Chess Club

In this situation we see two good openings. We are ready to get into the end-game stage with fireworks about to explode! You are white; analyze the board as fast as you can, see which pieces are under attack and also which pieces are missing protection.

6 What is the best move for white?
 Remember, forcing your opponent to make moves is how you take charge on the battlefield.

Solution from last month's puzzle:

Pawn to G4 is the single worst move you can make if you were white in last month's situation. This would allow black to execute the fastest possible mate in chess by taking Queen to H4.

“*Travel* brings excitement, fear, awe and a plethora of new emotions.”

--- National Geography

How's your vacation experience going this summer?

Jamaica, Budapest or Tokyo... Did you meet new friends, and have a good time with them? Did you enjoy the white sand, the sea breeze and the refreshing native beverages? Did you taste local cuisine, no matter its Callaloo, Wagyu Beef or Café de Paris?

Come, share your travelogue with us! We'd like to capture the precious time you spent with your friends and families. Tell us the most memorable moment you had during your trip. And bring us new ideas about how we can improve our culinary, our service or even the layout of the club. We want to absorb all of the brilliant elements from your journey. More importantly, we want to try our best to meet your satisfaction.

Would you like to share those moments with us?

Important Safety Information

1. Golf cart maintenance should only be performed by trained and authorized personnel. Never attempt to do anything on your golf cart unless you have been trained and qualified. Ask your golf cart dealer for proper instructions. Do not rely only on what you read and see on the Internet. It can be DANGEROUS!

Batteries in your golf cart require maintenance. One important warning is that batteries, when charging or discharging, emit EXPLOSIVE hydrogen gas. Do not smoke, have an open flame, sparks, or any ignition source near batteries. Do not charge batteries in a closed area without proper ventilation. The individual cells of the batteries need distilled water added periodically. Call your golf cart dealer for instructions. A deep cycle battery should be recharged before it reaches 50% of discharge, optimal 20% of discharge.

2. Driving safety can not be ignored. According to the Consumer Products Safety Commission there are over 10,000 golf cart related injuries every year that require emergency room treatment. When you combine increased speeds, sharp turning, and rear wheel braking, the chances of ejection and roll-over are increased. One factor for this is the lack of suitable anchor points for the restraints and no built in rollover protective structure. There are also some simple safety rules that will also assist in preventing injuries.

Passengers must be educated in the safety devices designed into the manufacture of golf carts and instructed on their use. Two of the most important features on golf carts not equipped with seat belts are the "hand hold" bars that rise out of the sides of the seat and "hand hold" molded into the roof on some models. These features can prevent passenger ejection. Another important fact about many golf carts is that braking for many carts is accomplished by only one set of brakes on the rear wheels. This feature can cause instability if golf carts speed is increased due to traveling down a hill or on steep road grades.

We hope you enjoy and benefit!

Men's Card Room

"The Judge"

Big city lawyer Hank Palmer returns to his childhood home where his father, the town's judge, is suspected of murder. Hank sets out to discover the truth and, along the way, reconnects with his estranged family.

Wednesday, July 15th and July 29th 7:30 p.m.

Men's Card Room

"Lady Chatterley"

Many schools put this classic romantic novel of D H Lawrence on their summer read list decades ago. Lady Chatterley, 201 minutes of this exquisite film will be broken up into 2 parts.

The photography is breathtaking as well as the acting. Marina Hands plays Constance whose husband is paralyzed in WWI but manages to keep his architectural business alive and works at gaining strength for himself. She is torn between the love for her husband and her physical desires.

Jean-Louis Coulloc'h, plays the gamekeeper whom Constance gets a quick glance at his upper strength while washing up outside his shack. She was sent there to request a pheasant for the night's dinner.

Once again, as in The Hunt, the ending MAY leave you up in the air as concerning the future of this magnificent relationship, but you can form your own opinion.

This is a must see classic beauty of nature and love, and Marina Hands alone is a beautiful woman to watch on the screen.

This film did win the 2008 Independent Spirit Award.

Presented by Dr. Stuart Bailin

Dr. Stuart Bailin is a Professor Emeritus from York College, The City University of New York and a Beethoven enthusiastic and historian. Professor Bailin received a Bachelor of Science degree from the State University of New York at Cortland, a Master of Science degree from the University of Massachusetts at Amherst, and a Doctor of Education degree from Teachers College, Columbia University in New York City.

Dr. Bailin's passion for Classical and Romantic period music and his expertise with respect to Ludwig van Beethoven's life and music in particular, has given him an opportunity to share the joy of Beethoven's music with his audiences. His lectures are enlightening and inspiring and incorporate both musical excerpts and interesting commentary regarding Beethoven's life and works.

First lecture of the summer
Mozart's Operas
Tuesday, July 7th at 5:00 p.m.

Mozart was perhaps the greatest opera composer that ever lived. In fact, Mozart composed more than 20 operas including such as "The Marriage of Figaro", "Don Giovanni", "Cosi Fan Tutte" and "The Magic Flute". His operas are as popular today as they were in his time.

The 19th Hole will be available for your dining pleasure.
Please contact the Food & Beverage Office (561) 273-2647 to register.

Upcoming lecture:

Tuesday, August 11th at 5:00 p.m.

A stylized, handwritten signature of "Mozart" in black ink, with a decorative flourish underneath.

Presented by Rita Boutros

Rita Boutros is a fine arts instructor who has been teaching for many years in oils, acrylics, drawing and watercolor. She has worked in various media and has exhibited in New York and Florida in both groups and solo exhibitions. Her work is part of the collection of the Museum of Art and Origins in New York.

Henri Matisse

Wednesday, July 8th 2:00 p.m. - 5:00 p.m.

As one of the French Fauves (and a contemporary of Picasso), Matisse became a trailblazer in contemporary art. Once Matisse saw a subject a certain way, everyone around him couldn't help but see it the same way. We will try our hand at a Matisse, using the same innovative use of color and perspective. French pastries and champagne will be available to help evoke the flavor of Paris.

Tropical Landscape

Wednesday, August 19th 2:00 p.m. - 5:00 p.m.

In this program, we take some inspiration from the tropical landscape, creating a soothing, balmy vista that is perfect for the middle of summer. Use of palette knife work will be encouraged to create more dimension and interest in the work. We'll stay cool with some seasonal fruits and wine coolers.

Georgia O'Keefe

Wednesday, September 9th 2:00 p.m. - 5:00 p.m.

Get ready for some O'Keefe in this Santa Fe-inspired session that will focus on this great artist. O'Keefe explored a variety of subjects that were rendered in her own unique style. We'll learn about her life and the art world in which she lived as we undertake one of her paintings.
