## HISTORY & HERITAGE

As a Stoke-on-Trent pottery brand, Price & Kensington is a world renowned ceramic tableware company, with a history and heritage dating back over 100 years.

Our story started back in 1896, when the innovative Price Brothers founded their earthenware manufacturing company in Crown Works, Burslem. Specialising in tabletop accessories and teapots, the brothers quickly became renowned for their distinctive designs. Through their hard work and dedication the Price Brothers brand saw rapid success. In 1934 they moved to the Top Bridge Works in Longport, where they became known as Price Bros Ltd.

During their time at the Top Bridge Works, the brothers developed a strong working bond with Kensington Potteries, who specialised in novelty teapots. This bond grew so strong that the two companies eventually merged in 1962, to become known as Price & Kensington.

Rich in heritage and passionate about tabletop accessories and teapots, the Price & Kensington brand continues to flourish under family ownership. Whilst teapots remain at the heart of the product range, we also offer a number of tabletop collections, including co-ordinating storage and dinnerware to accommodate all tastes and styles.

We understand that for generations, the kitchen has been the heart of the home, which has been and remains the fundamental inspiration for our new developments.

“Some of the original brick built bottle kilns still stand today and capture a historical image of industrial life in this famous pottery area.”

“Rich in heritage and passionate about teapots and tabletop accessories, the Price & Kensington brand continues to flourish.”
