## A Unique Approach

Abreu, which was founded in 1840, is a destination management company sharing its unique legacy of experience and knowledge with its clients. It is a partner that is ever attentive to the specific requirements of every market in which it possesses a consolidated position. Abreu is a specialist in providing creative solutions, capable of innovating and surprising as well as being ahead of their time. This is the Abreu brand's unique approach. The starting point for a significant relationship at your next event, with Portugal, Spain and Brazil as the setting.

Abreu's own offices all over Portugal, including the autonomous regions of the Azores and Madeira, as in Spain, Madrid and Barcelona, and in Brazil, Rio de Janeiro, ensure that the company is uniquely aware of the situation on the ground and the potential that exists in a local and regional context. No matter where, you can rest assured that assistance and logistical support will be available at all times and it will be entrusted to those with an in-depth knowledge of the region and location.

## Corporate Social Responsibility

Abreu assumes as one of its priorities, in the regions where it operates, a true responsibility towards local communities, associations or organizations that require, beyond any governmental aid, additional support of different kinds and additional financial stability.

Throughout its existence Abreu has developed its own actions in order to give back to the communities part of the company and employee's efforts.

## Sustainable Events will make a Better World

Abreu defends the world efforts on providing a better climate and environment for the next generations. In our destinations we are conscious of the need of suggesting "green activities" and "green proposals" for your next event among us. Recyclable items, bio disposable products, nature orientated activities, and ideas of how reduce waste and CO2 emissions are in our minds. Please let us know if you want us to provide alternative and "greener" options for your next event among us.
