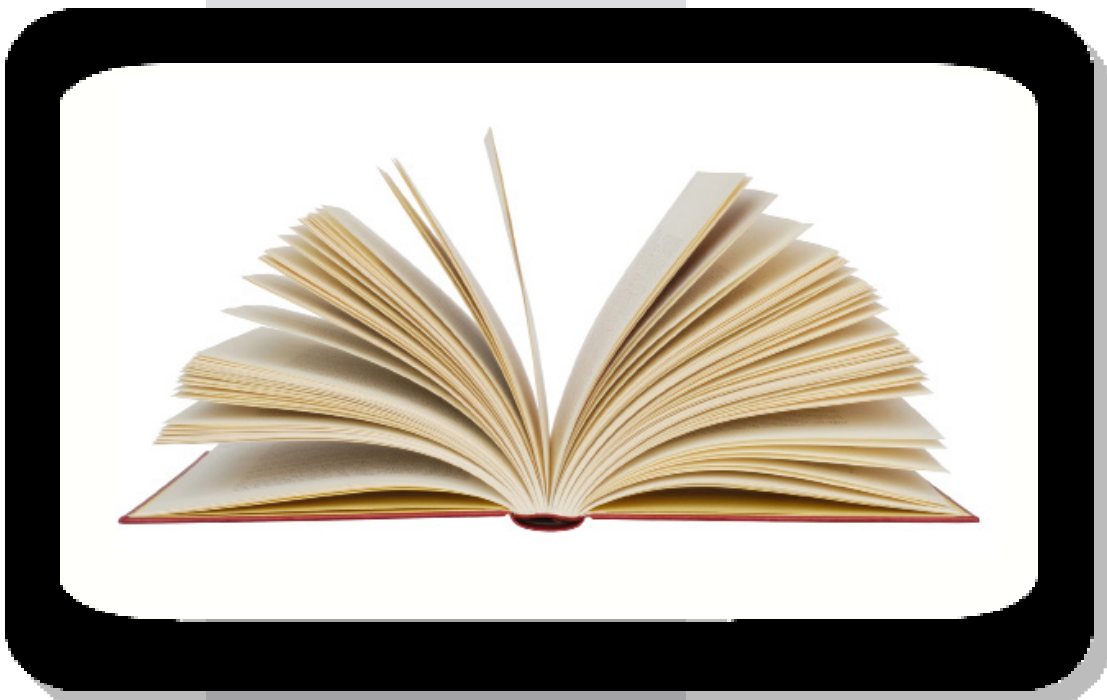

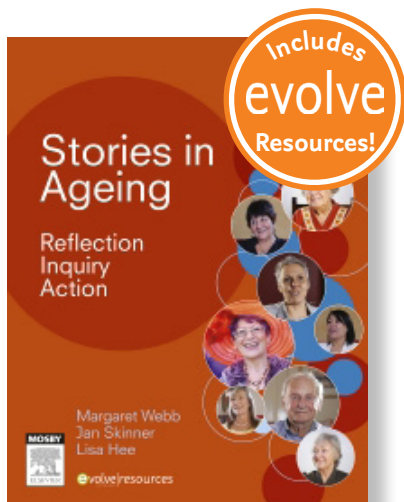

Chronic Illness and Disability, 2e

Chang | Johnson

Chronic Illness and Disability: Principles for Nursing Practice is an indispensable tool, helping nursing students and health professionals acquire the knowledge and skills for competent quality care.

[View Sample Chapter](#)

Stories in Ageing: Reflection, Enquiry, Action

Webb | Skinner | Hee

Stories in Ageing presents an insightful collection of personal stories as told by a range of older people, carers, health professionals and family members. This valuable resource builds empathy and understanding by providing examples of innovative approaches to care.

[View Sample Video](#)

Older People, 4e

Nay | Garratt | Fetherstonhaugh

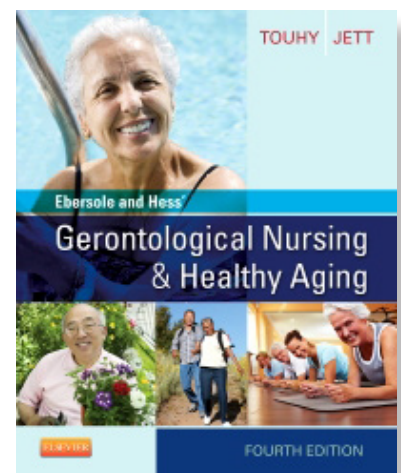

Now in its fourth edition, *Older People: Issues and Innovations in Care* provides a unique collection of conversations and commentaries by leading international and local experts on a range of contemporary issues around the care of older people.

Towards Health Aging, 9e

Touhy | Jett

Grounded in the core competencies recommended by the AACN and Hartford Institute for Geriatric Nursing, this is the only comprehensive text to address all aspects of gerontological nursing care.

Gerontological Nursing & Healthy Aging, 4e

Touhy | Jett

Designed to facilitate healthy aging regardless of the situation, this is the only gerontological nursing text that follows a wellness-based, holistic approach to older adult care.

Custom Solutions

What can we create?

As the leading publisher in nursing, medicine and health professions, we understand the unique challenges you face. Custom solutions are about creating resources that will engage your students and help them to succeed. When it comes to creating a custom solution, only Elsevier can offer the quality, expertise, and support you need – and deliver it all within your timeline.

Custom print and digital books

Whether you want to mix and match from multiple sources or simply change the format and cover, our book solutions cover the full spectrum of custom publishing options.

What can we include?

Compile readings from books in print or out-of-print, journals, your notes and diagrams, lecture presentations, case studies or assessment questions.

Custom instructor, student websites and e-learning modules

Moving online? We can build custom evolve websites with digital resources or incorporate our content into SCORM compliant eLearning modules to upload into your LMS.

Licensing

Interested in using our content in your own way? In addition to our text-based content, we license videos, animations, simulations and our multimedia.

In the end you have content aligned to your program, produced and delivered to the same quality and standard and delivered in a way that works for you.

Contact your local Account Manager for more information, or to create your own custom solution.

POST-GRADUATE NURSING

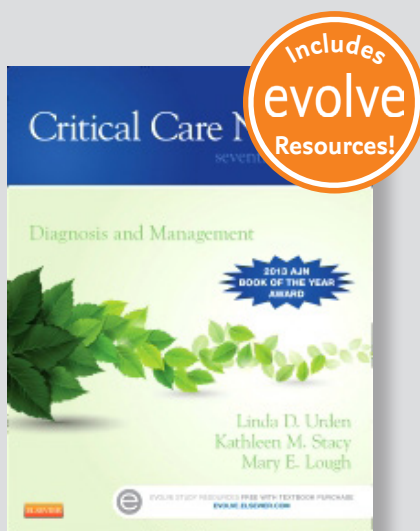

CRITICAL CARE

Management of the Mechanically Ventilated Patient, 2e
Pierce

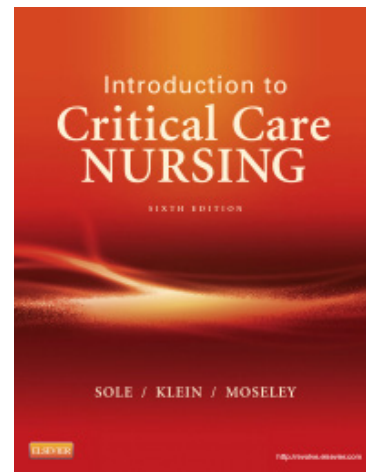

This title functions as both an educational manual and a clinical reference for those involved in monitoring, managing, and delivering care to patients requiring respiratory intervention or mechanical ventilatory support.

2016 Nursing & Midwifery Catalogue

Critical Care Nursing, 7e
Urden | Stacy | Lough

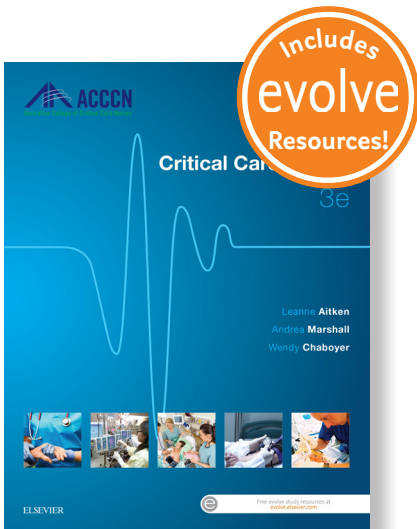

Praised for its comprehensive coverage and clear organization, this text is the go-to critical care nursing text for both practicing nurses and nursing students preparing for clinicals.

Introduction to Critical Care Nursing, 6e
Sole | Klein | Moseley

User-friendly and easy to understand, Introduction to Critical Care Nursing, 6th Edition offers clear, concise coverage of essential critical care concepts, technology, and procedures.

ELSEVIER

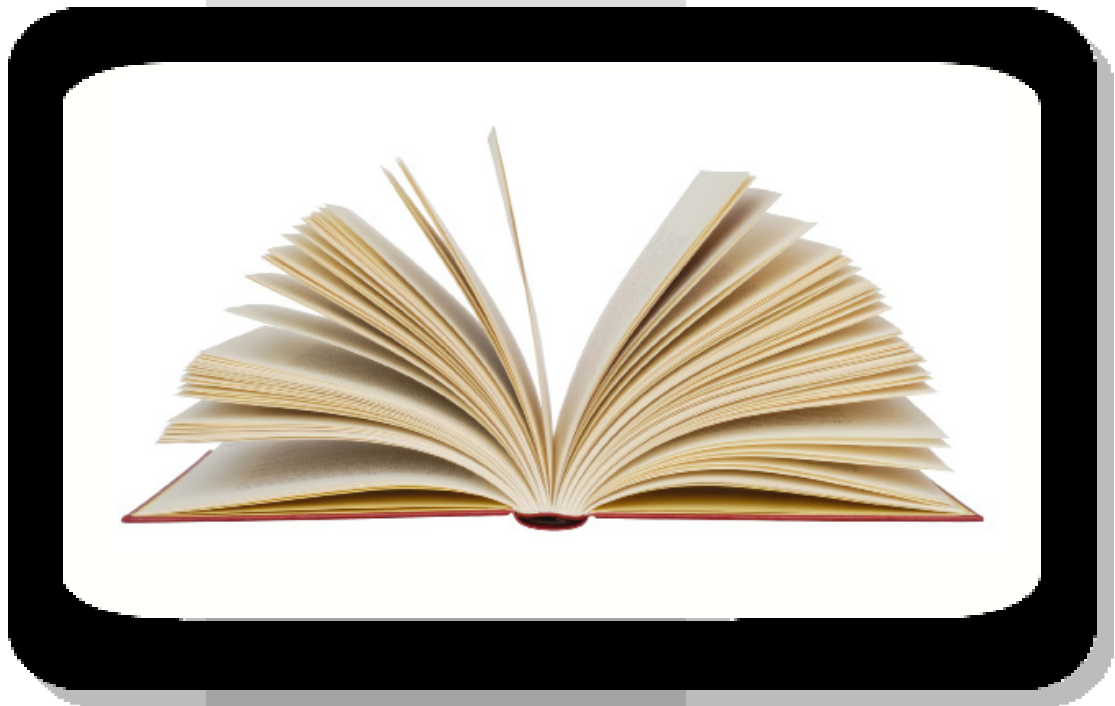

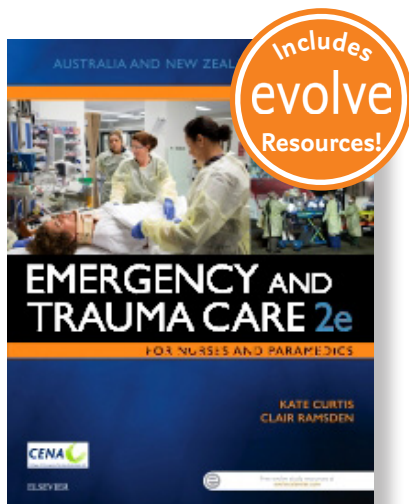

ACCCN's Critical Care Nursing, 3e

Aitkin | Marshall | Chaboyer

Endorsed by the Australian College of Critical Care Nurses, this text features the most recent evidence-based research and up-to-date advances in clinical practice, technology, procedures and standards.

[View Sample Chapter](#)

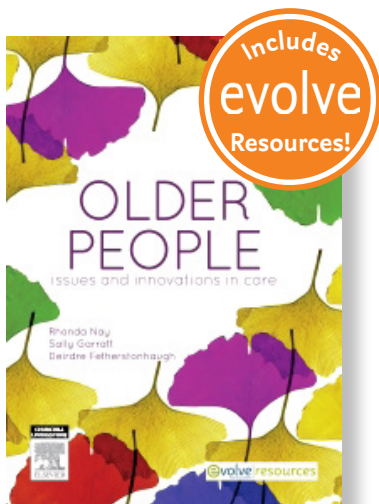

Emergency and Trauma Care, 2e

Curtis | Ramsden

The second edition of *Emergency and Trauma Care for Nurses and Paramedics* provides the most up-to-date and comprehensive coverage of clinical procedures and issues encountered in contemporary emergency care in Australia and New Zealand.

“I found the the book to be an essential resource since it is easy to read, thorough and well structured. Furthermore, the book contains plenty of graphs, flow charts and conceptual maps that aid the student in the process of critical thinking and the priorities in emergency situations”

Review by Diana - Elsevier Customer

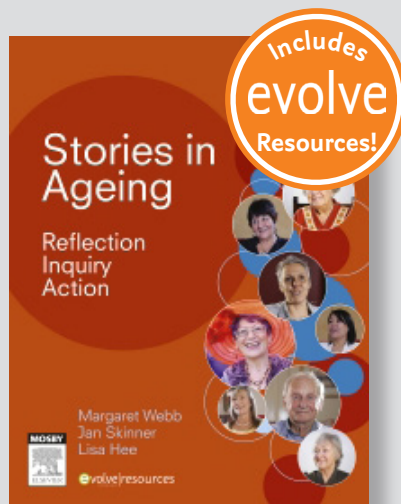

Older People, 4e

Nay | Garratt | Fetherstonhaugh

Now in its fourth edition, *Older People: Issues and Innovations in Care* provides a unique collection of conversations and commentaries by leading international and local experts on a range of contemporary issues around the care of older people.

[View Sample Chapter](#)

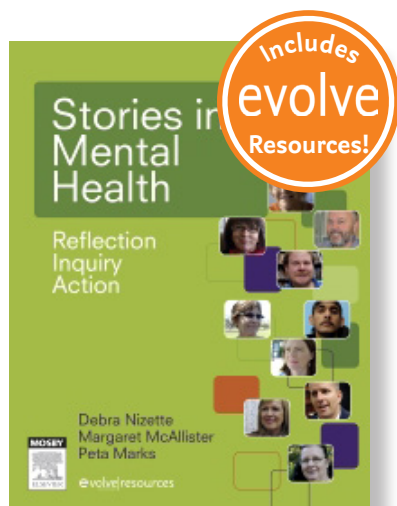

Stories in Ageing: Reflection, Enquiry, Action

Webb | Skinner | Hee

Stories in Ageing presents an insightful collection of personal stories as told by a range of older people, carers, health professionals and family members. This valuable resource builds empathy and understanding by providing examples of innovative approaches to care.

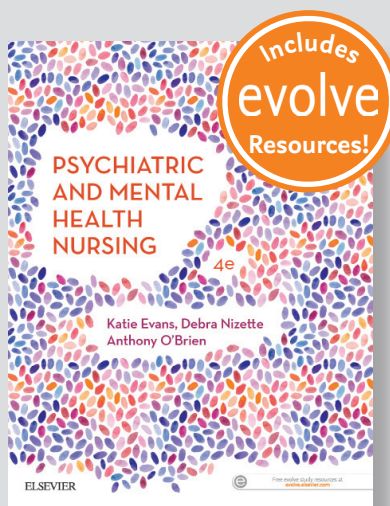

Stories in Mental Health: Reflection, Enquiry, Action

Nizette | McAllister | Marks

Featuring 27 video and audio interviews with a range of consumers, carers and clinicians, this important resource gives a much-needed consumer voice to mental health care.

[View Sample Video](#)

Psychiatric and Mental Health Nursing, 4e

Evans | Nizette | O'Brien

Set within a recovery and consumer-focused framework, this essential text provides vital information for approaching the most familiar disorders mental health nurses and students will see in clinical practice.

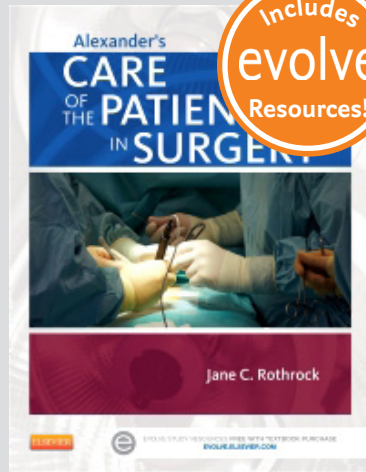

PERIOPERATIVE NURSING

Perioperative Nursing, 4e
Hamlin | Davies | Richardson-Tench | Sutherland-Fraser

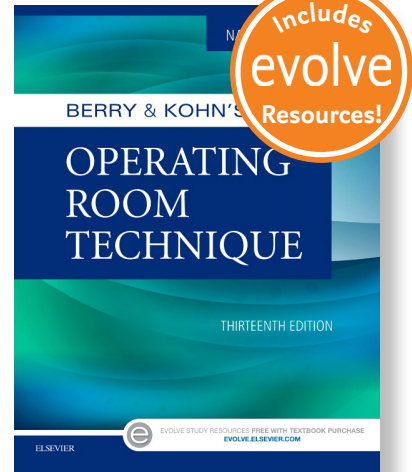

Appropriate for nursing students and graduates entering the perioperative environment, *Perioperative Nursing, 2e* offers a sound foundational knowledge base to underpin a perioperative nursing career.

[View Sample Chapter](#)

Alexander's Care of the Patient in Surgery, 15e
Rothrock

This edition adds cutting-edge information to reflect new concepts for both invasive and non-invasive surgical procedures, whether the location is in a hospital, outpatient clinic, or doctor's office.

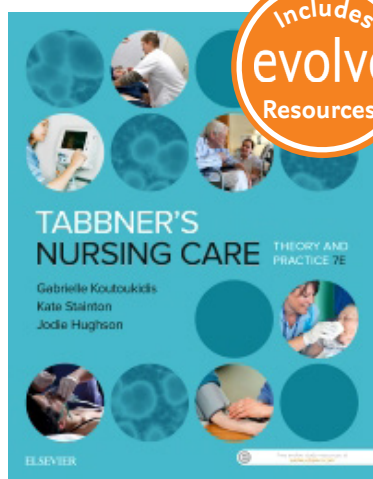

Berry & Kohn's Operating Room Technique, 13e
Phillips

Highly readable, accurate, and comprehensive, it clearly covers the “nuts and bolts” of surgical techniques in a step-by-step format that makes it easy to effectively apply basic principles to clinical practice.
